In finding whether a temple is or is not an "excepted" temple the Court has to consider not only whether the right to the trusteeship is hereditary, but also whether in fact such right has been exercised by the members of the founder's family. The words "has been hereditary" in S. 9 (5) of the Hindu Religious Endowments Act suggest that the right contemplated is one which has continued to be exercised up to date. What has to be taken account of is the *de facto* exercise of hereditary right and not of a mere presumptive right not exercised for several generations. ——**S. 18—(As amended by Act IV of 1930)**—*Excepted temple—Board starting scheme proceedings suo motu—Appointment of receiver pending final order—Legality—If* ultra vires—*Writ of* certiorari—*Issue of.*

The Hindu Religious Endowments Board, Madras, started *suo motu* proceedings under S. 62 of Act II of 1927 to frame a scheme for a temple which was an excepted temple according to the amended definition of Act IV of 1930. While the draft scheme was pending consideration by the trustees, the Board, purporting to act under S. 18 of Act II of 1927, appointed an *interim* receiver of the temple for realising the collections and offerings during Fridays in the month of Adi, with a view to ascertain the correct income derived by the temple during the Adi Fridays,

Held, that the order appointing a receiver was *ultra vires*, as the Board had no such powers of interference with the trustees of excepted temples, and that the general principle "that where an Act confers jurisdiction it impliedly also grants the power of doing all such acts or employing such means as are essentially necessary to its execution," cannot override the more particular provisions of the Act which defines the powers,

Held, further, that even if no actual relief is possible because the period during which the collections were to be made was already past, the matter was one of such importance, and the order a serious infringement of the rights of the trustees that the case was a proper one in which the High Court should exercise its right of *certiorari*, and the order appointing receiver should be set aside as being in excess of the Board's jurisdiction. ———**S 63**—*Scheme—Internal management of excepted temple—Interference by Board.*

The policy of the Act is to place mutts and excepted temples in normal conditions under much less direct and detailed interference from the Board in matters of internal management than ordinary temples. This does not mean that in cases of proved mismanagement or incapacity, or in the imperative interests of future good government, such interference may not have to be provided for in a scheme. But in the absence of such special grounds the proper aim in a scheme of administration for an excepted temple is to leave the internal managements as much as possible to the trustees providing only such safeguards as are sufficient to prevent grave misgovernment and to make the power of superintendence of the Board effective. In particular, no inquiry can be made into the merits of the decision upon which the demand is based. It is, however, open to the Court to decide in any disputed case whether the property out of which it is proposed to realise the amount is a religious endowment within the meaning of the Act. When notice is served on the archakas, they have no right to dispute the validity of the notice served by the Board on the ground that it was not served on the trustee. ——**S. 73**—*Scope and effect of.*

The respective spheres of S. 92, C. P. Code, and S. 73 of the Madras Hindu Religious Endowments Act must not be forgotten. The latter Act removes from the ambit of S. 92, C.P. Code, only those religious trusts which amount to "religious endowments" under that Act. Where an endowment or fund is set apart for two

MADRAS HINDU RELIGIOUS ENDOWMENTS ACT (1927), S. 73.

purposes, namely, for the renovation of a temple and for the maintenance of a vedapatasala not connected with any temple, the entire amount of the fund being devoted to both purposes together without any apportionment or severance, the endowment is not a "religious endowment" falling under the Madras Hindu Religious Endowments Act, because one of the purposes, though religious, is outside the scope of the Act. ——**S. 73**—*Scope—Suit by trustees against alienees—Bar.*

The effect of S 73 of the Act is that a suit which could only be instituted by the Advocate-General or by some persons with his consent under S. 92, C.P. Code, must, when it relates to religious endowments governed by the Act, be instituted by the Religious Endowment Board or by some person having an interest and with the consent of the Board. Hence a suit by a trustee to recover trust property from the alienees is outside the scope of S. 73. (*Beasley, C. ——**S. 73**—*Scope—Suit by trustee against person wrongly in possession of trust property.*

The bar under S. 73, is only in respect of suits relating to the administration or management of the trust, *i.e.*, proceedings against the trustee and not in respect of proceedings against the person who is wrongly in possession of the property in which the trust is interested. Where the claim by the trustee of a temple is for a declaration that defendant 1 had no right under the sale deed taken by him from defendant 2 on the ground that the property is burdened with a service to the temple.

It is not made too costly because it is inexpedient to do so where the relief

is for the removal of a trustee or to vest property in a Receiver, etc. But when it is sought to recover properties which may be worth lakhs of rupees and to recover monies as a result of taking accounts of gross mismanagement or as damages for some act of default, to permit such suits to be filed with a Court-fee of Rs. 50 seems not to have been intended by the Legislature. A scheme was settled by the Religious Endowments Board in respect of a temple under S. 57 of the Act and the petitioner became the trustee, in virtue of that scheme. He applied to the District Court under S. 78 of the Act against the ex-trustee for being put into possession of the property. In spite of the order of the Court granting his request he was unable to obtain actual possession of either the temple or its properties by reason of resistance offered by two strangers. The lower Court felt that the moment an adverse claim was put forward by a third party, its power came to an end and the trustee should be directed to enforce his remedy by filing a regular suit,

Held, (1) that under S. 78, the Court has power to deal with the question, by whomsoever the obstruction is offered at the outset; whether by the ex-trustee or by stranger. But it does not follow that the Court is in every case bound to hold an investigation, for, in the exercise of its discretion, which the section vests in it, it may decline to do so, directing the trustee to seek his remedy in an independent legal proceeding. (1933) M. W.N. 934 diss. from ; A.I.R. 1933 Mad. 120, followed. (2) If the adverse claim put forward is of a *bona fide* nature or if difficult and complicated questions have to be gone into, the Court may properly refuse to make an enquiry. (3) The power of the Court is not exhausted when, upon a petition directed against the ex trustee, it had made an order directing the delivery of possession. In the present case the trustee procured such an order in the first instance but complained that the execution of it was prevented by reason of the resistance offered by the third parties. (4) The applications mentioned in S. 78 are proceedings in a Court of civil jurisdiction within the meaning of S. 141, C. P. Code. Hence the provisions of O 21. Rr. 97, 98 and 99 become applicable and the Court can in virtue of the power conferred by them make the investigation. *National Telephone Co. Where a ryot enjoys the water voluntarily, nothing further need be shown, and his liability to pay cess directly asises under Cl. (*a*) of S. 1 of the Act. But where the enjoyment of the water is involuntary, the ryot can be made liable only if the conditions in Cl. (*b*) are satisfied, the chief of them being that the irrigation has proved beneficial. The distinguishing feature of Cl. (*b*) is the involuntary nature of the enjoyment; and except in the case of voluntary enjoyment, ryotwari holders coming under proviso (2) are not liable for water-cess under the Act. The use of the words "supplied or used" implies that water must be intentionally supplied and voluntarily used. A person having no choice in the matter, *i.e.*, an option either to take or refuse the water, cannot be said to have "used" the water within the meaning of the Act, so as to make him liable for the cess. The holders of Mokhasa or Agraharm villages in Zamindari had no right to object to transfer by a zamindar of the whole or part of his zamindari, or to the separate registration and apportionment which is necessary to give effect to it. So far as they are concerned it is mere substitution of one zamindar for another and in no way affects their rights. Villages situated in the zamindari, are presumably the property of the zamindari, but if the holders of the villages are in a position to rebut this presumption and to desire to obtain separate registration and thereby make themselves directly liable for a portion of the Government peishcush, their right to do so will not be affected. The definitions of street in the Act of 1884 'road' in the amending Act of 1900. 'Public road' in the Act of 1920—all of them convey the same idea of a road or other way over which the public have a right of way and all of them include the marginal spaces on either side between the actual roadway and the adjacent property. Apart from some alterations in the language in describing the limit of the adjacent property, there is nothing in the amendment to suggest that the new definition excludes a road margin belonging to Government which might have been included in it under the older Act. Under both Acts the real question is whether the disputed Government property is really only adjacent to the road and not a part of the road in the sense of being used or treated or intended to be used or treated as part of the road. Such a suit is not barred under the Local Boards Act. The case is one in which the common law right to property is interfered with under colour of statutory powers. When a person committed an offence in the failure to obey the notice issued under S. 159 of the Madras Local Boards Act to remove or alter the encroachment or in other words it was the failure to remove or alter the encroachment specified in the notice that constituted the offence and the Court once acquitted him but the accused was again charged with the same offence and the Magistrate held that the accused was not liable to be tried again for the same offence in view of S. 403, Cr. P.C.

Held, it would not be right or just when the Court had once decided that there had been no failure to remove an encroachment and acquitted the accused, to make the same person liable to be tried again and again for failure to remove the encroachment simply because the same authority hoped to get a different decision later on by issuing one notice after another. Otherwise there would be no end to such prosecutions. Another separate or distinct is not brought into being by the issue of a subsequent notice when that notice is by the same authority and to the same person and relates to the same encroachment or contains the same direction Once there is such failure to remove an encroachment the offence is complete and failure to perform an act is *ex necessitate rei*, continuous in character. If a person has been convicted for failure to remove an encroachment he is to be prosecuted again, not under sub-section(1) of S. 207 for failure to remove the same encroachment but for "continuing breach" under sub-sec. A bye-law or rule or order passed by a Local Board relating to the taking out of a licence is not bad merely because the licence-fee is excessive. MADRAS LOCAL BOARDS ACT (1920), R. 8.

under S. 42, appointed a member of the Panchayat Board to convene meeting for the election of a President on 30th March, 1933. The Vice-President of the Panchayat Board meanwhile went on with his arrangements to hold a meeting on 31st March, 1933. On the 30th March an election took place and the petitioner was unanimously elected. On the following day there was another election arranged by the Vice-President and again the petitioner was elected. The Election Commissioner set aside both the elections and the principal points for consideration were whether by taking an erroneous view of the legal position arising from the facts stated in the orignal petition the Election Commissioner gave himself a jurisdiction which he properly had not got and whether, even allowing that he had jurisdiction, he acted in the exercise of that jurisdiction with material irregularity.

Held, that this was a case in which a writ should be issued quashing the proceedings of the Election Commissioner who came to the conclusion without evidence to justify it, that the result of the election was affected by the refraining of another candidate from standing for election owing to the fact he was misled to believe that the election held on the 30th March would be invalid. If in an enquiry for which there is jurisdiction an error is made which can be regarded as something which went beyond the jurisdiction of the Court or was done without jurisdiction and is not merely a wrong view of the law then the writ can be granted. The decision of the Commissioner on a matter of fact, in proof of which there was no evidence, was beyond the scope of his jurisdiction. It is essential to the liability to pay the tax under S. 5 (1) and to the imposition of the penalty for failure to pay the tax under S. 7 of the Madras Motor Vehicles Act, that there should be proof that the motor vehicle in question was kept or used within the Presidency of Madras for the period for which the tax is claimed to be due. Endorsements on the registration certificate describing the transferee thereof as belonging to the Presidency do not afford an adequate ground for presuming such keeping or use; nor do they furnish presumptive proof of the same. S. 17 empowers the Government, in the case of a grant of land made or continued by the State in respect of, or annexed to, a village office, such as *karnam*, to free the land from the liability of service and to impose instead a quit rent to be paid by the village officer. But a proviso to the section makes it clear that the legislature did not intend to deprive a private proprietor of his right to recover the land, if it was granted by him or his predecessor in interest. Where the proprietor of an estate lays claim to lands enfranchised under the section and occupied by village *karnams* who are allowed to hold the same on payment of a quit rent, it is for him to prove that they were granted by him or his predecessor. The fact that the disputed property is situated within the geographical limits of his estate does not necessarily lead to the conclusion that it was originally owned by his ancestor and given by him to the *karnams*. Nor does the circumstance, that the *karnams* have been rendering private services to the zamindar, necessitate the inference that the lands held by them are grants from private persons. The zemindar is a person of importance and authority in his estate, and if a *karnam* within the estate does some private work in order to please the landed magnate he does not thereby cease to be a public officer. MADRAS REVENUE BOARD'S STANDING ORDERS—*Order No. 15, Rr. 20 and 23—Assignment of land on dharkhast—Power of revision—Civil Court's power to discuss sufficiency of grounds for orders by Collector.*

The power of revision reserved for a period of three years in the rules laid down in the Board's Standing Orders relating to assignment of lands on dharkhast, is not anything like the kind of revision that one knows in judicial proceedings but was intended to make sure that public interests do not suffer by the act of a Subordinate Revenue Officer. The powers of revision are reserved in pretty wide terms, being available whenever the original assignment was the result of mistake of fact or of fraudulent misrepresentation or was in excess of the limits of authority possessed by the officer making it and the further power of revision secured to the Board of Revenue is in wider terms. These provisions do not relate to the adjudication of rights as between two contesting parties as in an ordinary litigation, but are reservations subject to which alone the power vested in the Governor in Council by Act of Parliament to dispose of immovable property belonging to Government has been delegated to subordinate officers. Where the rules laid down in the Board's Standing Orders for the assignment of lands on dharkhast expressly gave the Collector a power of interference in revision with the order of the Revenue Divisional Officer and the Collector accordingly exercised his powers of revision.

Held, that it was not open to the civil Court to discuss the sufficiency or otherwise of the grounds on which the order of the Collector in revision was passed. Before an order of the Collector passed in revision as provided in the rules laid in Board's Standing Orders for assignment of lands on dharkast is attacked in a civil Court, it must be shown that there has been an abuse of the power of revision or something in the nature of a fraud on the power. ———**S 59**—*Applicability—Irregularities in conducting sale and absence of jurisdiction—Distinction between—Notices under Ss.* 25, 27 *and* 36 *addressed to dead person—Sale—Validity of—Suit to set aside.*

There is a clear distinction between irregularities in publishing and conducting the sale in which case the suit must be brought within six months prescribed by S. 59 and essential preliminary steps which are necessary to give the revenue authorities jurisdiction to conduct the sale, the omission of which makes the sale null and void. In the latter case, S. 59 does not apply. The whole procedure in connection with sale of immovable property is based on the assumption that there is a defaulter living who can receive the notices and avail himself of a chance to avoid the sale of his property by payment of the arrears. So where the village officers knew that the pattadar had long ago died but had not corrected the register and on default of payment, notices of demand, attachment and sale were sent addressed to the dead man and affixed to the property, the sale is void. A suit to set it aside is not subject to the period of limitation prescribed by S. 59 of the Act. **40 I.A. 151=25 M.L.J. 148 (P.C.).** Rel. When he actually removed the salt the salt tax had been enhanced but the extra sum was not collected from him at that time. A demand for the payment of that sum was however made subsequently and the plaintiff, while denying his liability, paid the tax under protest in order to avoid coercive process and then sued to recover the sum so paid.

Held, that though according to the rule framed under S. 85 (2) of the Madras Salt Act, the tax was payable at the rate in force during the removal of the salt, still since the plaintiff had removed the salt and there was no personal liability on his part to pay the enhanced duty, the subsequent recovery of the tax under S. 84 of the Act was illegal and the plaintiff was therefore entitled to recover the amount paid by him. 6 B. 251, Ref. ———**S. 13**—*Boundary dispute — Order of survey officer—If conclusive as to title—Effect on adverse possession.*

The order of a survey officer in boundary dispute under S. 13 of the Survey and Boundaries Act, is conclusive proof that the party in whose favour it is made has title to the land in dispute and that the defeated party has no title thereto by adverse possession at the date of the order. The decision of the survey officer is not limited to the correctness of the boundaries determined. The adverse possession of the unsuccessful party, if any, is also interrupted by the order and demarcation consequent thereon. Therefore the successful party is not bound, in a suit for possession against the defeated party, to prove possession within twelve years possession of suit apart from the order of the survey officer. An order of the Collector removing a member of the Village Court for any of the reasons specified in S. 8 of Madras Act I of 1889 is not a mere departmental or administrative order. A member of the Panchayat Court is not as such a departmental subordinate of the Collector. The right which such member has, concerns his status and is a valuable legal right and any order which has the effect of impairing or taking away such right should *prima facie* be taken to be more of a judicial character rather than that of a mere departmental or administrative character. In respect of such an order a writ of *certiorari* is available if a proper case is made and this power of the High Court is not taken away by the word 'final' in that section. *Rex* v. *Nat Bell Liquors, Ltd.*, (1928) 2 A.C. 128, Foll. ———*Co-heirs — Dower debt realised entirely from non-taluqdari property—Taluqdari property inherited by defendant uneffected—Liability to contribution.*

On the death of a Mahomedan, the inheritance vests in his heirs according to their respective shares, although in the administration of the estate, the funeral expenses, debts and legacies must be paid first and it is only the residue that is available for distribution among the heirs. "Residue" here means the residue of the partible estate and cannot include any portion of the impartible estate. So even if an entire divisible estate has been exhausted by the satisfaction of debts due from the deceased, this fact cannot create a right in any of the heirs to that estate to rehabilitate their shares by means of contributions from the impartible estate belonging to the same ancestors and inherited by another heir. So where the decree-holder realised the entire dower debt (which, however, was not charged on any specific property) from the non taluqdari property, as a result of which the shares of the heirs in the partible properties were proportionately reduced, the plaintiff is not entitled to maintain a suit for contribution as against the defendant who inherited the impartible taluqdari estate which was not affected by the execution proceedings, because that would be, in effect, under the guise of a suit for contribution, to divide the imparti-

In order that the texts (of Mahomedan Law) may be overridden by proof of customs and usages, the evidence must satisfy the Court that the majority at least of the given class of persons look upon the customary rule put forward as binding. That must be established by a series of well-known concordant and on thewhole continuous instances, so that the common consent of the class in question is clearly demonstrated by the number of instances proved. An agreement made before or after the marriage by which it is provided that the wife should be at liberty to divorce herself from her husband under certain specified conditions is valid if the conditions are of a reasonable nature and not opposed to the policy of Mahomedan Law. When such an agreement is made, the wife may at any time after the happening of the contingency avail herself of what was allowed in the deed and such a divorce will then take effect as if a talak had been pronounced by her husband. Where an agreement provided "I shall not marry another woman in the presence of *A*, and if I do so she is to be held to have been divorced by me, on account of the second marriage, simultaneously with that second marriage, she will be *qatai haram* (absolutely forbidden to my person) and this very divorce by me in her favour would be valid and legal"

———*Divorce—Forms of—Talak bain—Bidaat form —Presence of wife at the time of divorce unnecessary.*

The divorce called talak may be either irrevocable (bain) or revocable (raja). A talak bain, while it always operates as an immediate and complete dissolution of the marriage bond, differs as to one of its ulterior effects according to the form in which it is pronounced. A talak bain may be effected by words addressed to the wife clearly indicating an intention to dissolve the marriage, either; (*a*) once, followed by abstinence from sexual intercourse, for the period called the iddat; or (*b*) three times during successive intervals of purity, *i.e.*, between successive menstruations no intercourse taking place during any of the three intervals; or (*c*) three times at shorter intervals or even in immediate succession;

or (*d*) once, by words showing a clear intention that the divorce shall immediately become irrevocable. The first named of the above methods is called hasan (best), the second hasan (good) the third and fourth are said to be bidaat (sinful), but are, nevertheless, regarded by Sunni lawyers as legally valid. Where the words of divorce addressed to the wife though she was not present, were repeated three times by the husband as follows: "I divorce *A* for ever and render her harm for me," which clearly showed an intention to dissolve the marriage; and followed it by executing a deed of divorce, there can be no doubt that the method adopted was the fourth above described and this is confirmed by the deed of divorce, which stated that the three divorces were given "in the abominable form" *i.e.*, bidaat, the talak being addressed to the wife by name, and in the bidaat form the presence of the wife is unnecessary. 4 Cal. 588, Dist. The liability arises

from a civil contract and should be determined by the law applicable to contracts made by an authorized guardian. The rule of Mahomedan Law thrusting the liability on the father cannot be applied as a rule of justice, equity and good conscience, as it is quite unjust to enable the wife, and even her heirs to follow the property of her husband's father in the hands of his heirs other than the husband. ———*Dower—Liability for—Presents by husband from time to time—No presumption of satisfaction.*

In a claim for dower by wife from her husband's heirs who alleged that the debt was satisfied by payments made to her by the husband in his lifetime, it was admitted that she received sums of money from her husband which in the aggregate exceeded the dower amount, but these payments were made as "presents" from time to time in varying amounts. There was no evidence that the husband allocated any of these payments to the dower debt, nor was there any attempt at the trial to show that the lady accepted them as such. It was not suggested to her in cross-examination that any of these moneys were payments on account of dower. The dower deed was produced by her at the trial, and no payments were endorsed or noted upon it. There was in reality nothing in the evidence to rebut her claim. Reliance was placed on the maxim *debitor non praesumitur donare.*

Held, that it was doubtful if the maxim had any application as between husband and wife—at all events when the relations between them are such as are established in the present case. It was certain that in many cases the husband did make presents to his wife quite irrespective of her dower and it would hardly be presumed that a man in his position would desire to discharge such an obligation by driblets. 7 Beng. All that is necessary for the widow to retain possession until her dower debt is paid is that she should obtain possession not by force or fraud. She is in the position of a creditor and having obtained possession lawfully she is entitled to hold possession until her dower debt is satisfied. The consent of the heirs is not essential. If she has to depend upon consent of heirs that consent she will seldom get and the rule will become nugatory. 43

There is nothing to prevent a Mahomedan widow from instituting a suit for her dower for the purpose of obtaining a simple money decree against all the assets of her husband including the property in her possession at least by surrendering possession of such property in her hands. This right is heritable. If the right to receive dower and the right to remain in possession of certain property in lieu of such dower are vested in the same person he cannot be ousted by the heirs of her husband. If however the widow transfers her right to possession of the property itself without transferring her right to receive the dower the transferee cannot defend his right to possession as against the heirs quo the latter's share. Under the Mahomedan Law a gift of immovable property is invalid in the absence of delivery of possession by the donor to the donee. Where the donor and the donee live together at the time of the gift in the gifted property, there must be some evidence to show that possession was transferred by the donor. A mere registered deed effectuating the gift will not be evidence of such transfer; but if the deed shows that possession was intended to be transferred and that the donee has been put in possession also, then effect should be given to this intention as constituting delivery of possession in law unless there is evidence to the contrary. In such a case it is not necessary for the donor to do any overt act to complete the gift. ———*Gift—Delivery of possession—Registered deed not delivered—No transfer of possession—Validity of gift—Suit for mere declaration by donor—Maintainability.*

Where in the case of a gift of a house by a registered deed, it is established that neither the deed was delivered to the donee nor the mutation of names effected, nor even a declaration made in the deed transferring possession to the donee, nor had the donor divested herself of either the ownership or the possession of the property in any other manner,

Held, that the gift was not completed by delivery of possession as required by Mahomedan Law and is, therefore, invalid and ineffectual.

Held, further, that in the circumstances of the case, a suit by the donor for a mere declaration that the house is owned and possessed by her, without asking for consequential relief is maintainable, even though it is established that both the donor and the donee were continuing to reside in the house as at the time of the gift, as the possession of the donee was 'naked' (*i.e.*) mere possession without colour of rights, and not "actual." ———*Gift—Essentials.*

In order to constitute a valid gift under Mahomedan Law one of the essentials is to prove the taking possession of the subject-matter of gift by the donee and that the donee had a *bona fide* intention of divesting himself

———*Gift—Essentials.*

The three requirements under the Mahomedan Law for the validity of gifts or *hibas* are one : (1) that there must be clear and unambiguous intention of the donor to make a gift, (2) that there must be acceptance of the gift express or implied on the part of the donee, and (3) there must be delivery of possession of the property which is the subject-matter of the gift. But no writing is necessary to validate a gift. (*C.C. Ghose and Mitter, JJ.*) SULTAN MIYA *v.* AJIBAKHATOON BIBI. **59 Cal. 557 = I.R. 1932 Cal. 498 = 138 I.C. 733 = A.I.R. 1932 Cal. 497.**

———*Gift—Essentials—Entries in books of account—Sufficiency of.*

For a gift to be valid under the Mahomedan Law, there must not only be a declaration by the donor of his intention to make the gift, but the subject of the gift must be accepted by and on behalf of the donee, and delivery of possession must be given in such manner as the subject of the gift is capable of. A relinquishment of control over the subject is necessary to complete the gift. Entries in books of account are not sufficient to support a gift in the absence of any evidence to show that the donor intended to make a gift. ———*Gift—Essentials—Gift in lieu of dower—Conditions for validity—Intention to transfer possession—Proof.*

In order that a gift in lieu of dower may be valid two conditions are necessary : (1) an actual payment of the consideration on the part of the donee, and (2) a *bona fide* intention on the part of the donor to divest himself *in praesenti* of the property and to confer it upon the donee. Though in the case of a *hiba-bil-ewaz* delivery of possession at the time of the gift is not necessary yet the fact that the donor has remained in possession of the property for the last 25 years and has been making transfers of it on the footing of his being the owner shows clearly that there was no *bona fide* intention on his part to divest himself of the property. The mere fact that the donor held in deposit a sum of money belonging to the donee in his hands at the time of the gift cannot lead to the necessary conclusion that the gift was in lieu of this money. ———*Gift*—Hiba-bil-ewaz—*Nature of transaction—Conditions for validity.*

A *hiba-bil-ewaz*, as distinguished from an *heba*, a gift, pure and simple, is a gift for consideration. It is in reality a sale and has all the incidents and conditions of a sale. Possession is not essential for a complete transfer as it is not a case of *heba*. The two conditions for its validity are there must be an actual payment of the consideration on the part of the donee and there must be a *bona fide* intention on the part of the donor to divest himself *in praesenti* of the rights in the property and to confer the same on the donee. ———*Gift* — Marz-ul-maut—*Essentials—Burden of proof.*

The following conditions have to be satisfied before a gift can be declared to be invalid owing to its having been made in *marz-ul-maut* that the donor was suffering at the time of the disposition from a disease which was the immediate cause of his death, that the disease was such as to engender in him the apprehension of death and that the illness incapacitated him from the pursuit of his ordinary avocations and prevented him from saying his prayers while standing. Principles.

———*Gift—Principles — Donations involving* fidei commissum.

A donation involving *fidei commissum* is recognized by the Roman Dutch law and is valid even though made by Moslems in Ceylon and even though the doneee does not take possession as the principles relating to the validity of gift under Mahomedan law are not applicable to it. The first part of a deed executed by a Moslem in Ceylon in favour of his son purported to give the son a gift *inter vivos* absolute and irrevocable of certain land and premises; but the second part provided that the son was to hold the premises subject to the conditions and restrictions therein mentioned, which were to the effect that the father reserved to himself the right to revoke or cancel the gift and to deal with the premises as he thought fit and further that after the father's death the son should not mortgage or sell the premises and that the premises should, upon the death of the son, devolve on his (son's) children as their absolute property.

Held, that the father did not intend to make to the son a gift *inter vivos* as is recognized in Mahomedan law as necessitating donee taking possession of the subject-matter, but that the father intended and did create a valid *fidei commissum*. ———*Gift—Validity of—Test—Transfer of possession—Enjoyment of benefits of subject-matter.*

In all cases in which the question is raised whether a gift governed by Mahomedan Law has been completed, the most satisfactory method of dealing with the question is to direct attention to the conduct of the donor and the donee after the time when the gift is said to have been completed. If, after that time, the alleged donor continues to take the benefit of the subject of the gift whether it consists of reaping the harvest or the recovery of the rents or profits or actual occupation or of such other benefit, whatever it be, as can accrue to the owner from the ownership of the particular subject of gift, then the possession of the subject of the gift has not been transferred. In appointing a guardian the Court should take into consideration the wishes of the deceased father in this respect. Where the contest is between a step-brother of the father of the minors and a brother of the father's first wife and it appears on the evidence that the father of the minors would have preferred that the property should be managed in their interests by the latter, the latter should be appointed guardian of the property of the minors. Under the Muhammadan Law, the mother is not (in the absence of an appointment by the father or by the Court under the Guardian and Wards Act) the legal guardian of her minor children. When she is not so constituted the legal guardian, she has no power or authority, in her capacity merely as the *de facto* guardian of the minors, to alienate or otherwise deal with their property, and she is equally incompetent to enter on their behalf into an agreement to refer to arbitration any disputes relating to the division and distribution of the property of their deceased father and an award made on such arbitration would not bind the minors. Even if the scheme of distribution of the property as promulgated in the award so made was acted upon for merely fourteen years, it is not binding on the minors even as a family arrangement. 45 Cal. 878 (P.C) and 47 Cal. 713, Ref. Joint family.

———*Joint family—Analogy from Hindu Law—Rights of individual members.*

The law does not recognize a Mahomedan joint family as a legal entity, and has not provided rules applicable to the family as such. The rights of its individual members, both as regards the original joint property and its subsequent enlargements must be determined by an appeal to general law. Jointness in mess, residence and property and acquisition by one member in his own name with joint funds will go a long way in attracting the application of those provisions of law which entitle a person to a beneficial interest in the property acquired by another. In the generality of cases in which Mahomedans belonging to the same family live in commensality, own property as tenants-in-common, carry on business jointly and make fresh acquisitions, their rights and those of their heirs

can be determined with reference to express or implied agreement, relation of principal and agent, partnership, constructive trust or the like. Where male members of a family live in union so as to have jointness in mess, business and property, there can be little difficulty in tracing their relations *inter se* to an implied agreement which clothes each with a representative capacity in reference to his co-sharers. Each must be deemed to be acting not only for himself but for all in his dealings with regard to joint property and business. Accordingly any acquisitions made by any one member should be considered to have been made by all through the one who actually made it. In such a case, as among partners, each is the manager or agent of the others. The position is not so simple as regards the heirs whose rights are not recognized by any overt act of the surviving male members. (*Pullan and Niamatullah, JJ.*) SHUKRULLA *v.* MT. ——*Joint family—Application of law—Joint family business—Hindu social custom—Adoption by Mahomedan.*

There is nothing contrary to law in Mahomedan adult members of a family carrying on a family trade for the benefit of all the members of the family including the minors and the females, and the Courts will therefore uphold it and such legal consequence as in law follow from it, although the Court will not import into it all the legal consequences which would follow from such a family trade when it is conducted by a Hindu joint family or all the legal consequences of a lawful partnership The property of the ancestor will in such a case be held by the several members of the family in the shares to which they are entitled under Mahomedan Law. ——*Joint family—Business carried on by father—Sons—If become partners—Right by birth if acquired—Liability for father's transactions.*

Under the Mahomedan Law, if a Mahomedan carries on business as a firm, his sons do not become partners with him in the firm by birth. Mahomedan sons do not by birth acquire any interest in the property of their father during his lifetime, and unless it is proved that the father and sons have entered into a contract of partnership, the partnership property remains exclusively that of the father. Nor can the sons be sued in respect of transactions entered into by the father for which he alone is responsible. ——*Joint family—Distinction from Hindu family—Acquisition in the name of particular person—Presumption.*

The law does not recognize the existence of a joint Mahomedan family or tenancy-in-common so far as a Mahomedan family is concerned and the presumptions that hold good in the case of acquisitions in the names of individual members of a joint Hindu family have no application to acquisitions made in the names of individual members of a Mahomedan family. Therefore the burden lies on the plaintiff to substantiate his allegations that certain acquisitions that are made in the name of particular persons are acquisitions for the benefit of persons other than those in whose name the acquisitions are made. ——*Joint family—Manager—Trade carried on by eldest son for benefit of the family—Fiduciary relationship.*

A Mahomedan cloth-dealer died leaving two major sons, a widow and some minor sons and daughters. The two major sons on the death of their father continued the cloth trade as a family trade for the benefit of the family and made profits thereby. The widow and the minor sons filed a suit, for account of the profits and division of the same, against the major sons. The eldest son defended the suit.

Held, that the eldest son by his conduct after his father's death put himself in a fiduciary relationship to the widow and the minors and it did not matter whether his position was called that of a trustee *de son tort* or executor *de son tort* and he held the assets not as co-owner but as a trustee.

Held, further, that Ss. 23 (*f*) and 88 of the Trust Act applied to the case and the eldest major son was bound to hold for the other members of the family any advantages he had gained by availing himself of his fiduciary character and by utilising the share of the other members in the father's assets for his own pecuniary advantage. ——*Joint family—Presumptions of Hindu Law—Applicability of—Properties standing in the name of managing member—Nature of—Onus.*

Where members of a Mahomedan family live in the commensality, they do not form a joint family in the sense that expression is used with regard to Hindus and under the Mahomedan Law there is not as under the Hindu Law any presumption that acquisitions of the several members are made for the benefit of the joint family But it is different when all the members of a Mahomedan family are not merely living together but possessed the properties in common and in jointness. The right of a Muhammadan widow in possession of her husband's property for dower debt is a personal right given to her by the Islamic Law and does not by any means amount to an interest in the land. Partition.

Where property is given for an estate of inheritance to a person or persons accompanied by a limitation to heirs in a line not sanctioned by the law, the disposition in favour of the persons named will stand and the invalid limitation of heirs will drop out. Where on a partition among persons who were Mahomedans governed by Mahomedan Law certain properties were left undivided and allotted to the seven women mentioned therein as Sthreesothu (women's property) to be taken by them and their female descendants existing or to be born thereafter and it was also provided that the properties were to be held in possession and managed by certain males in the order of seniority.

Held, there was nothing illegal whatever except the limitation that the property is to descend to those (female children) that may be born hereafter and the description of the property as belonging to the Sthreesothu tarwad. The rest of the disposition which allots the property to the seven females named as well as their children then existing was perfectly valid because there was nothing to prevent the allotment of property at a partition to members of the family male or female then alive and to their children male or female alive. It is only where it is attempted to create a new line of succession or to constitute a new group of persons called a family or tarwad not known to the personal law of the parties that the latter attempt is rendered futile.

Pre-emption.

In towns, however, the right recognised by the Mahomedan Law has not been modified by local custom. In the absence of any evidence of custom different from, or not co-extensive with Mahomedan Law, that law must be applied. Where a wajib-ul-arz contains an entry as to the right of pre-emption according to the usage of the country and the shastras, it is definite and clear to form proof of a custom of pre-emption, and the Mahomedan Law must be held to apply, because the custom of pre-emption is the custom as understood by the Mahomedan Law. ———*Schools of law—Shiah and Sunni—Points of difference.*

Whereas there is a very definite distinction between the two rival sects, the Shiah and the Sunni, in practice the differences have with the time ceased to be quite as marked as they were originally. The main distinction is that whereas the Sunnis accept all those who actually held the office of Caliphs after the decease of the Holy Prophet, the Shiahs look upon the first three Caliphs, merely, Abu Bakr, Umar and Usman, as usurpers and on all occasions repudiate them and if he is ultra-orthodox or fanatical, he even indulges in abuse of their memory. The Shiahs also repudiate and Abdul Qadir of Baghdad who is accepted by the Sunnis as a great saint. ———*Succession—Custom of primogeniture regarding ancestral estate—Applicability of custom to personal acquisitions—Presumption—Evidence in rebuttal of.*

In the case of a Mahomedan family, if a custom of primogeniture governs the succession to the ancestral estate, the presumption is that it attaches also to the personal acquisitions of the last owner left by him on his death, and it is for the person who asserts that these properties follow a line of devolution different from that of the taluka to establish it. But the presumption is sufficiently rebutted if it is shown that in at least two cases of succession in the family non-talukdari property has been divided according to Mahomedan law, there being no trace of any claim in either case that it was not so divisible by reason of a family custom, and that the alleged family custom is of comparatively recent origin. 55 I. But where the learned commentators content themselves with a mere statement of the conflict of opinion without expressing any definite opinion of their own in favour of one or the other view and without saying anything about the consensus of opinion or the fatwa being in accordance with a particular view, they imply the conflict of opinion was still continuing and that no unanimity or general concurrence had till then been obtained. It cannot be stated as a general proposition of law without reference to the terms of the particular deed of trust in question that in case of decrease of income, all the expenses provided for by the *wakf* should be proportionately reduced. Where in the deed itself there is

———*Wakf—Construction—Gift of residue to descendants—Effect of.*

The proposition that an assignment of the income means an assignment of the corpus is not of universal application. It depends upon the terms of the grant and its construction. Where a sajjadanashin left a will by which he directed that the balance (of his property) remaining after spending the produce thereof on *sadabrat* (daily alms) at the khankah and on casual visitors and drum-beaters, etc., should be divided among his descendants specified therein, there is no gift or devise of any specific share of the rents or profits. It cannot be construed as the gift of the cropus or as lending any support to the contention that the properties so bequeathed were the private property of the testator and not part of a wakf. The distribution of the remainder among the descendants of the mutawalli is not illegal and is permissible. ———*Wakf—Construction—Provisions for the expenses of travellers and drum beaters of a Khankah—Residue for the maintenance of grantee and his descendants—Personal grant or pubic trust—Moulanagar Khankah Estate.*

The grant of *pargana* Abhaipur made in favour of a Muhammadan Saint in the early part of the eighteenth century by the then ruler of Bengal and subsequently confirmed by the East India Company recited that it was "granted revenue-free for defraying the expenses of the (*Warid Sadir*) casual visitors to the Moulanagar Khankah and the (*Naubat Nawazan*) drum-beaters appointed by *Huzur* and *madadmash* (maintenance) to Shah Ghulam Moula descendable to the children, etc. In a suit for declaration that the properties are public trust properties with a prayer for the preparation of a scheme and for the removal of the defendant from his office of sajjadanashin and manager.

Held, on a proper construction of the grant and consideration of the usage of the institution: (*i*) That it was a grant to the institution, namely, to the Khankah of Moulanagar and not a grant to the saint personally. (*ii*) That the expenditure mentioned in the grant was not merely a recital of the motive for making the grant but it was the object of the grant. There is nothing in the grant from which it can be inferred that the expenditure mentioned therein represents a mere pious wish. The objects of expenditure mentioned are the objects for carrying out which the grant was made. *Naubat Nawazan* or drum-beaters were a part of the necessary paraphernalia of a Khankah of some schools of sufis. They are attached to be the Khankah. "Urs" anniversary of the death of the saint was one of the necessary ceremonials. The feeding and maintenance of casual visitors to the Khankah was a necessary purpose. *Madadmash* to the saint means maintenance of the saint in the capacity of sajjadanashin. '*Ward Sadir*' and 'madadmash' for sajjadan ashin are valid objects of wakf as well as maintenance of a Khankah. (*iii*) That all of them were proper objects of a wakf under the Mahomedan Law, including the maintenance of the descendants of the saint. (*iv*) That all subsequent documents showed that the expenditure on charities was considered obligatory and that the keeping up of a sajjadanashin or manager did not depend upon the will of the shareholders. (*v*) That it was a public trust, even if it was not taken charge of under Reg. XIX of 1810. A deed executed by a Mahomedan, after setting out the intention of the execution (1) to make provision for a mosque and a *madrassa*, and (2) to make provision for his two sons, who had helped him in acquiring his fortune in business, and their families, provided that certain property of which he was possessed should become wakf for the benefit of the *musjid* and the *madrassa*. For the second object the executant set aside the rest of his property. In the operative part of the deeds, the executant purported thereby to convey to the trustees who were his two sons, the property set out in the schedule to the deed, subject to two conditions. On was to the effect, that during his lifetime he shall remain in possession of the trust property; the second provided that during his lifetime he shall be the "sole trustee of the trust fund and he shall have power to deal with the rents and profits there in such a way as he may deem reasonable."

Held (with respect to the remaining property set apart from the second object, to make provision for his sons), that during the lifetime of the executant both the legal and beneficial interest therein, in other words, both the dominion and the usufruct thereof were to remain in the executant who would retain possession of the property so long as he lived, and that only after his death would his sons be entitled as trustees to the legal estate in the property and also to the usufruct; (2) that no valid *wakf* was created in respect of such remaining property within the Mussulman Wakf Validating Acts of 1913 and 1930, because the ultimate benefit under the deed was not reserved either expressly or impliedly for the poor or for any other purpose recognized by the Mahomedan

MAHOMEDAN LAW—Wakf.

Law as a religious, charitable or pious purpose of a permanent character; (3) that the deed was invalid as a gift under the Mahomedan Law, because possession was not given or taken by the sons as trustees or donees either actually or constructively during the donor's lifetime, and because there was no transfer of possession under the Mahomedan Law, the donor having retained both the legal and equitable interest created under the deed; and (4) that the deed did not also create a family settlement valid in law, because the document was not brought into being for the purpose of settling a family dispute or effecting some compromise or settlement of family claims. The object and intention of the donor was to make a gift to take effect *in futuro* of certain property for the benefit of his two sons and their families. It was a gift, and the document purported to create a gift to such persons and nothing else; and (5) the direction in the deed that the trustees must insure and repair all the building described in the said schedule; imposes upon them a personal obligation to do so, and there is no charge upon the properties in the said schedule for the said purpose and the whole of the property subject to the deed is not made wakf on account of this provision. Contingent wakf.

See also WAKF—BIL-WASIYAT, *infra.*

———*Wakf—Contingent wakf—Validity—Test.*

According to Mahomedan Law a contingent wakf is not valid. The dedication should be complete and should not depend on a contingency and the appropriation must at once be complete and not suspended on anything. The real test for deciding as to whether or no a particular wakf deed was good would be to see whether the dedication was complete at the time when it was made and not dependent on any contingent event, which may or may not happen, and the mere interposition of an estate would be no reason for saying that the religious appropriation would fail altogether. A stipulation in the valid wakf, therefore, that personal debts of the wakif should be paid out of the property before the income is applied for religious and charitable purposes is valid and the wakf does not become contingent by such a stipulation. 9 Cal. 176 and A.I.R. 1922 Cal. 429, Rel. on; 24 All. 231, Dist. It is an established principle of Mahomedan Law that a person who makes a wakf of a property must sever his connection from it so that from the date of the wakf it should pass into the ownership of God and be dedicated completely to the chariable or religious objects, for which the wakf has been created. A vague document not clearly specifying the powers conferred on a widow who was alleged to have been empowered to create a wakf cannot be the foundation of such a dedication. MAHOMEDAN LAW—Wakf.

———*Wakf—Creation of—Divesting of ownership and delivery of possession necessary—Wakf of mosque—Special rules applicable to—Dedication inferred from long user.*

To create a wakf there must be a declaration of dedication which should be made contemporaneously with the act of dedication. The wakif must divest himself of the ownership of the property; physical delivery is not essential, but such possession as is possible must be given. But special rules apply where mosques ard dedicated as wakf. Where a building has been set apart as a mosque, it is enough to make it wakf if public prayers are once said there with the permission of the owner. Though a declaration of dedication and completion by some act giving practical effect to it are essential, it is not always necessary that there should be any direct evidence of these things. Dedication may be inferred from long user that property was wakf property (*Baker and Broomfield, JJ.*) SAIVAD MAHER HUSEIN *v.* HAJI ALIMAHOMED. **152 I.C. 50 = 7 R.B. 121 = 36 Bom.L.R. 526 = A.I.R. 1934 Bom. 257.**

———*Wakf—Creation of—Essentials.*

In order to constitute a valid dedication, there should be absolute and unconditional transfer of the property in the name of God. such transfer should be perpetual and there should be actual appropriation or complete divesting of the estate of the wakif and vesting thereof in God and also, in the case of creation of wakf *inter vivos*, there should be transfer of possession from the wakif to the mutwalli. ———*Wakf—Creation of—Essentials of—Validity.*

The word wakf literally signifies detention; technically it means a dedication in perpetuity of some property for a pious purpose or a succession of pious purpose. When a 'wakf' is made of a property, the proprietary right of the grantor is divested therefrom and it remains thenceforth in the implied ownership of the Almighty. The usufruct alone is applied for the benefit of human beings and the subject of the dedication becomes inalienable and non-heritable in perpetuity. Where, however, property left by the ancestor is divided by the descendants as their private property in this way that they divide half of the property among themselves and set apart the remaining half for the expenses of a shrine placing the same under the management of a Sajjadanashin, one of the members of the family, with a condition that they would divide it subsequently in case of mismanagement or misappropriation on the part of the Sajjadanashin, the arrangement does not establish a permanent dedication of the property for any purpose recognised by the Mahomedan Law as religious, pious or charitable and there is no dedication of the property as wakf. ———*Wakf—Creation of—Wakf created by will.*

A wakf can be made by a will, But the condition regarding transfer of possession cannot be complied with because the wakf has to take effect after the death of the testator and therefore the ownership and possession of property must remain with the testator. In such cases, a clear and unequivocal direction in the will dedicating specified property to God and vesting it in a mutawalli after the death of the testator for such objects as are recognized by the Mussalman Law as proper objects of a wakf is sufficient compliance with law. In addition to the bequest of such a nature in the will, an oral declaration by the testator that he had created a wakf in respect of the property or that after his death the property is to become wakf property is not necessary. Where in a will it was stated that a sarai was being constructed with the intention of wakf for the benefit of the general public, for the performance of certain religious ceremonies, and for the comfort of every man without any rent and it was further stated that it was excluded from the rights of relations, which was the same as "it is hereby excluded from the right of heirs" and in later clauses bequests were made of other properties, income whereof had to be applied to the serai and finally provision was made as to the management of the wakf property" in case of the failure of the male heirs of the testator's brother to carry out the wishes of the testator.

Held, that this amounted to an express declaration creating wakf in respect of the serai and other properties mentioned in the will to take effect after the death of the testator. It was not merely a statement of his intention but an express direction dedicating appropriation of the serai and the other property for the religious and charitable purposes mentioned in the will. The three-ninths share of the endowed properties was, it is true, earmarked for pious purposes but there is nothing in Indian Statutes or in Mahomedan Law which draws a clear cut distinction between religious or pious purposes on the one hand and charitable purposes on the other. In the absence of proof that payments made by way of charity to poor persons or by way of gratuities to servants who had put in years of service, that such payments made out of that three-ninths share had the effect of curtailing the expenditure for the pious purposes specifically mentioned in the deed of endowment, they cannot be called an improper diversion of the funds. Durga.

———*Wakf*—Durga—*Hereditary succession to duties and emolument by members of family—Arrangement as to turns as between groups in family—Settlement or assignment by members of group of rights and duties—Validity.*

Spiritual offices cannot be made the subject of transfer but the rule of public policy may not be applicable to the internal arrangements which a family of worshippers may make to provide for the distribution of religious worship among its members or groups of members. But an arrangement of turns of worship between the members of a group does not confer any transmissible right upon those members. The principle that a *mutawalli* under the Mahomedan Law may nominate his successor cannot safely be imported into the internal arrangements of a family with regard to worship in a shrine. And when it is proved that the rights in an endowment have been enjoyed hereditarily by the members of the family doing service in a *durga*, there is no room left for any member of any group disposing of those rights and duties by assignments and settlements even among members of the same group; and no distinction can be drawn between the duties to be discharged at the *durga* and the emoluments received either from the *durga* or from the endowment granted to the *durga*, although it may be open to the members of the group as a whole to effect a redistribution. ———*Wakf—Graveyard—Adverse possession by takiadar—What amounts to.*

MAHOMEDAN LAW—Wakf.

Takiadars commonly build huts or *kothris* on cemeteries for their private use and such building cannot be said to amount to the public assertion of a hostile title. The possession of a takiadar certainly starts as a permissive possession and the mere building of *kothris* on the land by the takiadar would not imply renunciation of the takiadar's permissive possession or the open and public assertion of a hostile title. But if a takiadar in possession of a graveyard sells a portion of it to some other person who builds a house and if the Mahomedan community are apathetic in the matter and allow the encroachment to remain for more than twelve years, then it might well be held that the person in possession had perfected his title by adverse possession for more than twelve years over the portion of the graveyard sold to him. But it could not further be held that the takiadars by asserting a right of adverse possession in respect of one portion of the graveyard has thereby perfected his title by adverse possession in respect of the whole graveyard. It is well established that an express dedication is not necessary to create a wakf and that dedication may be assumed from long user, if it is clear that the intention of the owners was to make the dedication. ———*Wakf—Graveyard—Proof—Dedication—Use of plot as cemetery for forty years—But possession and enjoyment with other person—No presumption of dedication by user.*

MAHOMEDAN LAW—Wakf.

Under the Mahomedan Law a wakf is created by dedication but if a piece of land is found to have been used as a graveyard for such a long time that no direct evidence of initial dedication can be available, dedication by user can be presumed. Where, however, it has been found by the lower Court that the grove in dispute was neither the cemetery of their family nor had been used as a family graveyard from the time when their ancestors were proprietors of the village, and that, on the other hand, possession of the plaintiff over the grove had been satisfactorily established, he has been selling the fruit produce thereon and permitting the *riyayas* to take the wood of other trees, and the plot itself had been all along recorded in the village papers as grove.

Held, that the fact that the deceased had been burying the dead members of their family in the grove in suit during the last forty years was not sufficient, under the circumstances, to justify a presumption that it had become wakf property by user. Meaning of.

———*Wakf—Meaning of—Creation of wakf.*

The term 'wakf' literally means 'detention' or 'stoppage' and the legal meaning of wakf according to the accepted doctrine of the Hanafi school is the extinction of the proprietor's ownership in the thing dedicated and its detention in the implied ownership of God in such a manner that the profits may revert to and be applied for the benefit of mankind. The appropriation of land or other property to pious and charitable purposes is sufficient to constitute a wakf even though the word 'wakf' is not mentioned and there is no transfer of the property to God. ———*Wakf — Mosque—Administration of mosque depends on personal law of parties.*

The method in which a mosque is to be administered has to be determined in accordance with the personal law of the particular parties before the Court. Where the personal law is Shiah law, it may be presumed that it is similar to the Shiah Ithna Ashari law unless the contrary is proved. Though every community has its own customs and usages to govern its actions, yet in regard to the administration of a mosque, the law enforced in British India relating to all Muslims is very nearly uniform. This uniformity can be infringed by evidence as to varying customs and usages. In order that the texts may be overridden by proof of custom and usages, the evidence must satisfy the Court that the majority at least of the given class of persons look upon the customary rule put forward as binding. This must be established by a series of well-known concordant and on the whole continuous instances, so that the common consent of the class in question is clearly demonstrated by the number of instances proved. ———*Wakf—Mosque—Right of every sect to worship—Reservation of mosque to particular sect—Validity of.*

It is a well-recognized principle of Mahomedan Law that a mosque does not belong to any particular sect, and when a mosque is built and consecrated by public worship, it ceases to be the property of the builder and vests in God in such a manner as subjects it to the rules of Divine property; the appropriator's right in it is extinguished, and it becomes the property on God by the advantage of it resulting to his creatures. A mosque once consecrated cannot in any case revert to the founder, and every Mahomedan has the legal right to enter it and perform devotion according to his own tenets, so long as the form of worship is in accord with the recognized rules of Mahomedan Ecclesiastical Law. Further, when a mosque is consecrated and it is purported to be reserved for the people of a particular locality or sect, the reservation is void and persons not belonging to that locality or sect are entitled to worship in it, for every person who believes in the unity of God and the mission of Muhammad as a prophet is a Mussalman to whatever sect he may belong. The Shiahs are undoubtedly Mussalmans and entitled to offer their prayers in a mosque, though not built on Shiah land, though they have not contributed to its building and though they have never said prayers there in the past. The powers of alienation of a *mutawalli* are no higher than those of an ordinary lay trustee. Where the old trustees had committed fraud in obtaining the sanction of the Court, the alienation cannot be binding on the succeeding trustees. The permission of the Court cannot mean that the Court guarantees repayment of the money which the purchaser may have paid to the seller in case the bargain falls through. wakf, the estate vests in the beneficiaries. In case of private wakfs the mutawalli is practically speaking the owner, with one limitation and that is, that he cannot make a transfer of the wakf property. But in every respect his position is the same as that of an owner. A mutawalli holding a property in the case of private wakf cannot be said to be a mere manager or a superintendent. A manager holds the property during the pleasure of the proprietor. But the mutawalli in private wakfs holds the property during his life. After his death mutawallship will go to his legal heirs. If there are several heirs, they will all be entitled to the profits of the wakf estate. That is to say, such appointment or transfer is valid only when the appointing mutawalli or the mutawalli who is transferring his office had been given at the time of his appointment either by the wakif or the kazi, the power of transferring the trust to another and substituting that other in his own place by a sanadi wakf or wasiat, should necessity arise for it. 37 Cal. 263, Relon. ———*Wakf—Mutawalli—Rights of mutawalli and of beneficiaries.*

A "wakf" property is not vested in the "mutawalli" but the latter is the only individual who has the right of administration vested in him; and so long as he is in charge of the "wakf" property, no outsider has any right of interference. Therefore it is open to the mutawalli to throw open the wakf property for purposes other than those originally intended by the wakf provided that they do not conflict with and in no way prejudice the latter, but he cannot be compelled to do so by those claiming to be the beneficiaries. For, the beneficiaries are entitled merely to participate in the benefit arising from the "wakf" but they cannot arrogate to themselves the right of setting up a committee to displace the authority of the "mutawalli." ———*Wakf—Mutawalli—Succession — Custom and practice—Right of choice—Death-bed nomination not necessary.*

The correct method of ascertaining the succession to a *gadi* is to consider the custom and practice followed in the family or durgah, such practice being proved by testimony. The practice is regulated by the practice of the particular durgah and the neighbouring durgahs, such family practices being taken as indicative of the wishes of the original founder. The eldest son, if qualified, is the natural successor of the father. But where there is evidence of a power of selection the actual observance of seniority even in a considerable series of succession cannot of itself defeat the custom which establishes the right of free choice. Nor is there any rule of law requiring death-bed nomination in case of succession to *gadi*. 19 Cal. 203; 36 Bom. 308; 4 Lah. 15 (P.C.) and 12 M.I.A. 523 (P.C.), Rel. on. ———*Wakf—Mutawalli—Succession to office—Rules governing—Nomination more according to Sufism than election.*

The question of succession to the office sajjadanashin and mutawalli is usually determined by the direct evidence of a deed of endowment, if any or in the absence of any such document, by the usage of the particular institution. In determining the usage, one should approach the subject from the point of view of Sufism, its doctrines and its teachings and should not allow himself to be influenced by practices of certain modern institutions, the head of which is appointed by election and counting of votes. Sufism may be generally described as the process of purifying the human mind, by curing it of its baser passions, under the guidance of a spiritual preceptor. It is a process of self-discipline and self-control which leads man to the right path. The nomination by the existing sajjadanashin of his successor is supposed to carry the guarantee that the nominee knows the precepts which he is to communicate to the disciples. So the practice of nomination is a more probable custom and more in accordance with Sufism than the practice of election of the successor by the general body of *murdis* and worshippers.

Held, on the evidence in the case, the succession to the office of sajjadanashin of the shrine in Mauza Begampura, Lahore, was regulated by nomination by the last incumbent followed by the formal installation by the electoral body after the death of the last sajjadanashin. ———*Wakf—Mutawalli—Suit to eject trespasser from wakf property—Parties—All mutawallis not impleaded—Effect.*

Where administration of a trust is vested in several persons they all form, as it were, one collective trustee and they must exercise the powers of their office jointly. If a suit has to be brought to recover trust property in the possession of trespasser, all must join as plaintiffs, and only such of them as refuse to join as plaintiffs must be made defendants; all the trustees must be parties to the suit. This principle applies to shebaits and mutawallis. Hence some of the mutawallis alone cannot maintain a suit for recovery of possession of wakf property in possession of a trespasser especially where the property is not admitted to be wakf property. *Luke* v. *South Kensington Hotel Co.*, 11 Ch. Nature of.

———*Wakf—Nature of—English and Muhammadan conceptions of trust—Distinction between.*

The distinction between an English trust for charitable and religious purposes and a Muhammadan wakf is more historical than legal. Wakf signifies the extinction of the proprietor's ownership in the thing dedicated and the detention of the thing in the implied ownership of God in such manner that the profits may revert to and be applied for the benefit of mankind. According to the English doctrine historically viewed a trust involves a double ownership and two estates, one legal and the other equitable. As under the English Law, the legal ownership is vested in a human being, he can transfer it subject to the obligation imposed thereon. Under the Mahomedan Law, while the ownership is vested in God, the mutawalli is his manager, he cannot transfer the corpus of the property. MAHOMEDAN LAW—Wakf.

———*Wakf—Sajjadanashin—Powers of—Right to control* mutawalli.

The status of a Sajjadanashin is higher than that of a *mutawalli*. He is the head of the institution and as such is not only the teacher of religious doctrines and rules of life but also the manager of the institution and the administrator of its charities. The mutawalli, on the other hand, is merely in charge of the secular affairs of the institution. He is a manager or superintendent, but has no beneficial interest in the endowment and is not connected with the preaching of religious doctrines. Subject to any agreement between them, the management of the properties by the mutawalli is subject to the supervision of the Sajjadanashin and in the exercise of the right of supervision, it is within the rights of the Sajjadanashin to inspect the accounts and to require the mutawalli to submit accounts or furnish necessary information and to issue suitable directions, when necessary. A sajjadanashin is removable if a proper case is made out. Cases of mismanagement or incapacity will not ordinarily be sufficient to remove a sajjadanashin as distinct from the managership of the property. It must be shown that the man is not only incompetent to manage the property but that he is of such a low morality that his continuance as the superior of the sacred shrines and institutions is repugnant and undesirable. The office of a Sajjadanashin stands on a special footing: "he is not only a mutawalli but also a spiritual preceptor, and in him is supposed to continue the spiritual line (silsila)." This supposed continuity of the spiritual tradition must obviously be taken into account and, speaking generally, is much more likely to be secured by the selection of a properly qualified descendant of the founder than of a stranger of the family. The karnavan of a Malabar Tarward has extensive, if not absolute, powers of disposal of even movables and properties in the nature of movables including the power of realisation of debts due to the family in any manner he likes and of converting movables into money. This power may possibly be subject in a case where it has been unreasonably exercised to some reservation or safeguard in the interests of the other members of the tarward. 39 M.L.J. 590, referred to. A hypothecation bond may for this purpose be treated as movable property. An assignment of a hypothecation bond for consideration by the karnavan is valid and binding on the other members of the tarwad even if there was no tarwad necessity at least where there is no suggestion of fraud or collusion. 1 Pat. 741 (P.C.), Foll. A karnavan of a Malabar tarward has the power to grant a renewal of a kanom for a proper term and on proper conditions a reasonable time before the expiry of the prior demise; and the length of time which is reasonable will vary with the circumstances of each case. But it did not provide for payment of rent to the melcharthdar during the continuance of the original tenant or for collection of rent by the melcharthdar from the tenant. After the death of the melcharthdar a suit in ejectment was instituted by plaintiffs 1 to 4 against the defendant who was in possession.

The latter filed an application under S. 22 of the Malabar Tenancy Act, claiming a renewal, impleading thereto plaintiffs 2 to 4, as respondents but not the 1st plaintiff, the jenmi. It was contended that the jenmi was not a necessary party, because after the grant of the melcharth, the jenmi was not the landlord at all.

Held, as the melcharth did not authorise the melcharthdar to collect rent from the tenant, and as the right to evict the tenant did not vest wholly in him, he could not be regarded as the "landlord" as defined by S. 3 ((*o*) of the Act, and that the 1st plaintiff the karnavan and jenmi was the landlord" to whom notice should be given under S. 22 of the Act and he must therefore be impleaded as a party to the application. ———*Action for—Essentials to be proved—Want of probable and reasonable cause—Onus,*

In a suit for damages for malicious prosecution the plaintiff must establish that there has been a prosecution by the defendant, that the proceeding terminated in plaintiff's favour, that the prosecution was instituted without any reasonable and probable cause and that it was due to a malicious intention on the part of the defendant. Where the complainant (defendant) honestly believes that the accused (plaintiff) has committed the offence of which he complains, although he may not succeed in proving the truth of his allegations to the satisfaction of the Criminal Court, it cannot be held that the accusation was without any reasonable or probable cause. The criterion is the honesty of the complainant's belief and not his failure to establish his case. If the accusation is not brought recklessly with the specific intention of damage to plaintiff's reputation, the complaint is not without reasonable and probable cause. (*Grille, Offg. In a suit to recover damages for malicious prosecution the Court has to discover what facts have been found upon the evidence and then to decide whether on those facts it can be said that the prosecution was instituted without reasonable and probable cause. A heavy onus lies on the plaintiff in such a case and it would require very strong evidence to show that a defendant had no reasonable cause when impartial public servants after due and deliberate investigation and trial believed the case to be true. An application by the defendant suggesting a prosecution of the plaintiff for contempt of Court was dismissed by the magistrate after hearing the plaintiff who appeared in answer to the notice issued by him. In a suit for damages for malicious prosecution filed by the plaintiff against the defendant.

Held, that it is doubtful whether it can be said in the circumstances of the case that the defendant did institute a prosecution in any sense of the term against the plaintiff but even if he did so, it cannot be said that the defendant was not in good faith when he made the suggestion which he did make, as the facts stated by him were perfectly true, and that if he, without a proper consideration of the legal aspect of the matter, suggested proceedings against the plaintiff which could not properly be taken, that in itself is not a sufficient ground for passing a decree in the suit. ———*Essentials to be proved—Malice and reasonable and probable cause—Terms explained—Burden of proof.*

In suits for damages for malicious prosecution the plaintiff cannot succeed unless he can show either guilty knowledge or some wicked or indirect motive in the defendant and also absence of reasonable and probable cause for the complaint. "Reasonable and probable cause" means a genuine belief based on reasonable grounds that the proceedings are justified. Malice means the presence of some improper and wrongful motive. Malice and reasonable and probable cause must unite in order to produce liability. So long as the legal process is honestly used for its proper purpose mere negligence or want of sound judgment in the use of it creates no liability; and conversely, if there are reasonable grounds for the proceedings no impropriety of motive on the part of the prosecutor is in itself any ground of liability. The burden of proving the absence of reasonable and probable cause lies upon the plaintiff. It is not for the defendant to prove affirmatively, as a defence that reasonable and probable cause existed. (Case ref.) ———*Essentials to be proved—Persisting in prosecution after innocence of accused made clear—No evidence of absence of reasonable cause.*

To support an action for malicious prosecution, that must be both malice in the defendant and a want of reasonable and probable cause. Unless he obtains a finding in his favour on each of the issues, the suit must fail. The two are distinct and proof of the one is not necessarily proof of the other. If the defendant had reasonable and probable cause for prosecuting the plaintiff when he originally set the criminal law in motion, it is immaterial if subsequently in the cause of the proceedings it become clear there was no ground to justify the prosecution of the plaintiff and the defendant nevertheless persisted in the prosecution. That may amount to evidence of malice but not to a negation of the plea of reasonable and probable cause. On the other hand, the fact that malice is proved is not evidence of the absence of reasonable and probable cause. MALICIOUS PROSECUTION.

In a suit for damages for malicious prosecution, all that is required for the plaintiff to show is that the criminal proceedings terminated in his favour. If he shows that the Magistrate passed an order in his favour under S. 203, Cr. P. ———*Liability for.*

The liability of the defendant to an action for malicious prosecution does not depend on his having first set the law in motion. ———*Liability for—Persons creating false evidence against the plaintiff.*

An action for malicious prosecution can be maintained not only against the individual who set the law in motion against the plaintiff but also every other person whose conduct with reference to the charge or trial points him out as one responsible for the prosecution that a particular person figured as a witness in the criminal case is not the criterion but may be an element to be considered. So the defendants who had, by creating false evidence against the plaintiff before the charge and by giving false evidence during the trial in support of the charge attempted to secure a conviction of the plaintiff, are liable in damages in an action for malicious prosecution 30 All. 525 (P. ———"*Reasonable and probable cause*"—*Meaning of.*

The term "reasonable and probable cause" means an honest belief in the guilt of the accused based upon a full conviction, founded upon reasonable grounds of the existence of a state of circumstances, which, assuming them to be true, would reasonably lead any ordinarily prudent and cautious man, placed in the position of the accuser, to the conclusion that the person charged was probably guilty of the crime imputed. *Hicks* v. *Faulkner*, 8 Q.B.D. 167, Ref. ———*Reasonable and probable cause—Defendant coming to know, subsequent to prosecution, that plaintiff not guilty.*

MALICIOUS PROSECUTION.

If the defendant had reasonable and probable cause for prosecuting the plaintiff at the time when he filed the complaint and thus set the law in motion against the plaintiff, he should not be deprived *ex post facto* of that ground of defence because subsequently in the course of proceedings the defendant became acquainted with the true facts and if they had been available to him earlier, he would have felt himself not justified in launching the prosecution. The fact that the defendant persisted in prosecuting a false charge against the plaintiff after it had become reasonably clear that there was no ground to justify the prosecution of the plaintiff would be evidence of malice but would not be evidence that at the time when he became the prosecutor the defendant had acted without reasonable and probable cause. (*Page, C. J. and Mya Bu, J.*) SANKARA IYER *v.* RAMASWAMY CHETTIAR. **10 Rang. 282=I.R. 1932 Rang. 161=138 I.C. 693=A.I.R. 1932 Rang. 80.**

———*Reasonable and probable cause—Evidence of—Persistance in prosecution after knowledge that there was no case—Inference from.*

The fact that the defendant in a suit for malicious prosecution persisted in prosecuting a false charge, after he knew that was no ground to justify the plaintiff's prosecution, would amount to evidence of malice; but it would not be evidence that at the time when he prosecuted the plaintiff the defendant had acted without reasonable and probable cause. ———*Reasonable and probable cause—Information furnished by another—Prosecution on the faith of—Justification.*

The question of reasonable and probable cause depends in all cases, not upon the actual existence, but upon the reasonable *bona fide* belief in the existence, of such a state of things as would amount to a justification of the course pursued in making the accusation, whether the belief arises out of the recollection and memory of the accuser or out of the information furnished to him by another. Where the complaint is filed by the defendant on the information given by another, the Court has to see how far the defendant can be said to have reasonably and discreetly trusted the informant. The question whether a reasonable man would or would not act upon the information depends in a great degree upon the opinion to be formed of the position and circumstances of the informant and of the amount of credit which may be due under those circumstances to the person who thus conveys the information. MARITIME CONVENTIONS ACT (1 & 2 Geo. V, c. 57), S. 8—*Limitation for suit—Extension of—Discretion of trial Judge—Interference by appellate Court.*

A collusion took place on 16th March, 1930, between the "Malacca Maru" of the plaintiffs and the 'Marienfels" of the defendants. After some indecisive correspondence between the parties, the Marine Court of Enquiry made a report on 16th November, 1930, but their finding was not communicated till June, 1931. There was again desultory correspondence between the parties till 12th March, 1932, on which date, the defendants filed a suit in the Admiralty side claiming damages. On 25th April, 1932, the plaintiffs filed the present cross-suit and also applied under S. 8 of the Maritime Conventions Act for extending the limitation for the suit. The trial Judge refused to extend the limitation on the ground that there was plenty of time from the 12th November, 1931, to the 15th March, 1932, to bring a suit, of which the plaintiffs had failed to avail themselves.

Held, that as the trial Judge had not exercised his discretion on wrong principles, his decision cannot be interfered with on appeal. (1923) P. 85 and 94, Ref. (*C. C. Ghose, A. C. In order to constitute a trust "for the benefit of the wife" within the meaning of S. 6 of the Married Women's Property Act, it is not necessary that the words "for the benefit of the wife" or other words equivalent thereto should appear in the policy of insurance. If on a reading of the words used in the policy it appears that the assured has intended, in the event of his death, that the policy should ensure for the benefit of his wife, then the policy may be deemed to be for her benefit. Where by a policy of life insurance the insurer undertook to pay a specified amount upon the happening of a certain event "to the assured or his wife *A* if he predeceased her" and the insured having died his widow sued to recover the amount payable under the policy.

MARTIAL LAW—*Declaration—Legality—Jurisdiction of High Court to inquire.*

The High Court has jurisdiction after the restoration of normal conditions to decide how far the declaration of martial law was justified. The question however whether martial law was properly declared or not cannot arise in view of S. 11 of Ordinance IV of 1930. In deciding the question of emergency the Court will have regard to the state of fact as disclosed by the evidence.

Per *Madgavkar, J.*—"Firstly, a state of war and armed rebellion or insurrection must exist and not merely a state of riot which could be put down with the aid of the military and other citizens. MASTER AND SERVANT—*Agreement for a term —Suspension of servant—Damages—Mitigation.*

Where, by a written contract, the defendant company agreed to employ the plaintiff for a period of four years on a salary of Rs. 600 a month and there was no provision for giving notice on either side, but within less than a year, the defendant company, alleging that the figure Rs. 600, was a clerical error on their part for Rs. 500, tendered to the plaintiff an agreement with a salary of Rs. 525, a month, which the plaintiff refused to accept and thereupon the defendant company suspended him; in a suit by the plaintiff for damages claiming Rs. 600, a month for a year less a certain sum earned by him in that year,

Held, that the period should certainly be for one year as agreement was for over three years longer.

Held also, that the plaintiff was bound to mitigate the damages by accepting the offer at a salary of Rs. 525, if the finding was that there was mistake and that the plaintiff was entitled to take advantage of it, and the damages would have to be assessed at Rs 75 a month for 12 months less the sum earned, on the ground that any difficulty in accepting the offer of the defendant company was of the plaintiff's own making; and that if the finding was that there was no mistake on the part of the defendant company, it would be unreasonable to expect the plaintiff to accept their offer and the damage should be at the rate of Rs. 600 a month for 12 months and that the rule that damages must be mitigated only required that a reasonable course of action must be taken and certainly did not require the plaintiff to do anything unreasonable or of a speculative nature. The plaintiff undertook under a written agreement to serve the railway administration as guard or otherwise in any place situate on the N. W. Railway system. On being served with a notice transferring him from Lahore to Quetta, he applied for cancellation of the order of transfer and after making several protests and excuses finally applied for leave on the ground of his wife's illness but failed to comply with the requirement of a proper medical certificate. As the plaintiff continued to ignore the order of transfer, the Divisional Superintendent for Lahore purported to suspend him but the suspension order was later on cancelled and he was directed to report at Quetta on a certain date and on his

failure to do so was dismissed as from that date. The plaintiff instituted a suit for damages for wrongful dismissal.

Held, that the plaintiff defied his superiors for a period of four months, and made absurd excuses for non-compliance with their orders, and even if the order of suspension gave him an excuse, that ground was completely removed on its subsequent cancellation and that his neglect to obey the order to report at Quetta was a further defiance of his superior officers and following on his previous conduct gave ample justification for his immediate dismissal. ———*Liability of master for acts of servant—Liability imposed by statute* — Mens rea *immaterial* — *Burma Forest Act (IV of* 1902), *Ss.* 55 (d) *and* 58 (a).

The appellant obtained from Government a grant of 500 acres of land from forest reserve for the cultivation of Kapok a shrub producing a substance, similar to cotton. The land contained a considerable quantity of teak and other timber. He was allowed to fell and extract the timber and for that purpose he was allowed the use of the property hammer to be impressed on all timber felled within the grant, subject to several restrictions imposed by the Forest Department. The appellant employed a servant who supervised felling of trees and clearing the jungle in the grant area. The servant was also entrusted the use of the property hammer. The servant marked timber with it on numerous occasions in the absence of the appellant and without his orders. Though the condition of the license under which property hammer mark was issued contemplated that the licensee should be permitted to entrust the hammer to an employee only under a written permit, no such permit in fact issued to the servant. It was subsequently discovered that in violation of the conditions of the grant, illicit felling of teak trees had been done on a very extensive scale both in reserve forest and on public forest land and such timber marked with the property hammer and a considerable quantity which was not marked at all with the property mark was found within the appellant's grant. The appellant was prosecuted for (*i*) unlawfully felling teak trees in a reserve forest under S. 55 (*d*) of the Forest Act, (*ii*) unlawfully felling the teak trees on public forest land under S. 58 (*a*) and (*iii*) impressing the property hammer mark on timber which had been unlawfully felled under R. 87 (*b*) (*vi*) read with R. 98.

Held, (1) that under R. 87 the owner of a property mark was responsible for its legitimate use and so the appellant was guilty under R. 87 (*b*) (*vi*) for the improper use of the mark by his servant; (2) that in marking timber his servant was acting within the scope of his employment and as the offences under the Forest Act had nothing to do with *mens rea* of the offender the master was criminally liable by statute for violation of the conditions of the grant by the servant, although such acts of the servant were not authorised by and were done without the knowledge of the master. ——*Relationship—What constitutes—Incidents of—Test to decide.*

The relationship of master and servant is a question of fact. A servant is a person who voluntarily agrees, whether for wages or not, to subject himself at all times during the period of his service to the lawful orders and directions of another in respect of the work to be done by him. That other person who is entitled in law to give orders and to have them obeyed is the master. The relationship therefore exist only in between persons of whom one has the control of the work done by the other. It does not depend merely on the mode of payment for service, or on the time for which the services are engaged, or the nature of those services, or again on the power of dismissal, though these are certainly matters which the Court may take into consideration in deciding the relationship. The test, therefore, is the right of control which a person has in the manner in which the other does the work. Where the story of the prosecution and the evidence in support of it are so garbled and distorted, and where the true facts of the case are so overlain with a mass of lies that it is practically impossible to disentangle them from the falsehoods in which they lie embedded, then to such a case the maxim *falsus in uno falsus in omnibus* has no applicability whatsoever, and no conviction can be legally based upon such tainted evidence upon which no credence can be placed, and in respect of which the trial Judge or the appellate Court cannot assert what portion of it is true and induces belief in the existence of certain facts and what portions of it are false and unworthy of belief. When the Legislature has given its consent to a separate subject and made provision for it, the presumption is that a subsequent general enactment is not intended to interfere with the special provision unless it manifests that intention very clearly. But in that respect every enactment must be construed according to its own subject-matter and its own terms. The Charter of the City of Montreal was amended in 1910 by 1 Geo. V., c. 48, which specially dealt with the annexation of the town of Longue Pointe as a ward of the City. It conferred on the City the power to macadamise the streets, the cost of it to come out of the general fund of the City. The Charter was again amended by Several Acts in 1911, 1912 and 1914, which provided that "notwithstanding any law to the contrary", the cost of paving shall be apportioned among the proprietors in the respective streets or lanes.

Held, that having regard to the fact that the amendments were all of the statutory Charter and that the special enactment was recognised in the same statute as the general enactment, the latter, though general, enactment modified the earlier Statute and that the City had the power to charge the frontagers. MAXIMS.

———Nemo Allegans turpitudinem suam andiendus est —In pari delicto potior est conditio possidentis—*Applicability.*

There is no real conflict between the two maxims. The principle underlying both is the same; one embodies the general rule and the other an exception to that rule. It is one of the fundamental doctrines of all civilized systems of jurisprudence that a Court of law shall not lend its aid to enforce a transaction which is tainted with fraud. A person who has polluted his hands by being a party or privy to a fraudulent transaction shall not be allowed to approach the fountain of justice with his own infamy on his lips and obtain relief on the strength of such a transaction. The moment he relies on such an agreement he will be told *nemo allegans suam turpitudinem audiendus est.* This is the general rule. But its rigid application to all cases regardless of the attendant circumstances, might result at times in giving effect directly or indirectly to the fraudulent design of its authors, and thus defeat the very object for which the rule was framed. In order to avoid such undesirable consequences several exceptions to the rule have been recognized. One such exception arises in the familiar case in which the fraudulent transaction is still executory and the purpose of the fraud has not yet been effected. In such a case one of the parties to the fraud is allowed to approach the Court, repudiate the transaction, and recover money or property which had been handed over by him to the opposite party in furtherance of the transaction. In such circumstances, public policy requires that a *locus penitentiae* be given to one or other of the parties and he be allowed to retrace his steps, state the true facts before the Court, and by revoking the authority of his confederate to carry out the fraudulent scheme, defeat the purpose of the contemplated fraud. Another such case arises where two persons secretly conspire to defraud a third and in order to do so enter into a colourable agreement, and after the purpose of the fraud has been achieved one of the confederates sues the other to enforce the agreement, concealing the real facts. It is obvious that, in a case like this the Court, by preventing the defendant from showing the real nature of the transaction will be making itself the instrument of the plaintiff to give effect to an agreement which is tainted with fraud and which had been brought into existence by the joint act of both the parties. In such circumstances it is found that both the plaintiff and the defendant were in *in pari delicto*, the Court shall stay its hand, and refuse its support to either confederate "letting the estate lie where it fall". 35 Cal. 51 (P.C.), Ref. ———*Adverse possession—Different strata of sub soil can be separately owned and possessed.*

There can be separate ownership and separate possession of different strata of the sub soil at all events where minerals are involved. If a yellow ochre found in the sub-soil under a hill is established by the evidence to be a mineral and the deposit of such ochre is a fairly defined stratum, possession of the ochre must be presumed to be with the zemindars until adverse possession by the darputnidars for the statutory 12 years is established. This cannot be presumed from their adverse possession of the superincumbent stratum of stone and gravel because the law strictly confines the title of the trespasser to the property in his actual possession. *Cox* v. *Glue*, 5 C.B. 533; *Rowbotham* v. *Wilson*, 8 E. and B. 123; *Low Moor Company* v. *Stanley Coal Co.*, 34 L.T. ———*Agricultural lease—Lime stone holders standing on holding—Right to—Removal of stones by third person with consent of tenant—Landlords right to claim value from—Person removing.*

A tenant holding under an agricultural lease has only the right to enjoy the land for agricultural purposes. The property on the land leased remains in the landlord who still continues to be the owner of everything on the surface of the soil, including earth and stones and trees standing on the land. The tenant has only a right to cultivate the land and not to appropriate the soil or anything on the surface. Consequently lime stone holders on the land are the property of the landlord, and a person removing the same, though with the consent of the tenant, is liable to the landlord for their value. The consent of the tenant to such removal is immaterial. The fact that such removal is not a waste does not also

———*Alienation by guardian—Christian mother—Alienation of property of minor—Validity.*

A Christian mother, the father being dead, is for many purposes the natural guardian of her minor child. But she has no power to convey to another any right or interest in the immovable property belonging to the minor. MINOR—Alienation by guardian.

———*Alienation by guardian—Necessity—Burden of proof—Certificate by Court—If conclusive.*

The ordinary law applicable to a person dealing with the property of a person under a disability is that he must make a proper inquiry to satisfy himself of the existence of a legal necessity for the money and of the necessity for a loan or sale to produce the required money. A *bona fide* lender or purchaser may satisfy this obligation by demanding a certificate of the District Judge that the money is required for a legitimate purpose aud sanctioning the loan or a sale to supply the need. But if the lender or alienee is already aware of the facts or has materials which put him on enquiry, he cannot rely upon the certificate. A stranger purchasing from a guardian acting under the authority of the District Judge is entitled to protection so long as he is not shown to have acted in a fraudulent or collusive manner, after knowing that the debts sought to be liquidated by the sale were not lawfully binding on the minor. The burden of proof in such a case is on the person seeking to set aside the alienation. But when the purchaser is himself the creditor, whose debts it was the object of the alienation to liquidate, the onus is shifted on to his shoulders as soon as the plaintiff seeking to set aside the sale establishes a *prima facie* case, because such an alienee has the means of satisfying a Court as to the origin and nature of the debts and of their binding character. The father and natural guardian of the minor had transferred the property to the defendant in 1912. The minor attained majority in 1923 and sold the property to the plaintiff No. 1 in 1925. The plaintiff No. 1 and the quandom minor (as plaintiff No. 2) brought a suit in 1926 to set aside the alienation of 1912. Plaintiff No. 2 withdrew from the suit without objection on the part of plaintiff No. 1 and on the question whether the suit was in time.

Held, that Art 44 of the Limitation Act did not apply to the suit. "The question is not whether the suit was barred by limitation, but whether the plaintiff has a right to continue the suit. After the minor had withdrawn, he has virtually elected to acquiesce in the sale by his guardian and the interest of the minor in the property has been extinguished under Art. 44 read with S. 28 of the Act. Compromise by guardian.

———*Compromise by guardian—Suit for declaration, compromise void—Compromise declared void—Effect on proceedings following compromise.*

C had obtained a decree for money against a minor under the guardianship of his mother and attached some property of the minor. The property was sold and judgment-debtor through mother applied for setting aside sale under O. 21, R. 92. *C* opposed the application but during the pendency of the application the parties appeared and certified a settlement under which *C* had agreed to give judgment-debtor time for payment failing which the sale was to be confirmed and the objection made by judgment debtor under O. 21, R. 92 was to be considered withdrawn. The money was not paid by the date fixed and judgment-debtor applied for extension of time which was refused and sale was confirmed by executing Court. After this, the judgment-debtor through next friend, one *J*, filed a suit for declaration that compromise of settlement as also confirmation of sale should be declared void. The Court decreed the relief that compromise or settlement was void on ground that permission of Court had not been taken to effect a compromise but refused to interfere with order confirming sale. Judgment-debtor thereupon applied to executing Court for order setting aside the order confirming the sale. The application to set aside the order on the strength of declaratory decree was allowed. The declaratory decree was not appealed against by the parties.

Held, (*i*) that the declaratory decree must be held to be binding on the parties that is to say the compromise by which the objection under O. 21, R. 92 was withdrawn and the sale was confirmed must be held null and void, (*ii*) that all that followed from the compromise including the order confirming the sale must also be

It is open to a minor to ratify, after he attains majority, the acts of his guardian or the acts of the latter's agent, for the acts of the guardian's agent may be taken to be those of the guardian. But to amount to ratification, there must be, after majority and after the ex-minor has acquired full knowledge of the nature and effect of the transaction, some promise or other act, which shows an internal acknowledgment of his liability in respect of the act done on his behalf during minority. Renewal by an ex-minor of an old promissory note executed by an agent of his mother and guardian without full knowledge of the nature and effect of such renewal cannot be held to be a ratification by him of the contract of loan, especially when the renewal is effected by him just after majority and at a time when the agent who acted for his guardian is in the service of the payee of the promissory note. The mere fact that a guardian *ad litem* of a minor defendant does not appear at the trial of the suit but allows the suit to proceed *ex parte* will not justify the inference that he was grossly negligent in the discharge of his duties in the conduct of the suit. The real test of gross negligence is to find out whether in fact there has been on the guardian's part any act or omission in the conduct of the suit which has caused prejudice to the minor. The guardian is expected to take care of the interests of the minor in the same way as a prudent man would look after his own interests. Where the guardian refrains from contesting the suit and allows an *ex parte* decree to be passed, because there is no valid defence to the suit, it cannot be held that his non-appearance amounts to gross negligence so as to entitle the minor defendant to have the decree set aside. Negligence of guardian.

———*Negligence of guardian—Decree against guardian—Right to set aside.*

Where a guardian has been formally appointed, but he is grossly negligent in his duties, he ceases to represent the minor property and effectively, and the result is the same as if no proper guardian had been in existence. The test of negligence should be the not doing of what a reasonable man, guided by prudent considerations which regulate the conduct of human affairs would do, or doing something which a prudent and reasonable would not do. The negligence in order to be a good ground for the avoidance of a decree must be of such a nature as to justify the inference that the minor's interests were not at all protected and therefore he was not properly represented. The direct result of the negligence must be a serious prejudice to the minor and the negligence must not be merely such as might be innocently committed even by a reasonable person taking the ordinary precautions which he would have taken in his own case. Where the negligence is so gross as to amount to a clear violation of the duty cast upon the guardian, although not brought to the notice of the Court at the time, the decree can be avoided. The amount of care which a guardian is under obligation to take may vary with the flexible posture of each case. The word "gross" qualifying negligence is not indicative of any standard of negligence. Gross negligence includes inexcusable absence of such ordinary care which under the circumstances of the case a prudent man was bound to take to safeguard his interest or that of a person who was dependent upon him. Where the prudent man abandons his prudence without any excuse in the conduct of any affair affecting the interest of his wards, he must be held to be guilty of negligence. Where negligence is established, liability follows for all resultant consequences. (*Sulaiman, Boys and Sen, JJ.*) MT. There is a distinction between the liability of a next friend of a minor whose suit is dismissed, to pay the costs of the successful defendant, as between himself and the latter, and the question as to the position between himself and the minor. The next friend is liable to pay the costs of the defendant who has a right to get them from the next friend irrespective as to whether the action was or was not proper or for the benefit of the minor. The judgment should direct the next friend to pay the costs without prejudice to his right of reimbursement out of the minor's estate, or with liberty to so reimburse himself. But if it appears to the Court that the action was improper or not for the benefit of the minor or that the next friend did not properly conduct it or was guilty of negligence, the order should be to make the next friend personally liable to pay the costs; and in such cases he can have no recourse to the estate of the minor. The Court, however, should clearly state the same in its judgment or order. (*Rangnekar, J.*) BABU *v.* ALIBHAI. **59 Bom. 35=156 I.C. 304= 7 R.B. 498=36 Bom L.R. 1201=A.I.R. 1935 Bom. 112.**

In a suit for redemption, the mortgagee is not entitled to claim any arrears of rent in respect of the mortgaged lands which were left in the possession of the mortgagor as tenant of the mortgagee under the terms of the mortgage deed when the mortgagee has already sued and obtained a decree for such rent and has allowed the decree to become barred by limitation. This principle is applicable to a case where the mortgagee obtains possession through court of certain plots exempted from the mortgage and a decree for arrears of rent. The fact that a mortgage deed fixes a period of nine years for re payment of the loan does not lead to the inference that no interest can be charged after the lapse of that period when there is no provision in the deed that interest would not be so charged. The vendee of a half share of certain mortgaged properties had agreed to pay off half the amount due under the mortgage, then calculated at Rs. 22,000. The mortgagee brought the properties to sale and the vendee paid off the entire amount due under that decree. Rs. 47,278 including a sum of Rs. 1,300 paid as compensation to the auction purchaser. In a suit by a prior mortgagee in which the vendee was impleaded as a subsequent mortgagee.

Held, (1) that the vendee was entitled to obtain credit for one-half of the amount which he paid on behalf of the mortgagor but not for the other half which he was bound by the terms of his purchase to pay; (2) that he was not entitled to obtain credit for Rs. 1,300 paid at compensation, since he could have paid up the amount prior to the execution sale; and (3) that his liability under his purchase was not confined to one half of Rs. 22,000 but he was bound to pay one-half of the debt due under the earlier mortgage, whatever it may be at the time of payment. ———*Covenant for insurance with mortgagee—Consent of mortgagee to change insuring company—Suit on mortgage—Appointment of receivers—Binding nature of covenant for insurance.*

Certain properties were mortgaged by *G* in 1925 with the respondent, an insurance company. It was provided by Cl. 3 that the mortgagor would keep the properties insured with the mortgagee and if he neglected to do so, it was lawful for but not obligatory on the mortgagee to insure and keep insured the property in any manner he may from time to time determine. In January, 1928, the respondent permitted *G* to have the properties insured with another company instead of themselves. In June, 1928, a suit for foreclosure was brought by a subsequent mortgagee of the same properties and receivers were appointed to manage the property. The question was if Cl. 3 of the deed in favour of the respondent company was still binding or had been waived by them.

Held, that the permission given by the respondent company to vary the insurer applied only to the years for which it was given, that in spite of the order appointing receivers the parties were still governed by their contract, that under Cl. (3) the respondent company had the first voice in the selection of the insurers and that the receivers were bound to insure with the respondent company. (*Rankin, C.J. and Pearson, J.*) J. C. MORTGAGE—Equitable.

The amount secured by the mortgage, Rs. 1,000 was repayable in ten annual instalments of Rs. 100 each, together with interest. A clause in the deed provided that if two successive instalments remained unpaid, the mortgagor should, "without having regard to the future instalments, pay all the amount of principal and interest due in one instalment." Two instalments fell into arrears and the mortgagee obtained a decree for their recovery. He subsequently brought a second suit to recover the whole balance due from the mortgagor.

Held, that the second suit was not barred under O. 2, R. 2, C. P. Code. In such a case, the mortgagee has two alternative courses open to him; either to enforce the penalty or to stand on the original deed. If he elects to adopt the latter course, it cannot lie in the mouth of mortgagor to meet his suit on the mortgage with the objection that he is barred because he did not adopt the former 39 M 981 and A.I.R. 1931 Pat. 285, Appr.; 1929 M W.N. 204, Not Foll., Ref.; 56 M.L.J. 580, Ref. ———*Mortgage—Equitable mortgage—Creation of—Deposit of certified copy of jamabandi entry.*

In no circumstances can the deposit of a mere certified copy of a jamabandi entry constitute an equitable mortgage. To prevent fraud, it is necessary to distinguish between documents creating title and documents evidencing title, and it is desirable to restrict as far as possible to the former category the deeds, the deposit of which can validly create an equitable mortgage. ———*Equitable mortgage—Deposit of copy of jamabandi.*

The nature of a jamabandi after all is nothing more than a Government record prepared for the purposes of collection of revenue. Such a record is no doubt by statute declared to be presumptive evidence of title but it cannot be said to be a document of title in any way whatsoever. ———*Mortgage suit—Final decree—Application adjourned* sine die—*Fresh application against heir—Limitation.*

In a mortgage suit the Registrar fixed the date for payment on 9th September, 1926. On 26th January, 1927, the plaintiff moved a notice of motion against the defendant for a final decree. The matter was adjourned *sine die* on the defendant's attorney stating in Court that the defendant had become insane. Pending a suit for setting aside the preliminary mortgage decree on behalf of the defendant he died and his heir was substituted in the mortgage suit. On 15th August, 1930, the plaintiff gave a notice of motion served on the heir asking for a final decree.

———*Mortgage suit—Holder of two mortgages—Right to sue on each separately—Form of decree.*

Although a holder of two mortgages is entitled to bring a separate suit on each of the mortgages, the form of decree to be passed in such a suit is entirely different question. Where the holder of two mortgages owns the same property and has once foreclosed on the mortgaged property his rights as mortgagee are merged in his rights as owner. He is not entitled to foreclose the same property twice. But the question is different with regard to decree for sale. As a prior mortgagee is not a necessary party to a suit on a pusine mottgage, the property can be sold in a suit on a pusine mortgage subject to the prior mortgage; therefore when a person is holder of two mortgages there can be no objection to sale of the property on second mortgage subject to the first mortgage. A.I.R. 1916 Mad. 934 (F.B.); 23 All. 313 (P.C.), Foll.; 4 Cal. 475 and 11 Bom. 112, Rel. on; 8 N.L.R. 123 = 17 I.C. 129, Overr. It is not however open to holder of two mortgages to have the property sold in execution of first mortgage subject to the second mortgage, because by having the property sold on the first mortgage, must be deemed to have withdrawn that property from the operation of the later mortgage. If therefore the mortgaged property or part of it is sold in execution of one of the mortgages it cannot thereafter be sold again in execution of the other mortgage. 25 Mad. 108; 29 All. 233; 38 B. 369; 19 C.L.J. 590, Rel. on. The defendant had a simple money decree against the mortgagors and had the property attached in execution of their decree shortly before the mortgagee instituted his suit for sale on foot of his mortgage. The sale in execution was not made till after the institution of such suit. The holder of the simple money decree himself purchased at the auction and obtained possession of the property in dispute. Subsequently a decree for sale was passed in favour of plaintiff. ———*Movables—Movable property—Pledge without possession—Rights of attaching creditor of pledgor.*

A mortgage of movable property without possession is entitled to the security against an attaching creditor of the mortgagor. The attaching creditor gets no title in the goods and has merely a right to move the Court on his behalf to take possession and ultimately bring the goods to sale. Until he exercises it until the actual attachment the person claiming the goods as security has the right to take possession. If he has done so, the attaching creditor cannot get possession. If he has not, the attaching creditor can. This is so whatever the form of the document creating the security. (*Ameer Ali, J.*) MANMOHAN MUKUERJI *v.* KESRICHAND GULABCHAND. **62 Cal. 1046.**

———*Movables—Movable property—Pledge without possession—Rights of pledgee.*

A pledge of movable property cannot exist without possession. Before possession is taken, there is nothing more than an agreement. A transaction which cannot operate as a pledge because no possession has been taken, does not operate as an effective mortgage of movables. A mortgagee under such a mortgage without possession will be deferred to a subsequent pledgee, to a *bona fide* purchaser for value, and to the assignee in insolvency. (*Ameer Ali, J.*) MANMOHAN MUKHERJI *v.* KESRICHAND GULABCHAND. **62 Cal. 1046.**

———*Movables—Nature of.*

A simple mortgage of movables with a power of sale is a mere hypothecation with a stipulation that in the event of the debt not being paid and the mortgage not being redeemed, the mortgaged properties may be realised by sale. It has no analogy to a simple mortgage under the Transfer of Property Act or to a mortgage of movables under the English law. In the case of a mortgage in England the whole legal title passes to the mortgagee conditionally and if there is no redemption, the title becomes absolute. On the other hand, in the case of a pledgee with possession a special property passes to him and he is entitled to detain the goods to secure repayment of the debt due to him. ———*Movables—Successive encumbrances—Priority.*

In respect of movable property possession is a symbol of the title and if a person who has accepted a hypothecation of movable property without obtaining possession seeks to enforce his right against subsequent encumbrancers who have exercised the powers which they possess to obtain possession of the property hypothecated to them and have sold the goods in execution of a decree, it is incumbent upon the prior encumbrancer to satisfy the Court that the subsequent encumbrancers had notice of the charge to which the first encumbrancer was entitled. This may be based either on the principle that personal property passes by delivery of possession and it is possession which determines the apparent ownership or on the ground that having clothed the hypothecator with apparent authority to deal with his property the first hypothecatee is estopped as against the subsequent encumbrancer from asserting his priority. The onus is not on the subsequent encumbrancer to show he had no notice of the earlier charge. 28 I.C. 462 and *Dearle* v. *Hall*, 3 Russ. 1, Foll. ——— *Personal covenant—Mortgage deed—Presumption.*

In all mortgages a personal covenant to repay the mortgage money must be presumed unless there is something in the nature and the terms of the mortgage deed to negative it; as regards an anomalous mortgage, the Court would not necessarily come to any conclusion by deciding the nature of the deed, as to whether there is or is not a personal liability. The nature of the deed may either raise a presumption for, or a presumption against, the interpretation of the terms, which might otherwise be ambiguous, in favour of or against a personal covenant to pay; but a personal covenant to pay may be express or may be implied in all mortgages whatsoever of any form, the only difference that could arise is that in certain forms of mortgages the Court might, in the absence of an express covenant, demand a much more clearly implied covenant than it might require in other cases. This would particularly be the case in a usufructuary mortgage. A suit upon a mortgage was compromised and the arrangement between the parties in their own language was given in the schedule attached to the decree. By the terms thereof a certain sum became the decretal amount and an order absolute for sale was made. The decree, however, on certain terms, "will not be executed by sale of the mortgaged properties or otherwise for a period of five years." If the terms were not complied with, the mortgagee was to be entitled "to execute the decree by sale of the mortgaged properties in suit through Court in the usual way." There was, however, no clause expressly giving leave to mortgagee to apply for a personal judgment for the deficiency, if any.

Held, that there was nothing to suggest that the mortgagee intended to give up his right to a personal judgment for the balance due after the sale and that the mere omission of the clause reserving leave had no such effect. Where a prior mortgagee obtains a decree on foot of his mortgage and purchases the mortgaged property in execution of his own decree, to which the puisne mortgagee was not a party, the sale cannot be considered to be of no effect at all. It effectively transfers the mortgagor's right to the prior mortgagee (auction-purchaser) as between the mortgagor and the prior mortgagee, though the sale is not binding on the subsequent mortgagee, who can, in spite of it, exercise his right of redemption. In the exercise of his right of redemption the puisne mortgagee is entitled to treat the prior mortgage as still subsisting. Not being bound by the decree, he can ignore it. The necessary corollary to this is that account of the mortgage money is to be made up on the basis of the stipulations contained in the mortgage-deed. In redeeming the mortgage he must pay the principal and interest calculated up to date. At the same time, the prior mortgagee, who has been in possession of the mortgaged property by virtue of the auction sale held in execution of his own mortgage decree should account for the usufruct received by him.

In a case where it was not known what amount of principal and interest was due to the prior mortgagee at the time of his obtaining possession and there was no

MORTGAGE—Prior and subsequent.

———*Prior and subsequent—Vendee undertaking to pay prior mortgage—Delay in payment—Vendee's right to further interest in suit by subsequent mortgagee.*

Where a vendee who had undertaken to pay off the prior mortgage under his sale-deed and obtained possession of the mortgaged property, delayed payment in consequence of which delay further interest accrued the vendee was entitled to claim credit for the extra interest which had accrued on the prior mortgage, when a suit was brought by the subsequent mortgagee The subsequent mortgagee was not privy to the contract between the mortgagor and the vendee and could not be allowed to take advantage of the terms of that contract. If owing to the delay in payment the mortgagor had suffered any loss, it would be his right to recover compensation from his vendee. But the delay in the payment of a prior mortgage, either by the mortgagor himself or by mortgagor's representantive, would not in any way cause harm to the subsequent mortgagee who should himself have paid off the prior mortgage and claimed subrogation. ———*Revival of—Mortgage bond—Simple bond taken subsequently—Suit on bond dismissed on account of interpolations in it—Novation—Whether the earlier bond is revived.*

The plaintiff sued to enforce a bond of December 12, 1919, executed by the defendants. Subsequent to the transaction on December 9, 1922, there was a simple bond executed by the defendants in favour of the plaintiff for the balance then owing after some payment had been made by the defendants. A suit had been brought on the later bond but the same was dismissed on the ground that the plaintiff had made certain interpolations in the bond. Thereupon the plaintiff sued on the original mortgage bond.

Held, that the original mortgage had come to an end by the novation of the latter contract and that the earlier bond could not be revived by the plaintiff's own act invalidating the latter bond. ———*Sub-mortgage—Distinction between sub-mortgagee and puisne mortgagee.*

With reference to the effect of non-joinder in a redemption suit on the rights of subsequent mortgagees, there is a distinction between the position of a puisne mortgagee and sub-mortgagee. A puisne mortgagee obtains an interest in the property originally mortgaged; and every puisne mortgagee in his turn has a right to have his claim satisfied out of the property originally mortgaged until it is exhausted. A sub-mortgagee has no direct interest in the property originally mortgaged by his mortgagor's mortgagor. He has only an interest in the mortgage right obtained by his mortgagor a right which he knows is terminable, and when that right has been legally terminated, his security so far is gone. A mortgagor cannot be allowed by redeeming some of his mortgagees to defeat others, but when a mortgagor wishes to exercise his legal right to redeem a mortgage created by him, he cannot be obstructed or delayed by the existence of a sub-mortgage of which he has never had knowledge or notice. ———*Sub mortgage—Representation by mortgagee—Suit by third party against mortgagor and mortgagee—Sub mortgagee whether bound.*

The mortgagor obtained a sale from the guardian of a minor in 1902. In 1908 the vendee usufructuarily mortgaged the property to another and the latter sub-mortgaged the same to the first defendant. Upon the sub mortgage, a suit was filed impleading the mortgagor and mortgagee a decree was passed and the decree-holder purchased the property in execution. Meanwhile the minor on attaining majority had sued to set aside the alienation impleading the mortgagor and the mortgagee but not the sub mortgagee. He obtained a decree in 1917 and subsequently conveyed the property to the plaintiff who now sued for a declaration of his right to possession and for an injunction.

Held, that the sub-mortgagee was not bound by the adjudication in the ex-minor's suit since he was no party to it but the plaintiff was entitled to succeed subject to the sub mortgagee's rights. Where there are several mortgages on a property, the owner of the property subject to the mortgages may, if he pays off an earlier charge, treat himself as buying it and stand in the same position as his vendor. ———*Subrogation—Conventional subrogation — Doctrine of.*

A right to conventional subrogation will arise only in those cases where the party claiming it advanced the money to pay a debt, which in the event of default by the debtor, he would be bound to pay or where he had some interest to protect, or where he advanced the money under an agreement, express or implied, made with the debtor or creditor, that he would be subrogated to the rights and remedies of the creditor. ———*Subrogation—Decree creating charge—Payment of charge by subsequent encumbrancer—Knowledge of charge if material.*

A decree of 1914 obtained in a previous suit provided a charge on the mortgaged properties for Rs. 30,000, and interest thereon in favour of defendants therein enforceable by execution. The 1st respondent took a mortgage in 1915 of the said properties for Rs. 8,000. the deed reciting that there were no prior encumbrances thereon. The appellant took a subsequent mortgage of the same properties, out of the proceeds of which the decree of 1914 was paid off in full. The 1st respondent brought the present suit on her mortgage in 1927 impleading the appellant as a subsequent mortgagee. The appellant claimed priority on the ground of having paid off the previous charge, over the respondent's mortgage which was resisted on the ground of want of notice of the charge.

MORTGAGE—Subrogation.

Held, (1) that there could be subrogation in respect of a charge. No question of notice could arise, as the respondent's rights came into being pending the previous suit, which for purposes of *lis pendens* continued till the complete satisfaction of the decree, (2) that the claim of the subrogee was not barred though the decree of 1914 might become barred. The amount due under the decree having been paid off, no question of executing the decree could arise. That being so, a suit was his only remedy; (3) that the representation in the mortgage bond as to the absence of previous encumbrances on the property did not estop the appellant from claiming his rights as a subrogee because he claimed the right of subrogation as a legal right which the mortgagor could not have claimed. It is the discharge of the prior encumbrance that entitled him to put forward his claim of subrogation, and this being quite an independent right, there is no substantial foundation for urging the plea of estoppel. Held, that *K* was not a mere volunteer who intermeddled with the estate of another and in whose favour no equitable considerations did arise and therefore *K* had a preferential claim for the amount paid by him which went towards the discharge of *M's* mortgage. ———*Subrogation—Rationale of doctrine—Mortgagee paying up his own earlier mortgage.*

The doctrine of subrogation is an equitable doctrine founded on principles of natural justice, by no means confined to S. 92 of the T. P. Act. When a particular liability or a burden which a person is liable to satisfy or discharge is satisfied out of the money belonging to another person, it would be contrary to equity and good conscience to hold that such last named person is not entitled to the benefit of the equities existing in favour of the person whose debt has been so discharged. The section does not cover the case where both the persons are the same but the doctrine is wide enough to govern such a case. Where in pursuance of an agreement between the mortgagor and a subsequent mortgagee the latter paid a certain amount towards the discharge of a prior mortgage debt and it appeared that at the time when the payment was made the mortgagee was not aware of the existence of an intermediate mortgage in favour of another person,

Held, that the subsequent mortgagee who made the payment was entitled to the right of subrogation in respect of the amount he had paid. In such cases the presumption is that when the subsequent mortgagee paid off the prior mortgage he intended to keep that mortgage as a shield against the subsequent mortgagee and the knowledge of the existence of the second mortgage is not a material consideration in pleading the presumption. 10 Cal. 1035 (P.C.); 8 Mad. 246 and 55 M.L.J. 369, Rel. Substituted security.

———*Substituted security—Applicability and scope of doctrine—Mortgage of specific property by Hindu co-parcener—No reference that mortgagor is undivided coparcener or that mortgage is only of share—Partition—Allotment of different property —Mortgagee's right against* bona fide *purchaser.*

Where a member of a joint Hindu family purports to mortgage property *A* as his own and subsequently gets property *B* at a partition, a transferee of property *B* from him cannot ordinarily discover that property *B* is subject to any encumbrance. On the other hand, if the original mortgage were to compromise the whole of his undivided share in the joint family property, a search of the registration records will certainly put the subsequent transferee on notice of the prior mortgage. These considerations ought not to be ignored in applying and extending the doctrine of substituted security. Further under the Hindu Law the rights of an undivided member to alienate a specific item of property are by no means absolute. And even in Madras where larger

MORTGAGE—Substituted security.

powers of alienation are recognized, a distinction is drawn between cases where a member purports to alienate his undivided share generally and cases where he purports to alienate a specific item of property. In the latter case he really deals with property to which he has no title at the time, and it is only as a kind of equity that Courts allow the alienee to claim that at a partition between the alienor and his coparceners the particular item alienated might, if possible, be allotted to the alienor's share. If for any reason the allotment is not so made the transfer will become inoperative and the transferee can only claim compensation against the alienor. But when no reference is at all made to the fact that the mortgagor is only a sharer, and the property is mortgaged as if he was absolute owner thereof, there is even less justification for the application of the doctrine of substituted sscurity, and there are obvious difficulties in extending the doctrine. ———*Substituted security—Mortgage of undivided share—Partition among co-sharers—Different share allotted to mortgagor—Right of mortgagee.*

A mortgagee of an undivided share which under a partition has been allotted to another co-sharer, cannot in the absence of fraud be enforced by the mortgagee against the share originally mortgaged, the mortgagee's sole remedy being to proceed against the share which has been allotted to his mortgagor in lieu of the share mortgaged. In such a case the pledge assumes a new form and the security is shifted, as a result of the partition, from the undivided share of the mortgagor on to the property which has fallen to his share. If the property as allotted to the mortgagor is subsequently transferred by him to third parties, that transfer will make no difference as far as mortgagee's rights are concerned, for such transfer will only operate as far as right, title and interest of mortgagor, and the transferee does not and cannot acquire higher rights than those of the mortgagor. The promisee sued on a promissory note and obtained an order of injunction restraining the defendant promisor from recovering a certain amount secured by mortgage in his favour. The defendant however sold his mortgagee rights to a third person who instituted a suit and obtained a preliminary decree. The promisee thereupon sued the assignee and the mortgagors to obtain a declaration that the transfer was not binding on him but the suit was dismissed and he thereupon preferred an appeal. During that time that decree was assigned by the transferee to another person who obtained a final decree and thereupon transferee of the mortgagor's rights deposited the decree amount in Court. Later on the promisee succeeded in the appeal and enforced the decree against the mortgagee rights of the original promisor. The purchaser in execution sued to recover the amount from the final transferee of the mortgagee's rights who by that time, had withdrawn the money deposited in Court.

Held, that there was no privity of contract between the plaintiff and defendant that the plaintiff who had impugned the assignment of the mortgage could not sue to recover the amount deposited in furtherance of the transfer and that the claim was therefore misconceived. ———*Substituted security—Surplus sale proceeds after satisfaction of prior mortgage—Right of usufructuary mortgagee to.*

It cannot be denied that the usufructuary mortgagee has an encumbrance on the mortgaged property and if such mortgaged property is converted into cash, the encumbrance is transferred from the property originally mortgaged to the one substituted therefor. The usufructuary mortgagee is certainly entitled to the possession of the substituted security in the same manner as he had a right to the possession of the property originally mortgaged. Accordingly where the defendant who is a third mortgagee attaches the surplus proceeds of sale of the mortgaged property after satisfying the first simple mortgage and recovers it, the plaintiff who is the first simple mortgagee and who has taken a second usufructuary mortgage is entitled to recover the same from the defendant. MOTOR VEHICLES ACT (1914).

Plying for hire means the act of soliciting custom. Where a person who owned a motor lorry purchased goods at one place and after transporting them to another place sold the goods there to their customers but it did not appear that he solicited custom at any time.

Held, that the owner of the lorry was not liable to be convicted for breach of the Punjab Motor Vehicles Plying for Hire Rules. (*Shadi Lal, C.J.*) KHUSHI RAM SHADI RAM *v.* EMPEROR. **I.R. 1931 Lah. 670 =132 I.C. 702=32 Cr.L.J. 948=1931 Cr.C. 857 = A.I.R. 1931 Lah. 569.**

———*Bombay Motor Vehicles Rules*, 1915, *R.* 19 (1)—*"Ordinarily pass a tram-car"—Effect.*

Although R. 19 (1) refers to a tram-car whether it be going in the same or in the contrary direction the rule covers a tram-car which is stationary. The adverb 'ordinarily' denotes that the rule applies except in a case in which there is some impediment to passing the tram-car on the near side, for example, the road may be up or there may be a long line of slow moving traffic which would make it impossible to pass the tram-car on the near side within a reasonable time. The mere fact that there are foot-passengers which made it difficult for accused to pass a tram-car on the near side and that there is plenty of room to pass it on the right side is not enough to take the case out of the rule. The permit accorded permission to the owner of the lorry to ply within the district and the road on which it was permitted to ply was also specified therein. The permit did not, however, specify the maximum number of passengers. The road on which the lorry was driven was not specified in the permit and it was also then carrying a greater number of passengers than could be taken in a lorry. The owner was thereupon convicted for violation of Rr. 79 and 81 of the U. P. Motor Vehicles Rules.

Held, that (*i*) as the maximum number of passengers was not specified in the permit, the conviction for violation of R. 81 was bad; (*ii*) the words "within the district" were merely descriptive of the route specifically described and did not justify the lorry being plied in other routes within the district and that the conviction for violation of R. 81 was correct. MOTOR VEHICLES (MANITOBA) ACT, S. 62—*Burden of proof—Points to be proved by plaintiff—Plea of no negligence—Proof of—Evidence evenly balanced—Effect of.*

Apart from S. 62, a plaintiff claiming damages for personal injury in a running down case would have to prove that he was injured, that his injury was due to the defendant's fault and the fact and extent of his loss and damage; hence unless he succeeds in establishing all these matters he must fail. In virtue however of the statue he need only establish the first and the third elements, *i.e.*, that he was injured by the defendant and the extent of his damages. If the establishes those two matters, the onus is removed from him and it is then for the defendant to establish to the resonable satisfaction of the jury, that the loss, damage or injury did not arise through the negligence or improper conduct of himself or his servants. This the defendant may do in various ways, as for instance, by satisfactory proof of a latent defect, or by proof that the plaintiff was the author of his own injury; or by proof that the circumstances were such that neither party was to blame because neither party could avoid the other. But the onus which the section places on the defendant is not

MOVABLES.

in law a shifting or transitory onus. It remains on the defendant until the very end of the case when the question must be determined whether or not the defendant has sufficiently shown that he did not in fact cause the accident by his negligence. If, on the whole of the evidence, the defendant establishes this to the satisfaction of the jury, he will be entitled to judgment, if however the issue is left in doubt or the evidence is balanced, even then defendant will be held liable in virtue of the statutory onus, whereas in that event but for the statute the plaintiff would fail, because but for the statute the onus would be on him. *A fortiori* the defendant will be held liable, if the evidence actually establishes his negligence. In case of prosecution under S. 10, the Magistrate has jurisdiction to proceed with the inquiry as to whether the property is wakf or not. On a prosecution under S. 10 it is clearly necessary in the first place for the prosecution to show that the person charged is a mutawalli of the wakf. If that fact is denied the Magistrate may hear evidence on the point and determine it in the usual way. If he finds that the person charged is a mutawalli, then the next question is whether there has been default under the Act. No doubt the essence of a wakf is its permanent character. But it does not follow that the subject-matter of the wakf must necessarily be the full proprietary interest in immovable property. The definition of 'wakf' in S. 2 (1) of the Mussalman Wakf Validating Act is quite general in its character and would certainly include wakf of full groveholder's rights over which the groveholder has a permanent dominion, although the ownership of the site does not vest in him. There seems to be nothing even in the strict Mahomedan Law against the dedication of such permanent rights which amount to a permanent occupation of the land and full proprietary right over the trees that stand on the land, and also the right to maintain the grove as such on the land. The Mussalman Wakf Validating Act has not effected any change in the law. The proviso to S. 3 of the Act does not make valid a wakf which is religious and pious only without being also charitable. ———S. 3—*Wakf—Ultimate dedication to poor.*

The definition of wakf in the Act excludes the view that the mere use of the word 'wakf' is enough to create a dedication in favour of the poor as ultimate beneficiaries. The object of the proviso to S. 3 is that it should appear on the construction of the instrument of wakf that the ultimate benefit is either expressly or impliedly reserved for the poor or for any other purpose recognised by the Mahomedan Law as a religious or charitable purpose of a permanent character. The word wakf' therefore used in S. 3 should not only satisfy the definition of that word given in S. 2 but should also satisfy the limitations of the proviso before a wakf can be adjudged to be lawful within the meaning of the Act. ———S. 3, Proviso—*Implied reservation of ultimate benefit—"Wakf fi-sabi-lillah" in perpetuity.*

The reservation of the ultimate benefit contemplated by the proviso to S. of the Wakf Validating Act can either be made expressly or impliedly. The answer to the question whether the reservation of the ultimate benefit for those purposes has been made by a deed of wakf must depend on the intention of the wakf as disclosed by the deed. In a case where the words "wakf fi sabi lillah" have been used and wakf has been created in perpetuity, and there is provision for the appointment of the mutawallis for all times to come, and a portion of the usufruct of the wakf property has been reserved for pious and charitable purposes, and the wakf had in contemplation the possible extinction of the line of his descendants who were to be the principal recipients of the profits of the wakf property, the irresistible conclusion is that the wakf intended by implication to reserve the ultimate benefit for the purposes enumerated in the proviso. It is a matter of common experience that the opposite party in mutation proceedings is ordinarily described as objector. Hence where a lambardar purchased at a Court sale part of a property in his estate recorded in the name of two co sharers in proceedings to which one of them was not a party, all that he can get from the Revenue Courts is mutation of his name over that part of the property which stands in the name of the person against whom the proceedings were instituted. He cannot get mutation of his name over the part standing in the name of the other co-sharer. MYS. AGRI. REL. REG. (1928), S. 3.

There is no provision in the Regulation regarding pending suits. Where before the introduction of the Regulation on 1st January, 1929, the written statement had been filed and subsequently the defendant applied to be declared an agriculturist, he cannot be said to have "omitted to raise the question of status though it could have been raised" within the meaning of Expl. The suits contemplated by S. 3 of the Regulation relate to the payment of money and fit in with the object of the Regulation which is the relief of agricultural classes from indebtedness. A decree for declaration of title to immovable property for possession thereof and for mesne profits does not come under the Regulation, as it does not directly affect the indebtedness of agriculturists. Nor it is permissible to split up that decree into separate parts, so as to invoke S. 12 in respect of a portion of it. S. 12 is governed by S 3. ———**Ss. 12 and 26**—*Scope and distinction—Decree passed in* 1917—*Application of S. 12.*

There is a distinction between the terms used in Ss. 12 and 26. Whereas S. 26 is made applicable to all "*suits*" of the nature described in the section, S. 12 refers to any "*decree*" passed before, or after the Regulation comes into force. S. 12 cannot be taken to be governed by S. 26, and the reliefs which may be granted by the Court to an agriculturist under S. 12 are not necessarily limited to decrees passed in suits instituted on or after 1st January, 1926. It cannot therefore be held that S. 12 is inapplicable to a decree passed in 1917. (*Chari, J.*) SHIVALINGAPPA *v.* HOLEBASAPPA GOWDA. **12 Mys.L.J. 478 = 39 Mys.H.C.R. 853.**

The Court may at any time direct that the amount of any decree passed, whether or after the Regulation came into force, against an agriculturist, shall be paid by instalments with or without interest. The section only requires that the decree should have been passed against an agriculturist and it does not *prima facie* appear to require that when the order is passed, the judgment-debtor should also be an agriculturist. There is nothing in the Regulation to prevent an agriculturist from transferring his right to another agriculturist. (*Sreenivasa Iyer, J.*) SUBBAYYA *v.* KRISHNAPPA. **9 Mys L.J. 88.**

MYSORE CHIEF COMMISSIONERS NOTIFICATION (III OF 1878)—*Construction* —"*Criminal processes of whatever description*"—"*Jurisdiction*"—*Meaning.*

The Chief Commissoner's Notification III of 1878 is no doubt expressed in very wide terms, but that does not justify the claim for an unlimited scope for its operation. The term "all criminal processes of whatever description" is very general but it cannot include illegal processes. The expression "jurisdiction" in the notification means jurisdiction also to give the particular direction embodied in the process to be executed. The processes covered by the notification would include valid processes issued by a Court competent to issue them. Non payment of taxes under a fiscal enactment such as the Madras Motor Vehicles Act is neither an extraditable offence nor a "crime" justifying the demand for a surrender of the person who has not paid such taxes; consequently a warrant issued by a British Indian Court for the arrest of a person resident in Mysore for such an offence is illegal and not executable in Mysore; such a process not being covered by the notification in question. (*Mahadevayya, C.J., Ramachandra Rao and Shankaranarayana Rao, JJ.*) VENKATARANGAIENGAR *v.* GOVERNMENT OF MYSORE. **12 Mys L J. 328=39 Mys.H.C.R. 485 (F.B.).**

———*Scope and effect of in Mysore.*

The Chief Commissioner's Notification of 1878, included in the Instruments of transfer of 1881 as well as in the Mysore Treaty of 1913 must be deemed to have the force of law within the Mysore State, although it was not embodied in a legislative enactment. But the notification is in force in Mysore as an adjective law and deals only with a matter of procedure and does not effect substantive rights of parties, and cannot authorise the Magistrate of a British Indian Court to issue a warrant of arrest to be executed in the Mysore State by arresting a resident of that state for an offence under the Madras Motor Vehicles Act. ———**S. 64**—*Applicability — Realization of decree amount by sale of some of the attached properties— Effect on attachment of the rest—Subsequent private sale of such properties—If void.*

Where the entire amount for which execution is sought under a decree is realised by a sale of only some of the attached items of property, the attachment of the remaining item or items must be deemed to be withdrawn under O. 21, R. 55 (*b*), C, P. Code, as no further liability subsists under the execution then taken out. Consequently a private sale by the judgment-debtor of such unsold items after the sale in execution of the other items will not be vitiated by the bar of S. 64, C. P. Code, although the decree-holder chooses to file a fresh execution petition in respect of future liabilities arising under the same decree. In that event a fresh attachment of the items unsold at the original sale is necessary before the Court can order a sale thereof; and the decree-holder cannot therefore claim to avoid the private sale by the judgment debtor. Petitioner who held a decree against respondent II, attached the amount in deposit on 14-8 1928. He applied to the Court for payment, but his application was rejected on the ground that the money had been earmarked for respondent I.

Held, that in the absence of any title to priority, petitioner was entitled to rateable distribution and that the erroneous payment of respondent I did not confer on the latter any legal right to retain the money. Where a decree passed against several defendants has been set aside at the instance of one of them, the parties are at liberty to apply to revive the whole suit. There is no specific procedure prescribed in the Code for reviving the suit but that does not prevent the Court from exercising its inherent power when invoked to make such orders as may be necessary for the ends of justice and remit the parties to their original rights in the earlier

———**O. 1, R 1**—*Scope.*

The scope of O 1, R. 1 under the present Code has been very much enlarged. It now enables several persons having separate and distinct causes of action to join as plaintiffs in one suit, provided that the right to

the relief claimed arises out of the same act or transaction or series of acts or transactions, and the case is of such a nature that if such persons brought separate suits, a common question of law or fact would arise. (*Shankaranarayana Rao, J.*) SWAMY NIRMALANANDA, *In re.* **11 Mys. L.J. 418 = 39 Mys.H.C.R. 95.**

——**O. 1, R. 3**—*Joinder of defendants—Rule as to.*

Under O. 1, R. 3, C P. Code, if the right arises in respect of the same Act or transaction or series of Acts or transaction, and if the case is one where if separate suits were brought against the defendants, any common question of law or fact would arise, all persons may be joined as defendants against whom any right to relief is alleged to exist. It is not necessary that all the defendants should be interested in all the reliefs and transactions comprised in the suit or that their liability should be the same. Nor is it necessary that the evidence as regards, or the cause of action against, each of them should be the same. The question of misjoinder has to be determined on the facts alleged in the plaint and not upon the defence set up or on the evidence. (*Mahadevayya, C. J.*) VALAKKAPPA *v.* VARGAPPA. **12 Mys L.J. 268.**

——**O 1, R. 3**—*Scope — Misjoinder of parties—Rules governing.*

The scope of the amended law as contained in O. 1, R. 3 is wider than the old law contained in S. 28. Two things should be borne in mind in deciding a question of joinder of parties. While on the one hand it is an essential principle that the trial should not be embarrassed by the simultaneous investigation of totally unconnected controversies there is also the principle that needless multiplicity of suits should be avoided. The mere fact that there are several defendants is not decisive. If the person is entitled to a relief in respect of an act or series of acts against the defendants jointly, severally or in the alternative andif common questions of fact or law are likely to arise, the suit would not be bad for misjoinder. ——**O. 1, R. 8**—*Applicability—Suit on behalf of Mandali—Two factions in Mandali—Only one authorising plaintiff—Right of plaintiff to maintain suit.*

O. 1, R. 8 does not apply to a suit which is not a representative suit. The right to bring a suit as representing the Mandali may be established in one of two ways, either by showing that the plaintiffs were duly appointed once for all by the Mandali as its chosen representatives, or by a special resolution validly passed authorising them to file the suit. Where a Mandali consisted of two factions, the resolution passed at a meeting by only one section of the Mandali is not binding on all its members and not sufficient to enable the plaintiff to maintain the suit on behalf of the entire Mandali. ——**O. 1, R. 10**—*Addition of parties—Principle underlying.*

O. 1, R. 10 ought not to be applied to a case where the addition of parties necessitates conflicting claims being adjudicated. A substitution of parties is, in such cases, the more appropriate course to be adopted, if the requirements of the rule are otherwise satisfied. To

enable a person to be substituted as co-plaintiff under Cl. (1) of R. 10, it must be shown that the action was commenced in the name of the original plaintiff by a *bona fide* mistake and that the substitution is necessary for the determination of the real matter in dispute. 45 C. L. J. 146, Foll. The plaintiff brought a suit for rent and recovery of possession of a house which he alleged was held by defendant as a tenant. The defendant set up his own right as a donee from the plaintiff. Three years after suit was filed, the petitioner applied to be added as a co-plaintiff. She alleged that the suit house was one in which she had a life interest and the plaintiff the remainder, that the plaintiff had recently relinquished for valuable consideration his reversionary interest in her favour and that therefore she, as full owner, was not bound by any alleged gift by the plaintiff to the defendant.

Held, that the addition of the petitioner as co-plaintiff would not, under the circumstances, altogether be opposed to the principles underlying O. 22, R. 10 or O. 1, R. 10 and that the addition should be allowed on terms as to costs. ——**O. 1, R. 10**—*Framing of issues—Subsequent application to implead parties—Maintainability.*

It is not an inflexible rule that the Court is precluded from taking notice of events subsequent to the institution of the suit. The Court may permit an amendment and add new parties if the amendment is likely to shorten litigation. ——**O. 1, R. 10 (2)**—*Necessary party—Who is—Necessary party not on record—Procedure—Limitation—Necessary party added beyond time—Effect of.*

In order that a defendant may be considered a necessary party, there must be some relief against him in respect of the matter involved in the suit and his presence should be necessary in order to enable the Court effectually and completely to adjudicate upon and settle all the questions involved in the suit. The Court will not adjudicate a suit in which no effective decree can be made in the absence of an interested party but the proper procedure, where a necessary party is not before the Court, is not to dismiss the suit but to add such a necessary party and proceed with the determination of all the questions involved in the suit. But the Court acting under O. 1, R. 10 is bound by the provisions of S. 22 of the Limitation Regulation. So if he is brought on record at a time when the claim as against him is barred by limitation, the suit should be dismissed. O. 1, R. 10 (2) enables the court to add any person as defendants if it is shown that his presence before the Court may be necessary in order to enable the Court effectually and completely to adjudicate upon and settle all the questions involved in the suit. The Court is not precluded from taking notice of events which had happened subsequent to the institution of the suit, if the case is one to which the rules regarding the addition of parties would apply. ———**O. 6, R. 17**—*Scope—Amendment to add party defendant—Powers of Court—Negligence or carelessness of plaintiff—If ground for refusal.*

O. 6, R. 17, C. P. Code, makes it obligatory on the Court to allow all amendments at any stage of the proceedings, if the amendments sought do not work injustice to the other side, and if they are necessary to determine the real questions in controversy between the parties The Court should, whenever possible, assist the plaintiff by adding parties and amending pleadings. However negligent or careless the omission on the part of the plaintiff, and however late the proposed amendment be, if the ends of justice require it and if otherwise the plaintiff would be left without a remedy, the amendment ought to be allowed especially when no injustice will be caused to the opposite party. O. 6, R. 17 of the new C.P. Code is much wider in its scope than S. 53 of the old Code of 1882, and under the amended rule, an amendment of the pleadings can be allowed at any stage of the proceedings, when the sole result of the refusal to amend would be to drive the plaintiff to a separate suit, the avoidance of which is one of the principal objects of the wider provision embodied in O. 6, R. 17, C.P. Code. The one thing which must not be altered by the amendment is the fundamental character of the suit, namely, the foundation of the suit and not the prayer in the plaint; and when the plaintiff leaves the foundation of the suit entirely unchanged, but

The words "sufficient cause" are not defined in the C. P. Code. It is a question of fact to be determined on the circumstances of each case, and no hard and fast rule can be laid down. The Court must exercise a judicial discretion. Where the plaintiff practises fraud on the defendant assuring the latter that he would get the suit dismissed and thereby induces the defendant not to attend Court on the date of hearing, the defendant must be held to have been prevented by "sufficient cause" from appearing on the date of hearing, and the Court will be right in setting aside the *ex parte* decree under O. 9, R. 13, C. The entries therein were sought to be put in not so much as direct evidence but as secondary evidence during the cross examination of the defendant.

Held, that an exception to the ordinary rule must be made and there was sufficient cause to excuse the delay in their production and for receiving them in evidence.

Before a decree-holder can bind the Government by virtue of sub-R. (3) of R. 48 of O. 21, C. P. Code, the requirements of sub-R. (1) must be strictly complied with. The rule itself is a new provision which did not exist in the prior Regulation, and the effect of sub-R. (3) is that any sum paid by a Disbursing Officer in contravention of the rule can and should be recovered from the Government. Such a penal provision cannot be given effect to at the instance of a decree-holder who fails to have the notice of attachment served on the Disbursing Officer. It is not a sufficient compliance with sub-R. (1) if the order of attachment is in some way brought to the notice of the Disbursing Officer. The order to withhold the salary must be addressed directly to the Disbursing Officer. It is also immaterial if the Disbursing Officer acts upon the indirect information received by him for some time. In execution of a decree against a Hindu father, the decree-holder applied for delivery. The lower Court ordered delivery in the first petition with a condition superimposed to the effect that the decree-holder should re deliver in case a temporary injunction was granted in the application by the sons. That application was subsequently allowed and the decree holder directed to hand over possession.

Held, the conflict of orders could have been avoided if the lower Court had first disposed of the application for injunction, the decree-holder having acquiesced in the conditional order, he could not be allowed to retain the benefit conferred, and reject the condition imposed, by one and the same order, and that whether such a conditional order, was valid or not, in substance the order for delivery consequent on the injunction could be treated as an order passed in the application for delivery which would not be interfered with in revision. A commission to examine witnesses can only be issued in the cases specified in Rr. 1, 4 and 5 of O. 26, C.P. Code, and in no other case. Mere old age is not sufficient to order a witness to be examined on commission. If sickness or infirmity is alleged as a ground, the character and gravity of the sickness or infirmity must be properly assessed and the Court must be satisfied of the truth of the allegation. Courts should as rule, should be very careful before granting a commission which will

MYS. C. P. CODE REG. (1911), O. 39, R. 1.

Attachment before judgment is a very severe measure and should only be ordered when it is really shown that it is necessary for the protection of the plaintiff so that the decree which he may obtain may not be defeated by a dishonest defendant. An affidavit with vague and bald allegations is not enough. It must be made out that the defendant, at the time the suit is filed, is trying to dispose of, or intending to dispose of, his property in order to defeat the plaintiff's claim. Evidence that the defendant is in very embarrassed circumstances, or that he mortgaged the whole of his immovable property to a relation eighteen months before suit, is not sufficient to support an application for attachment under O. 38, R. 5. ———**O. 38, Rr. 5 and 6**—*Applicability—Property already alienated—If can be attached.*

The fact that a property sought to be attached before judgment has been already transferred by a defendant does not deprive the plaintiff of his right to get it attached, if the Court is satisfied, from the affidavit of the plaintiff, that the defendant is about to dispose of the whole or any part of his property with the intention specified therein. Under S. 53, T. P. Act, it is open to a plaintiff to attach the defendant's property which has been fraudulently dealt with or transferred with intent to defeat or delay the creditors. It is open to the alienee, if aggrieved, to prefer a claim and have the attachment raised. (*Shankaranarayana Rao, J.*) RAMAIYA *v.* RAMIAH **12 Mys L.J. 535=39 Mys H.C R. 767.**

———**O. 41, R. 33**—*Scope — Relief under R. 22 of O. 41—Power of Court to grant.*

O. 41, R. 33 should be cautiously exercised and generally in cases where but for recourse to it the ends of justice would be defeated. The rule should not be allowed to be invoked in favour of a litigant so as to enable him to evade the provisions of other statutes such as the Limitation Regulation and the Court-Fees Regulation or where the other provisions of the Code will enable him to apply for the requisite relief. Thus may be that in certain circumstances the appellate Court may exercise its discretion under R. 33 and grant a relief which a party may have claimed and obtained under R. 22 but it cannot be said that R. 33 is applicable to every case to which the latter part of R. 22 is applicable. Futher S. 35 is not the section which requires the Magistrate to pass a sentence on conviction of an accused person. It is S. 245 (2) in summons cases and 258 (2) in warrant cases that prescribe that Ss. 245 (2) and 258 (2) read with other sections in Chapters 20 and 21, Cr.P. ——**Ss. 107 and 145**—*Scope—Comparison of powers under.*

Though in a general sense the powers under S. 107 are co-extensive with those under S. 145, there is some difference as regards the circumstances in which action should be taken under one or the other of the two sections or of both. Under S. 107, a Magistrate may act on information received about the likelihood of a breach the peace. Under S. 145, however, the existence of a dispute regarding land likely to cause a breach of the peace is a condition precedent to a Magistrate taking action. So the scope of S. 107 is much wider than that of S. 145. If the dispute relates to land, proceedings under S. 145 will be more appropriate than proceedings under S. 107. If, on the other hand, one party is found to be in actual possession and if the opposite party is likely to cause breach of the peace, then action under S. 107 against that party will be more appropriate. If neither party is found to be in possession and breach of peace is feared from both the parties then the appropriate course would be to take proceedings against both under S. 107. But that will not bar the Criminal Court from taking action also under S. 145. (*Doraiswami Iyer, C.J. and Mahadevayya, J.*) AVALAPPA *v.* MYSORE CHIKKANNA. **37 Mys H.C.R. 286= 10 Mys L.J. 119.**

It is not the object of S. 145 of the Code that one arm of the law should fight the other. Even in case of symbolical possession, the delivery of such possession as between the parties to the suit amounts to a transfer of possession from one party to the other and the absence of the judgment-debtor at the time of giving possession does not affect the validity of the transfer of possession. ———**S. 145**—*Scope—Powers of Court—Attachment of property—Bonds for produce of property—Enforcement—Procedure—Power of Criminal Court to enforce.*

S. 145, Cr.P. Code, provides that the Magistrate may attach the subject of dispute if he considers the case as one of emergency and may also make the necessary orders for the proper custody of the crops or other produce. But it does not specifically provide for a bond or *mutchalika* being taken in respect of such crops or produce in consideration of the annulment of the attachment. Such attachment, the appointment of a receiver of the property and all orders incidental thereto in proceedings under the section are intended for the benefit of the party who may ultimately be declared entitled to the property. If a bond is, however, taken by the Court in such proceedings, that too enures to the benefit of the party who may be so declared. The Code, however, contains no provision authorising the Magistrate to enforce such a bond by way of execution, and if such proceedings are taken, they are *ultra vires*. All that the Court can do after the case is finally disposed of to pass such administrative orders as may be necessary in the furtherance of the action already taken for the preservation and custody of the property. It is inappropriate and inexpedient for a Criminal Court to undertake to enforce the bond by way of execution in summary proceedings ; and an adjudication by the Criminal Court in such a matter may not also be legal; the appropriate procedure for the Court is to direct and authorize the party who is ultimately declared entitled to the property to take suitable action in a Civil Court to enforce the bond. In order to interfere with an order under S. 145, the Magistrate must have acted illegally or in an irregular manner. ——**Ss. 145 and 107**—*Scope—Comparison of powers under.*

Though in a general sense the powere under S. 107 are co-extensive with those under S. 145, there is some difference as regards the circumstances in which action should be taken under one or the other of the two sections or of both Under S. 107 a Magistrate may act on information received about the likelihood of a breach of the peace. Under S. 145, however, the existence of a dispute regarding land likely to cause a breach of the peace is a condition precedent to a Magistrate taking action. So the scope of S. 107 is much wider than that of S. 145. If the dispute relates to land, proceedings under S. 145 will be more appropriate than proceedings under S. 107. If, on the other hand, one party is found to be in actual possession and if the opposite party is likely to cause breach of the peace, then action under S. 107 against that party will be more appropriate. If neither party is found to be in possession and breach of peace is feared from both the parties, then the appropriate course would be to take proceedings against both under S 107. But that will not bar the criminal Court from taking action also under S. 145. (*Doraiswami Iyer, C.J. and Mahadevayya, J.*) AVALAPPA *v.* MYSORE CHIKANNA. **10 Mys L.J. 119 = 37 Mys H C.R. 286.**

The proper procedure, if the Sessions Judge thinks it proper or necessary to treat those statements as evidence in the case, is to bring the whole of their depositions into the record under S. 288, Cr. ———S. 297—*Misdirection — Charge of dacoity—Failure of Judge to call attention of jury to the part in the crime of each of the accused—Verdict for robbery—Validity of.*

S. 238 permits a conviction for a minor offence where in the course of a trial for a graver offe ce, all the particulars a combination of which constitutes the minor offence happen to be completely proved, even though the accused were not specifically charged with the minor offence. Ordinarily there may be no difficulty but it is necessary for the Judge to be careful when a person is to be convicted not for the substantial offence in respect of an act done directly by himself but constructively for acts done through others. For example, the offence of dacoity can be committed not only by the persons that actually rob, but also by those who abet and are present in furtherance of the common purpose. So if out of five persons charged with dacoity, two of them are found to have had nothing to do with it, it is imperative for the Judge to call the attention of the jury to the parts in the crime to be assigned to each of the remaining accused and to the evidence thereon with a view to convicting them of robbery. Failure of the Judge so to do amounts to a misdirection vitiating the verdict and the conviction. 34 Mys. C.C R. 333 and 26 Mys. C.C.R. 113, Ref. The mere fact that a Sessions Judge is not disposed to agree to or accept the Jury's verdict is not a sufficient reason for him to make a reference to the High Court under S. 307, Cr. P Code. To justify a reference, the Judge must not only disagree with the verdict of the Jury or the majority of Jury, but must also be clearly of opinion, that it is necessary for the ends of justice to submit the case to the High Court. In other words, the verdict of the Jury must be one which the Judge would not himself have found, had it been his duty to come to a finding in the case, and further the verdict must in his opinion be perverse, or unreasonable, or unwarranted in such a way that no jury, reasonably, carefully and properly considering the case could have come to such a verdict. Where the accused persons were charged with offences under Ss. 302 and 325 of the Penal Code and one of them was granted a pardon and turned approver, the fact that the accused were acquitted of the major offence under S. 302 closes not invalidate the pardon nor does it make his evidence inadmissible against the accused on the charge under S. 325, though the offence under S. 325, Penal Code, is not one in respect of which a pardon can be granted under S. 337 of the Cr. When the trial of a case has been completed and the case posted for judgment, and the judgment is also ready, the trying magistrate has no power to adjourn or stay further proceedings in the case until disposal of a civil suit. The ordinary rule is that a criminal case should be disposed of with the utmost expedition. It is only the High Court that can adjourn the proceeding under S. 561-A, and that too under exceptional circumstances ; *e. g.*, where the Court is satisfied that the object of the criminal proceeding, where the prosecutor is a private party, to prejudice the trial of the civil suit or to coerce the accused into a favourable compromise of the civil litigation, that criminal proceedings are stayed. S. 350, Cr. P. Code, embodies the principle that an accused person has a right to insist that he should not be convicted by a magistrate who has not himself heard the evidence. But there is a material difference between the power of the succeeding magistrate under S. 350 (1) and the right of the accused under the proviso thereto. Whereas the magistrate may start the proceedings *de novo*, the accused can only demand, and that too only in a trial, not in an inquiry, that the witnesses be re-summoned and re-heard. In a warrant case, the trial must be deemed to commence from the time when the accused appears before the Court and the magistrate starts proceedings. There is no warrant for splitting up the proceedings in such a case into an "enquiry" and a "trial". The accused is entitled to the privilege under S. 350 (1) in all trials, irrespective of the stage reached. Where the new magistrate decides either *suo motu* or at the instance of the accused, to re-commence the trial, the prior proceedings including the charge framed are wiped out. But the position would be different if the new magistrate elects to act on the evidence recorded by his predecessor and to proceed from the stage already reached or the accused exercises his right under the proviso. The trying Magistrate who issued processes against the accused under Ss. 352 and 506 of the Penal Code tried the case summarily. He discharged the accused and directed the complainant to pay compensation to the accused. On appeal, the Sessions Judge set aside both the order of discharge and the order for compensation and directed further enquiry. On revision,

Held, that as it was not the case of dismissal of complaint under S. 203 or S 204 (3), and as there was no finding by the Sessions Judge that the order discharging the accused of offences under Ss. 352 and 506 of Penal Code was erroneous, the order of the Sessions Judge was without jurisdiction. If the Sessions Judge felt the Magistrate should have taken cognizance of an offence under S. 355 of the Penal Code and should not have adopted a summary procedure, the Sessions Judge should have referred the matter to the High Court under S. 438 of the Cr. Held, that in passing the second order the Judge practically reviewed his first order, which was prohibited by S. 369 of the Cr. P. S. 509 perscribes a procedure which can be applied only when the medical witness is not called as a witness; and the section proceeds on the assumption that the medical witness is not present as a witness at the trial in the sessions Court. But when the witness is called actually as a witness in the Sessions Court trial, there is no justification for treating him in a different way from any other witness. It is quite undesirable that a medical officer should be allowed to give his evidence by merely saying that he has made a previous deposition before the committing Magistrate, and then having the whole of his deposition read and brought on record *en bloc*, instead of giving his evidence in answer to questions at the trial. A medical officer should give his evidence orally and clearly in the presence of assessors or jurors. To elicit from him by a leading question that he made a previous deposition and, after reading that evidence to allow him to be cross-examined, is quite improper. MYSORE HINDU LAW WOMEN'S RIGHTS REGULATION (X OF 1933)—*Applicability and scope—Property inherited prior to Regulation—Alienation by widow—Suit by reversioner for declaration of invalidity—Subsequent coming into effect of regulation—Effect.*

A Hindu widow who had inherited her husband's estate alienated the properties. The reversioners sued for a declaration that the said alienation was not valid and binding on them. In appeal it was held that the plaintiffs were entitled to the declaration and a decree was accordingly passed. The widow and the alienee appealed to the Chief Court on 9 12 1930 and on 1-1-1931, the Hindu Law Women's Rights Regulation came into force, and the appellants applied to the Chief Court for permission to take an additional ground to the effect, that under the Regulation the widow became full owner of the properties and consequently the reversioners were not entitled to the declaration prayed for.

Held, that the appellants were entitled to raise the said contention, and that immediately the Regulation came into force, the widow became absolutely entitled to the properties of her husband—it being conceded that there was no daughter or daughter's son alive at the time of the inheritance—and consequently the rights of the plaintiffs reversioners ceased and that the declaration claimed could not be granted. as income in its accounts and on that basis calculated its profits which were assessed to income-tax in the station. The Head Office, for the purpose of calculating its profits for income tax in Mysore, deducted their profits calculated by the branch from its total profit as a business allowance.

Held, that the payment of interest to the branch at C. & M, Station, Banglore, on the deposits remitted by it to the Head Office, is a business allowance within the meaning of S. 10 (2) (*iii*) of the Mysore Income-tax Regulation and as such deductable in the calculation of the total profits The existence of the juridical relationship of debtor and creditor between the Head Office and branch was not necessary for recognising the payment in question as a business allowance. *(Mahadevayya, O.C.J., Ramachandra Rao and Shankaranarayana Rao, JJ.)* COMMISSIONER OF INCOME TAX, MYSORE *v.* BANK OF MYSORE, LTD. **12 Mys L J 245 = 39 Mys H.C R. 772 (F B.).**

The terms of the Income-tax Act (which are followed in the Mysore Regulation) are of different language and scope from those of the English Acts. Under S. 10 (2) (*vi*) of the Indian and Mysore Acts, the deduction on account of depreciation should be based, not as in the English Act on what might appear to the Tax Commissioners just and reasonable as representing the diminished value by reason of wear and tear during the year, but on such definite percentage rates on the original cost of the building, machinery and plant to the assessee. It is not necessary, to attract the provisions of the Legal Practitioners' Regulation that the act of misconduct should be a "crime." Nor is it open to a legal practitioner charged with appropriation of his client's money to ask the Court to order his criminal prosecution before holding an enquiry under the Regulation. Such a claim is not only untenable, but also opposed to the policy underlying the Regulation. A legal practitioner is an officer of the Court and owes the duty of good faith and honourable dealing to the Courts before which he practises, and his vocation demands that he must cooperate with and assist the Court to do justice. When, therefore, he is found guilty of misconduct which makes him unfit or unsafe, he becomes unfit to discharge the duties of his office and unworthty of confidence, whether or not the misconduct amounts to a "crime." The form of procedure in such cases is not of controlling importance so long as the essentials of fair notice and opportunity to be heard are present. The Court has inherent power to adopt such rules of procedure as will ensure a fair trial. (*Mahadevayya, C. J. and Shankaranarayana Rao, J.*) B. MYS. LEGAL PRACTI. REG. (1884), S. 13-B.

A legal practitioner who signs and files in Court on behalf of his client a written statement containing reckless and scandalous allegations against a party, which are quite unnecessary for the purpose of the case acts improperly. He is an office of the Court and ought not to allow his client to indulge in such allegations. Nor is he to act merely as the mouthpiece of his client without acting on his own independent judgment and responsibility. Nor can a legal practitioner disown responsibility on the ground that he mechanically signed the statement without reading it and presented it before the Court. (*Mahadevayya, C. ——**S. 13 B** —*Disciplinary jurisdiction of the High Court—Scope of—"Any other reasonable cause"—Meaning of.*

A High Court in the exercise of its powers of disciplinary jurisdiction over the advocates or pleaders enrolled by it, is not restricted to taking cognizance of merely acts of professional misconduct such as are expressly specified in the Legal Practitioners' Regulation The words "any other reasonable cause" in the section are wide enough to include acts other than those done in a professional capacity. Thus the High Court can disenrol an advocate for including the public into hatred and contempt of the Government.

But the purpose of the jurisdiction is not in any way vindictive Its main object is not to allow a person to practise in Courts, when he himself is counselling disobedience to the law and order enforced by the Courts; when, however, the person who may have offended in that way comes before the Court and honestly expresses his regret and intention to assist the administration of justice, there is no reason why he should not be given an opportunity of showing that his intentions are as he expresses them. 49 Cal. 845 (P.C.) and 45 M. A prohibitory order restraining the decree holder from realising the decretal amount (the amount being unspecified) in effect prevents the decree-holder from realising the debt in the only way allowed by law, namely by seeking execution amounts to an injunction or order directing him not to put the decree in execution under S. 15, Limitation Regulation. To give a plaintiff the benefit of S. 15 (2) of the Limitation Regulation or a corresponding provision in order to exclude from the period of limitation prescribed fixed by a special law, such as the Muzrai Regulation, the time necessary for such a notice would be to affect the period of limitation so fixed by the special law. ——**S. 19**—*Effect of acknowledgment—Substitution of new contract—Question of fact.*

An acknowledgment under S. 19 cannot be construed as a fresh contract in the same way in which a novated contract is construed so as to give rise to a fresh cause of action. An endorsement is not inadmissible in evidence on the ground that it is not duly stamped as required by Art. 1, Sch. I of the Mysore Stamp Regulation, if it amounts to an acknowledgment under S. 19 of the Limitation Regulation. An acknowledgment made by a mortgagor after all the mortgaged properties have been sold away and after he has ceased to be liable under the mortgage contract is not a valid acknowledgment and is of no avail to the mortgagee creditor; for an acknowledgment involves an admission of a subsisting relation of debtor and creditor and an intention to continue such relationship. A Court which makes a payment under Land Acquisition proceedings to a mortgagee in apportioning compensation money awarded in such proceedings between the mortgagor and mortgagee cannot be said to be the mortgagor's "agent duly authorized" within the meaning of S. 20 of the Limitation Act. ——**S. 20**—*Payment towards interest.*

The question whether a payment was made towards interest as such is one of fact and no hard and fast rule is possible. It is no doubt too broad a statement to make that whenever interest is due to a creditor a payment made by the debtor must be deemed to have been intended to do go in discharge of interest; yet whether a particular payment was for interest as to be decided or a consideration of all the circumstances of the case. The actual appropriation by the creditor is no criterion. (*Rama Rao and Ramachandra Rao, JJ.*) VEERABHADRADEVARU *v.* KADA. **8 Mys.L.J. 438=35 Mys H C.R. 273.**

——**S. 29 (b)**—'*Special law*"—*Meaning of—Muzrai Regulation—If special law.*

The "special law" contemplated by S. 29 (*b*) of the Limitation Regulation need not be a complete Code in itself; there is no justification for reading into S 29 (*b*) the words such as "complete Code in itself" in construing the words 'special law." The effect of Art. 47 of the Limitation Regulation is that if a person brings a suit of the kind described in Art. 142 of the Regulation, he must bring it within the time prescribed by that article, but if he happens to be subject to a particular disqualification, *viz.*, that he is bound by an order under S. 145, Cr. P. Code, than he is under a disability which would not apply to an ordinary plaintiff bringing a suit under Art. 42 he must also bring his suit within three years of the Magistrate's order are required by Art. 47. He does not get any advantage out of Art. 47, which cannot be used to extend the period of limitation in his favour. On the contrary he is subject to a restriction not applicable to an ordinary plaintiff under Art. 142. The plaintiff must show both that he comes within time under Art. 47 and that he comes within time under Art. 142. In other words more than one bar of limitation can simultaneously exist, and both Arts. 47 and 142, can apply to a plaintiff at the same time; and the plaintiff coming to Court within three years of the order under S. 145, Cr. ———**Art. 156**—*Starting point under—Date of decree—Decree bearing date different from date of judgment—Computation of time.*

The time limited for filing an appeal under Art. **156** of the Limitation Regulation from the date that the decree bears, and it is from that time has to be computed, although the decree bears a date different from that of the judgment and although the decree is drawn up more than two years after the judgment. The starting point of time does not in any way depend upon the rules of the C.P. Code as to what should be done in drawing up judgments and decrees, *i.e.*, O. 20, R. 7, C. P. Code, which says that the decree must bear the same date as the judgment cannot alter the starting point or period of limitation in a case where the decree bears a different date from that of the judgment. The decree cannot be regarded as having been made, by some fiction, on the date of the judgment itself. ———**S. 96**—*Land in inam within municipal limits—License to build upon—Necessity for.*

The accused was an inamdar. He constructed a room in his own land without obtaining a license from the Municipality under S. 96 of the Municipal Regulation. He was thereupon prosecuted for an offence under S. 96 of the Regulation.

Held, that by virtue of the notification of Government under S. 4 of the Municipal Regulation including the village in question within the limits of the Bangalore Municipality, the Municipality must be deemed to have acquired a statutory right to administer the newly constituted area for municipal purposes including sanitation, public health, etc., and that it was not open to the owner of a land to defy the powers of the Municipality and set up the rights of the inamdar as against the Municipality. Proprietary rights have to be distinguished from the rights of the Municipality with respect to the Municipal matters such as sanitation and public health. While the legislature has conferred statutory authority on the Municipality to exercise jurisdiction over the village in question for Municipal purposes there is no need for the Municipality to derive any rights from the inamdars for the purpose of discharging their statutory functions. The accused was therefore guilty of an offence under S. 96 for having built upon the land even though it was in his inam village. ———**S. 96 (5)**—*Construction of house—Conditions as to set-back imposed by Municipality—Breach of—Prosecution for—Validity of conditions to be proved.*

The petitioner was convicted under S. 96 (5) of the Mysore Municipal Regulation for constructing his house in violation of two conditions imposed by the Municipality in two respects: (*i*) by not setting back the wall; (*ii*) by opening two big shop doors facing a lane in spite of a direction to the contrary. The petitioner pleaded not guilty. No witnesses were examined; the accused was not examined under S. 342 but he was sentenced to a fine of Rs. 100.

Held, that as the accused should be presumed to be innocent until the charge is brought home by the prosecution, that the lower Court erred in assuming that the Municipality had the power to direct the set back and to prohibit the opening of doors under S. 92 and in the absence of any such proof, the conviction should be set aside. ———**S. 167**—*Notice—Necessity for—Suit for injunction restraining the Municipality from demolishing building.*

In accordance with the permission granted by the Municipal Council, the plaintiff constructed a latrine. Subsequently the permission was cancelled and the plaintiff was served with a notice by the Municipality threatening him, if he failed to remove the latrine within fifteen days, it would be demolished departmentally. The plaintiff thereupon brought the present suit for an injunction to restrain the Municipal Council from demolishing the latrine. He contended that as the suit was only to restrain an apprehended injury with the future and not in respect of "anything done or purported to have been done," no notice was necessary under S. 167.

Held, that the construction applied to S. 80, C. P. Code, was equally applicable to S. 167 of the Municipal Regulation, that the words of the section included not only an act but also a threat to do an injurious act, that the threatened demolition was in pursuance of a prior resolution already communicated to the plaintiff—a past act which gave rise to a cause of action that notice under S. 167 was necessary. 51 Bom. 725 (P.C.), Foll. MYSORE REGULATION (REGULATION TO PROVIDE FOR SUIT AGAINST GOVERNMENT) (VII OF 1923)—*Scope—Suit against Government—Maintainability—"Suit for rectification or cancellation of any instrument"—Meaning of.*

The right to bring suits against the Government in the Mysore State is given and restricted by Regulation (VII of 1923), which specifies six classes of suits that may be brought against it in the Civil Courts. The class of suits under the head "suits for rectification or cancellation of any instrument," does not include a suit by a party in respect of any Government order concerning the party who may find the order inconvenient. In a suit by a claimant to the office of *Matathipathi* of a *Math*, for a declaration of his right to succeed to that office, the plaintiff has no right to implead the Government as a party, on the ground that the Government has recognised a rival claimant as the *Matathipathi* of the *Math* in question, and include a prayer for cancellation of the Government order recognising the rival candidate. Nor can such a suit be regarded as a suit for can-

No other right of management in a private individual of a Muzrai institution is recognised in the Regulation, and an exclusive right of management of a Muzrai institution in a private individual cannot exist. 'Gross neglect' in S. 78 means and involves a failure on the part of the prior mortgagee to take such reasonable precautions against the risk of a subsequent encumbrancer being deceived as in the circumstances renders it unjust that the earlier mortgage should retain its priority. ———**S. 82**—*Applicability—Merger of interest in one of the properties mortgaged—Purchase free from encumbrances.*

S. 82 contains the statutory provision by which contribution as between owners of equities of redemption subject to a common mortgage is regulated. If therefore the equity of redemption in any one of these properties and the mortgagee's interests get merged into one another by the same person enquiring the equity of redemption *plus* the mortgagee's interests in that property, the principle underlying the statutory provision may be extended so as to apply to such a case. Where, however, three out of the five mortgaged properties were sold for default in the payment of arrears of revenue and purchased by a third party and from him by the plaintiff, free from all incumbrances, and the mortgagees subsequently assigned the interest to the plaintiff, who brought the present suit to realise the mortgage amount by the sale of the remaining two properties.

Held, that as the price paid by the purchaser (plaintiff was intended to represent the value of the entire interest in the three properties, and not merely of the equity of redemption, the question of contribution between the mortgagee and the mortgagor did not arise. 9 Mys. The amount due under a mortgage was deposited in Court under S. 83 of the T. P. Regulation, but the defendant mortgagee refused to accept it and surrender possession of the properties on the ground that he was not liable to be redeemed before the expiry of five years. The plaintiff (puisne mortgagor) thereupon withdrew the amount and filed a redemption suit the same day, stating in his plaint that he was ready to produce the amount whenever called on to do so. Peuding the suit plaintiff paid the amount to the defendant before the Court and got possession. The Court held that the mortgage could be redeemed before the expiry of five years, thus negativing the objection raised by the defendant in the proceedings under S. 83.

Held, that the withdrawful of the deposit from Court by the plaintiff prior to suit did not show that he was not always ready and willing to pay and therefore plaintiff was entitled to recover from the defendant the profits of the property from the date of the original deposit until the date on which he got possession on payment before Court. Whatever rights such a superior holder may have under S. 97 of the Land Revenue Code for recovery of rent, if he seeks to recover the rent by enforcing his charge, he must do so under O. 34, C. P. Unconditional undertaking or unconditional personal liability means that the liability mentioned in the note should not be made contingent on some event, for otherwise it will not conform to the definition of a promissory note. But a pro note is not the less unconditional, simply because when the matter goes to a Court of law and the defendant raises some defence, the plaintiff has got to establish certain facts, and in the case of a note by a guardian, that the transaction is for the benefit of the minor, before he can succeed against the minor. That fact does not make the liability a conditional liability. A promissory note is a written acknowledgment of debt with a promise to repay. It is also a memorandum of contract and evidence of a chose in action. Thus it may be transferred by assignment and the assignee thereby gets such title as the assignor had in the note and in addition, the right to have the endorsement of the assignor and this includes the right to sue on the assignment in his own name and recover the amount due under the note from the parties liable. A promissory note is also a negotiable instrument and under the Negotiable Instruments Act, it is transferable merely by endorsement and delivery. As such, it is clothed with certain incidents intended to facilitate the business of merchants. The Negotiable Instrument Act has not affected the transferability of a promissory note by assignment as a chose in action, apart from endorsement. (*Lort Williams and M.C. The name of a person or firm to be charged upon a negotiable instrument should be clearly stated on the face or back of the document. The name of a person or firm to be charged upon a negotiable instrument must be clearly stated on the face or the back of the instrument, so that the responsibility is made plain and can be instantly recognised. The mere fact that the name is disclosed in "some way" is not sufficient. Consequently the mere fact that a person executes a promissory note describing himself as the proprietor of a firm or writes on a newspaper with the name and description of a firm printed on it, cannot be held to be sufficient to hold the firm liable on the promissory note. The rule that, in order to make a person liable on a promissory note, the liability must appear on the face of the document does not apply to promissory notes executed by the managing member of a joint Hindu family and if it is established that liability was incurred by the manager of the family for the benefit of the family or for family business, then it is not open to the other members of the family to plead that as their names did not appear in the note and it was not specified that the liability was incurred for the purposes of or on behalf of the joint family, they are not liable. Their liability follows from the authority of the managing member to make the other members liable for the contracts made by him for the benefit of the family or for carrying on legitimate business of the family. 46 C. 668 ; A I R. 1925 Cal. 1153 ; A.I.R. 1928 Lah. 722 and A.I.R. 1924 All. 8, Ref. Held, that the intention of the maker, which could be inferred from the surrounding circumstances, the debt being one incurred by the fateer originally, was to exclude her own personal liability and to make the wards (minors) liable ; that the liability of the minors under the Hindu Law was not affected by the mere fact that the promissory note evidencing the debt was by a guardian ; and consequently the plaintiff was entitled to a decree against the minors. The Bank tendered to the purchaser the bills of exchange, invoices, bills of lading and other documents. The buyers in the particular case accepted the bills before maturity and became liable to the Bank and the Bank endorsed the bills to the sellers.

The indorser of a negotiable instrument who indorses without restricting his liability in the indorsement by express words makes himself liable to the indorsee as surety for the amount of the instrument in case of dishonour. The rule is however subject to any 'contract to the contrary' by which although the indorsment is *ex facie* unrestricted, tne indorser as between himself and the indorsee, by agreement either express or to be inferred from the nature of the transaction excluded his personal liability. Where at a partition of family properties a promissory note executed by a third party in favour of the father was indorsed by him in favour of his adult son as part of the assets allotted to the latter,

Held, that the lower Court was justified in drawing an inference from the nature of the transaction that the father intended to exclude his personal liability as indorser and that the son had no right of recourse against the father on default by the maker. (*Krishnan Pandalai, J.*)

A promissory note payable on demand was executed by *A* in favour of *B* who endorsed it to *C*, a Bank for valid consideration. The defendant, a junior member of a rich family but not in possession or management of its properties, got into bad ways and began to borrow recklessly, under the influence of bad companions, when he was aged only about 19 years and a few months. During a period of eight months he was away from home and from his people, he executed the suit pro-notes in favour of the plaintiffs, which purported to be for more than Rs. 23,000 in all. It was found that the plaintiffs did not make any enquiries of the father or other elder members of the defendant's family, though the latter were well known to the lenders, and that they were or must have been aware of the kind of life that defendant was leading and the purposes for which he required moneys.

Held, under the circumstances, that no presumption could be drawn under S. 118 of the Negotiable Instruments Act as to the quantum of consideration advanced under the notes, that the creditors were bound to prove by affirmative evidence, beyond the production of the notes themselves, the amounts actually advanced by them, and that if the evidence established payments only of smaller amounts than those stated in the notes, the case would be clearly governed by S. 44 and a decree could be passed only for the amount actually found to have been advanced. Plaintiffs sued for the recovery of an amount due on a promissory note executed by the first defendant in favour of the third defendant. The promissory note was endorsed over to the deceased father of the plaintiffs by the 3rd defendant, along with a letter of security. Before this endorsement, the first defendant sold some properties to the 2nd defendant and in the sale deed it was recited that the amount due under the promissory note was undertaken to be paid by the 2nd defendant and one of the witnesses to the document was the 3rd defendant. The plaintiffs sought to make the 2nd defendant liable on the promissory note on the strength of the recital in the sale-deed.

Held, that assuming that there was privity of contract between the 2nd and the 3rd defendants, inasmuch as there was no assignment by the 3rd defendant of the agreement between him and the 2nd defendant in favour of the plaintiff's father, their father was only the endorsee of the promissory note and not an assignee of the rights under the agreement and that the endorsement, while it transferred the property in the note to the endorsee as the new holder, did not operate as an assignment of the debt due by the maker to the original payee and that, therefore, the plaintiffs were not entitled to a decree against the 2nd defendant. The defendants drew three promissory notes in favour of one *X* without consideration and for his accommodation. The promissory notes were for Rs. 600 each payable on different dates. After the maturity of the three promissory notes in suit, *X* who was indebted to the plaintiff in a sum of Rs. 1,650 deposited them with the plaintiff as security, and subsequently endorsed them to him. In a suit by the plaintiff against the defendants,

Held, that the plaintiff became the holder of the promissory notes in good faith and for consideration and is, therefore, entitled to recover the full amount due under the notes from the defendants and not merely the amount of *X*'s indebtedness to the plaintiff.

Held also, that even upon the view that the plaintiff held the promissory notes as collateral security only, the plaintiff would be entitled at common law to recover the full amount of the promissory notes from the defendants, the person entitled to the balance outstanding, after the amount due to the plaintiff from *X* had been liquidated, being at liberty to recover the same in an action for money had and received. ———**Ss. 64 and 76 (a)**—"*Specified place*"—*Meaning of—Promissory notes payable in Sialkot on demand—Presentment, if necessary.*

If there is to be presentment in the ordinary sense of the word, there must be some quite definite place where the holder of the note can attend with a reasonable chance of finding the maker of the note. In other words, the place specified for payment must be equivalent to what would be called in ordinary language an address which would enable the maker to be found by the exercise of reasonable diligence, provided that the holder himself chooses to attend at the place named for payment. Whether the place named for payment in a negotiable instrument constitutes a specified place for this purpose, must be a question to be decided according to the circumstances of each case. If the maker of the the pro-note has an ordinary place of business known to the parties concerned, the mere entry of the town in which it is situated may provide a sufficient address; but if the town is large and there are no other means of ascertaining where the maker is to be found, then there is no place at which the holder can be expected to attend for the purpose of presenting the note for payment. In the case of a note payable on demand, no difficulty is likely to arise in the ordinary way. In order to insist on the necessity for presentment, the maker or some one authorized to make payment must attend at the place named for payment during the ordinary business hours. In other words, since the note is payable at any time, he would in fact be carrying on a regular business at the place. If he fails to do so, no presentment would be necessary in view of S. 76 (*a*) of the Act. Where the promissory notes were made payable in Sialkot but were payable on demand.

Held, that no presentment was necessary as a large town like Sialkot was not a specified place far payment. (*Beckett, J.*) MEHR BAKSH *v.* HARI CHAND. **160 I.C. 536=8 R.L. 549=A.I.R. 1935 Lah. 623.**

———**S. 78**—*Promissory note — Liability under—Maker paying 'real" holder not named—If discharged from liability to payee named.*

The Negotiable Instrument Act was enacted for the benefit of trade and commerce and the principle underlying it is that promissory notes, bills of exchange, and cheques should be negotiable as apparent on their face without reference to secret title to them. Where the maker of a promissory note pays the "real" holder, he will yet be liable to the person whose name appears in the note and who is the holder within the meaning of the Act and the maker in such a case would find himself in peril. Therefore the "real" holder cannot sue on a note whereon the name of another person appears as payee. The proper procedure for the person claiming to be interested in such cases is to make a kind of secret arrangement to protect his interest by making a contract with the benamidar whereby the benamidar is required to lend his name in any proceeding necessary to enforce the payment, and if the benamidar refuses to sue or lend his name for any proceeding on the note, equity can, and will, compel him so to lend his name so that the suit can be properly constituted and the money recovered by the person really interested. 58 C 752, Appr.; 53 A. 5, Dist.; 58 M. 693, Rel. on; A.I.R. 1934 Cal. 391 and 30 Mad. 88, Not Foll. prima facie deemed to have become a party thereto for value. Neither the earlier case law nor the language of the section justifies any presumption being made as the quantum of consideration. The words "until the contrary is proved" in S. 118 must be read in the sense of "until the contrary appears or at least appears probable." The section only justifies a presumption as the existence of consideration; any presumption as to the quantum of consideration as distinguished from the mere existence of consideration, has to be drawn only from the recitals, in any, contained in the instrument. Such recitals, being *prima facie* evidence against the parties to the instrument, may operate to shift on to the party pleading the contrary the burden of rebutting the inference raised by them. But the weight due to recitals varies according to circumstances and the burden of rebutting them may become very slight, especially when the Court is not satisfied that the transaction was not honest or *bona fide*. ———**S. 118**—*Presumption as to consideration—Scope and extent of.*

It is no doubt true that the ordinary rule is that every negotiable instrument is to be presumed to be for consideration and the burden of proof rests on the defendant admitting execution to prove that it was not for consideration, but in a case where the parties go to trial on the question of want of consideration and the trial Court which hears the evidence and notes the demeanour of the witnesses forms an opinion against the plaintiff, the question as to any presumption of consideration passing under the instrument does not arise.

Further, if the defence is minority at the time of the execution of the instrument and there are other suspicious circumstances, *viz.*, the fact that the plaintiff has failed to produce his account books although he admits that he keeps regular accounts, the presumption cannot be availed of. In suits on simple loans it is open to a Court to determine in every case whether person who denies consideration has succeeded in supporting his denial by such direct or circumstantial evidence which may be sufficient in itself to rebut the presumption laid down in S. 118 of the Act. Merely because the debtor is a profligate young man and the creditor is a money-lender, the presumption under S. 118 is not rebutted so as to shift the burden of proof on to the criditor. ———**S. 118 and Evidence Act, S. 114, Illus. (c), Expl.**—*Scope and effect of— Presumption as to consideration.*

S. 114, Evidence Act, was enacted in 1872 and then came the Negotiable Instruments Act, nine years later. What was merely permissible in 1872 was converted into a statutory obligation in 1881. Hence it cannot be said that when it was enacted in S. 118, Negotiable Instruments Act, that until the contrary was proved, it should be presumed that every negotiable instrument was made or drawn for consideration, and that every such instrument, when it had been accepted, endorsed, negotiated or transferred, was accepted, endorsed, negotiated or transferred for consideration, it did not in any way affect the provisions of Illus. (*c*) to S. 114, Evidence Act. From the later modification of the rule laid down in Illus. (*c*) to S. 114 of the Act it can be inferred that the subsequent alteration was intended to replace the previous enactment. Further all that the explanation to Illus. (*c*) lays down is that while applying the maxim enacted in Illus. (*c*) the Court shall duly consider the fact that the acceptor of a bill of exchange was completely under the money-lender's influence. In other words, the explanation merely sounds a warning that the rule laid down in Illus. (*c*) was not intended in any way to override the general provisions of law that a contract entered into under undue influence was bad. (*Addison*

so out of the ordinary course that it ought to have aroused doubts in the banker's mind and caused him to make inquiry *Commissioners of Taxation* v. *E.S. & A. Bank*, (1920) A. C. 683, Foll. A crossed cheque for Rs. 2,361 drawn by the appellant in favour of the Corporation of Rangoon was tendered at the respondent Bank, by a person known to them as a mere clerk, for collection and payment into a small savings bank account of his. The cheque purported to bear an endorsement with a rubber stamp, "Chief Superintendent, Corporation of Rangoon" and an illegible scribble purporting to be the name of that Official in ink under the ruboer stamp. The respondent Bank did not, however, guarantee the endorsement but passed the cheque on to the paying Bank ; it was duly cleared; the proceeds were paid into the clerk's account and withdrawn by him the next day. And the clerk, of course, absconded. In an action for negligence against the respondent Bank,

Held, that the most casual perusal of the cheque, having regard to its form and its endorsement the circumstances in which it was tendered for collection, ought to have put the bank on enquiry as to the genuineness of the endorsement, that the bank, in abstaining from even the slightest enquiry, was guilty of negligence under S. 131 and liable for the amount of the cheque.

Held, further that the usage of bankers in Rangoon pleaded in defence to the effect that in the absence of a guarantee signed by the forwarding Bank the paying Bank pays at its peril, had not been proved. *Ross* v. *L. The plain reading of S. 27 of N. W.F.P. Law and Justice Regulation means that custom is not a complete substitute for Mahomedan Law and that where there is no particular custom applicable, then the parties are governed by the principles of Mahomedan Law. As there is no custom among Awans of Peshawar District as to who shall succeed in the case of a woman's property after the husband's heirs, the persons who are heirs under Mahomedan Law would certainly succeed. The exercise of revisional powers is discretionary with the Court. Even in cases of revisions against final decision, the Court is not bound to interfere if in its opinion substantial justice has been done, even though material irregularity be established. Revisional jurisdiction is an extraordinary jurisdiction and is exercised in furthering justice and only in cases where irreparable injury is done or where non-exercise of such jurisdiction will lead to failure or miscarriage of justice. This then is a test which has to be applied to all revision cases, irrespective of the fact whether they are against final decision or intermediate or interlocutory orders. Where the form of the oath agreed to involve the participation of the person who agrees to be bound by the oath of the other side and where the failure to take the oath is wholly attributable to the act or omission of the person who agreed to be bound by the oath the result should be as if the oath had been taken. Otherwise it would be open to him to resile from his offer to be bound by the oath at any time he pleases and for no reason whatever. Where the non-taking of the oath by the defendant was not due to any unreasonable conduct of the plaintiff, the person to be bound by the oath, but due to an unexpected cause which neither side was prepared to meet at the time the oath was to be taken and there was no subsequent attempt made actually by the defendant to take the oath, nor did the trial Court direct the issue of fresh commission for the purpose of taking the oath and direct the plaintiff to be present at the time in order to co operate in the taking of the oath as agreed to.

Held, that the dismissal of the suit at that stage was improper and that the proper course for the trial Court was to issue a commission at the cost of the defendant directing the taking of the oath as agreed upon on a day to be fixed and direct the plaintiff to be present on that occasion and that if the plaintiff fails to be present then the trial Court should deal with the case as if S. 12, Oaths Act, applied. 17 M.L.J. 99; 52 I.C. 619 and 17 I.C. 339, Ref (*Pandrang Row, J.*) BHAGHAVATHI VANNAN *v.* VEERA VANNAN. **158 I C. 107=8 R M. 224=42 L.W. 370=1935 M.W N. 372=A I.R. 1935 Mad. 591.**

No doubt the refusal to take a special oath is conduct which the Court is entitled to consider along with other evidence in the case but the refusal should not automatically be allowed to outweigh the positive evidence which has been adduced. Where therefore the plaintiff has produced his account-books which the defendant called on him to produce and he has given all the evidence necessary to support his case, his refusal to take a special oath offered by the defendant which the plaintiff considered derogatory should not be taken as reflecting on the truth of his claim. The case for the prosecution was that a bundle containing opium was in the appellant's room and was thrown out from that room as soon as the raiding party arrived. P. W. 1, the Excise Inspector, in his evidence stated that while he was searching the appellant's room, P. W. 2 shouted out to him from his room that while he was bathing he saw a man throwing out a bundle P. W. 2, however, did not say that he made any such statement and his evidence showed that he heard a window opened with a bang and saw a bundle falling to the ground. He further stated that he saw a bald head flash fast appellant's window and that he thought that it must be the appellant as he heard he was a smuggler. He however had to admit that immediately after that when he was taken by P. W. 1 to the appellant's room, he could not then say that the forehead which he saw was appellant's. The prosecution relied on the evidence to the effect that the bundle was found lying on the ground just below the appellant's window. The search list however did not state that it was found there.

Held, that the evidence in the case might raise some suspicion but suspicion could not be the basis of a conviction and that the prosecution had failed to substantiate the charge against the appellant by any reliable and satisfactory evidence. ORISSA TENANCY ACT (II OF 1913), Ss. 3 (3), 4, 74 and 236 (2)—*Scope and effect of*—Chandnadar—*Status of—If tenants-at-will—Liability to ejectment—Ejectment suit by* lakhiraj bajiaftidar *against* chandnadar—*Burden of proof.*

A *chandna* tenancy is essentially a non agricultural tenancy, and if nothing further were known about it, the *chandnadar* tenant will have to be considered as holding from year to year and liable to be ejected by a proper notice to quit; and the *chandnadar* in such circumstances could only resist a suit in ejectment by proving a custom entitling him to continue in occupation. But the scheme of the Orissa Tenancy Act suggests that the legislature could never have contemplated that a *chandnadar* should be in a worse position than even a *non-occupancy* raiyat as regards his liability to ejectment S. 236 (2) of the Act, which provides that the incidents of the tenancy of a *chandnadar* shall be regulated by local custom, does not itself indicate whether the local custom or usage regulating the ejectment of a *chandnadar* is to be proved by the landlord or by the *chandnadar*; but having regard to the status of the *chandnadar* as gathered from the definition in S. 3 (3), and his express inclusion in Ss. 4 and 74, and to the fact that all other tenants under the Act are protected from eviction except on specified grounds, S. 236 (2) ought to be taken to provide in effect that while the landlord is not entitled to eject the *chandnadar* for arrears of rent, his right to eject him on other grounds shall be regulated by local custom or usage, and will only be available so far as is permitted by local custom or usage. The onus of proof that in ordinary suits for ejectment shifts to the tenant on the landlord proving his title as such thus shifts again to the landlord in view not only of the way in which the Act has dealt with the rights of the landlord to eject by confirming it to specified grounds in the case of all other tenants, but also of the protection which the Act was designed to give to the *chandnadar* together with the measure of permanence expressly conferred on him by S. 74 of the Act. The landlord is therefore not entitled to eject a *chandnadar* except when he proves a local custom or usage in support. Where, therefore, a *lakhiraj bajiaftidar* in a temporarily settled estate sues to eject a *chandnadar* after service of a notice to quit, it is for the plaintiff to prove a local usage or custom in support of his claim to eject, even though he proves his title and not for the defendant to prove a custom to defeat the claim. 16 P.L.T. 858 and 16 P.L.T. 861, Overr. ———**S. 4**—*Scope*—Chandnadar—*Position and status of—Nature of tenancy.*

Chandnadars are recognized as tenants in S. 4 of the Orissa Tenancy Act, but they are neither tenure holders, nor raiyats, nor under raiyats. The incidents of the tenancy of the *chandnadars* are not to be found in the Act itself, but are left to be regulated by local custom or usage. (*Das and Foster, JJ.*) KEDAR NATH MULLICK *v.* BIKAL PRUSTI. **16 Pat L.T 861.**

———**Ss. 4 and 236**—*Scope of*—Chandnadar—*Position and rights of—Nature of tenancy—Permanent tenancy—Custom—Onus of proof.*

The Orissa Tenancy Act has avoided an enumeration of the incidents of a *chandna* tenure and has left the whole matter to be regulated by local custom or usage. The *chandnadars* did not belong to the agricultural classes but were shop-keepers, artisans and labouring classes; and originally they were only tenants at will unless the contract between them and their landlords gave them higher rights. A *chandnadar* who claims permanent rights to remain on the land and resists his landlord's suit for ejectment on that ground has the burden on him to establish that either under contract or under custom he holds a permanent right. It is not for the landlord plaintiff to prove that there is no such local custom or usage. (*Das and Foster, JJ.*) KRISHNA CHARAN MAHANTY *v.* PUNAI. **16 Pat.L.T. 858.**

ORISSA TENANCY ACT (1913), S. 193 (b).

———**S. 31**—*Purchase of holding—Landlord not aware at the time—Suit for registration fee—Limitation.*

A landlord, who becomes aware of the purchase of a holding at the time, cannot at once sue the purchaser for ejectment or registration fee; S. 31, Orissa Tenancy Act gives the purchaser one year for applying to the landlord for registration. The period of limitation for a suit in ejectment or for recovery of registration fee would therefore begin to run only one year after the transfer. But the position would be different when the landlord is not shown to be aware of the purchase at the time and the purchaser has not asserted a right to hold on his own account until very shortly before suit. Since subletting or mortgaging for not more than nine years is permissible under the Act without the landlord's consent, and since the landlord may accept rent from any agent of the raiyat, when it is paid on behalf of the raiyat, such acceptance of rent cannot indicate or imply recognition of his part of the interest or possession of the person making the payment, much less can he be held to be aware of any intention, on the part of the transferee to claim under a purchase, irrespective of the landlord's consent. A suit for registration fee is on the same footing as a suit in ejectment, so far as limitation is concerned, under the Orissa Tenancy Act. ———**S. 193**—*Applicability—Suit for ejectment of* Chandnadar—*Jurisdiction of Civil Court.*

A suit for ejectment of a *chandnadar* is not a suit "under any portion of this Act", within the meaning of S. 193 of the Orissa Tenancy Act. The Act contains no provisions for ejectment suits as against *chandnadars* and the incidents of their tenancy are not to be found in the Act itself, but are left to be regulated by local custom or usage. S. 193 has no application to a suit for ejectment of a *chandnadar*, and the Civil Court consequently has complete jurisdiction to deal with the matter. ———**S. 193 (b)**—*Scope—Suit against tahsildar in respect of rent collected and paddy-lending and money-lending business carried on by him—Jurisdiction—Civil or revenue.*

Under S. 193 (*b*) of the Orissa Tenancy Act the jurisdiction of the civil Court cannot be ousted unless the subject of dispute is exclusively within the jurisdiction of the revenue Court. Hence, when a suit is filed for accounts against a tahsildar who had collected rent and had also carried on a paddy-lending and money-lending business on behalf of his principal, part of the claim is cognisable by the civil Court and part by the Revenue

S. 232 of the Orissa Tenancy Act has no application to cases where the existence of the occupancy right itself is in dispute between the landlord and tenant, and a compromise is effected settling that dispute either by affirming or denying the right. ———**Ss. 232 (1) (c) and 74**—Chandnadar *not a raiyat—Transferability of rights—Consent of landlord necessary—Local custom.*

A *chandnadar* whose interest has been recorded in the record-of rights is not a mere tenant-at-will liable to ejectment on a mere notice to quit from his landlord. The right of transfer of occupancy holding subject to the payment of certain property of the purchase-money to the landlord was expressly conferred on occupancy raiyats by the Orissa Tenancy Act. But there is nothing in the Act conferring such a right on *chandnadar*. The rights of a *chandnadar* are not transferable without the consent of the landlord and the onus lies on the transferee to prove the existence of the local custom or usage by which the tenancy is transferable. Where no such local usage has been proved and *chandnadar* has abandoned his tenancy the landlord is entitled to eject the trespassers that may have got into possession and re-enter into direct occupation of land. If a person who has acquired by purchase is described in the Record of rights as a chandnadar the onus is cast upon the person who attempts to eject him of proving local usage which rebuts the entry in the record-of-rights and the Civil Court should require strong evidence to rebut the presumption of correctness attached to the record-of-rights. ———**S. 236**—Chandnadars—*Classes of.*

Under S. 236 of the Orissa Tenancy Act two classes of *chandnadars* are defined. The first is the *chandnadar* who is a raiyat holding his homestead otherwise, than as a part of his holding as a raiyat in which case the incidents of his tenancy are regulated, generally speaking, by the provisions of the Act applicable to land held by a raiyat. The second class is that of the ordinary *chandnadar* who is not a raiyat. The incidents of his tenancy are regulated by local custom or usage and his rent is liable to re assessment on each revision of land revenue settlement. Chandnadars were originally shop-keepers, artisans and labouring classes, who having no arable land in the village, pay rent for homestead lands only. Their position as tenants is recognized in the Orissa Tenancy Act, but they are neither tenure-holders nor raiyats nor under raiyats, under S. 236 of the Act, their incidents are to be regulated by custom or usage. There is no bar in the Tenancy Act to the accrual of occupancy rights in a homestead held by a raiyat otherwise than as part of his holding as a raiyat. It is nowhere expressly laid down that a *chandnadar* is a tenant-at-will. The incidents of his tenancy are to be regulated by the local custom or usage. ——**R. 190**—"*Ancestral land*"—*Grandson with life interest under will of Talukdar—Interest of—Execution against—Jurisdiction of Civil Courts.*

The Talukdar of an estate had made a will by which he bequeathed his properties to his son for life and then to his grandsons. One of the grandsons was the judgment-debtor but the will conferred only a life-estate on him without powers of transfer. It was held by the Sub Court that by reason of S. 15 of the Oudh Estates Act, the interest of the judgment-debtor had ceased to be an 'estate' within the meaning of the Act or ancestral land' within the definition in R. 190 of the Oudh Civil Rules and that the Civil Court had jurisdiction to entertain an application for execution.

Held, that the judgment-debtor was, if not the immediate, a possible heir within Cl. (2) of S. 13 (*a*) of the Oudh Estates Act, that S. 14 applied and not S. 15, that the property was part of an estate as defined in the Act and 'ancestral' within the meaning of R. 190 and that the execution should be transferred to the Collector. Where a widow, notwithstanding the grant of a sanad in her favour with absolute title followed by the entry of her name in the lists prepared under S. 8 of Act I of 1869, constitutes herself a trustee on behalf of the remainderman and her co widow for the purpose of carrying into effect the will of her husband, a decree for under-proprietary rights obtained against her binds the remainderman and those who derive title from him. The fact that the widow had parted with her life estate before the suit by executing a deed of gift in favour of her nephew, is immaterial, because, she still represented the estate held by her as a trustee on behalf of the remainderman and her co widow. Just as a trustee cannot set up any title adverse to that of the *cestui que trust*, so also the beneficiary cannot repudiate the *bona fide* acts of the trustee entered upon for the benefit of the beneficiary or the *cestui que trust*. On the death of a talukdar whose name is entered under S. 8 in list second (a list of the talukdars whose estates according to the custom of the family on and before the 13th February, 1856, ordinarily devolved upon a single heir) there is a rebuttable presumption of a family custom that property outside the talukdari estate descends in the same way as the taluka, namely to a single heir. 38 All. 552 (P. In the case of a Mahomedan family, if a custom of primogeniture governs the succession to the ancestral estate, the presumption is that it attaches also to the personal acquisitions of the last owner left by him on his death, and it is for the person who asserts that these properties follow a line of devolution different from that of the taluka to establish it. But the presumption is sufficiently rebutted if it is shown that in at least two cases of succession in the family non talukdari property has been divided according to Mahomedan Law, there being no trace of any claim in either case that it was not so divisible by reason of a family custom, and that the alleged family custom is of comparatively recent origin. 55 I.A. 303, Ref. The junior wife in such circumstances has a remainder or reversion expectant on the decease of the senior wife. According to general law such an estate for life is a vested remainder and capable of being trausferred by a deed of grant. A widow is settled to succeed under S. 22 of the Act of 1869 and the Act of 1917, as is clear from the language of S. 22 (1) of the latter Act, contemplates a widow succeeding to a settled estate. Therefore a widow can succeed as the holder of a settled estate and hold it according to the provisions of the Act of 1917. Under S. 22 of the Act of 1869, a widow gets only a life interest, and Ss. 16 and 17 of the Act of 1917 give to the holder of a settled estate certain limited powers of transfer only. But the Act of 1917, being a special Act relating to a special class of estates, in case of a conflict between the power conferred on a widow succeeding under S. 22 of the old Act and the power given to the holder of a settled estate under the new Act of 1917, the provisions of the special Act of 1917 must override those of the former. ———**S. 29**—*Adoption—Childless widow of Mahomedan taluqdar—Authorization by husband necessary.*

Under S. 29, the widow of a Mahomedan taluqdar is allowed to make an adoption only in those cases in which it is permissible for a Hindu to do so. The Oudh Estates Act is a purely secular enactment and has nothing to do with the peculiar notions of Hindus and Mahomedans on the subject of adoption. It merely lays down that in those cases in which a Hindu widow could adopt, a Mahomedan widow of a Taluqdar could also do so. It does not touch the question of the qualifications of the boy to be adopted. A childless Hindu widow may, with the authority of her husband, make an adoption and the same power is given to the widow of a Mahomedan talukdar by Act I of 1869. A Hindu widow who has a son born to her by her husband cannot legally adopt and similarly a Mahomedan widow, if she has a son by her husband could also not adopt under Act I of 1869. Adoption like marriage in Hindu law, is in the nature of a religious sacrament, but no religious ceremony is necessary under Mahomedan law for the purpose of making an adoption which is unknown to Islamic Law. The only condition of Hindu Law which is imposed upon a widow of a Mahomedan Taluqdar by Act I of 1869 is that the latter must be a childless widow and authorised by her husband to make an adoption during her widowhood. 55 I.A. 139, Foll. ———**S. 29**—*Adoption — Power to adopt—Life estate is not* sine qua non *for exercise.*

S. 29 of the Oudh Estates Act, 1869, confers the power of adoption upon every widow of a Mahomedan taluqdar and it nowhere lays down that it is necessary for the widow to be in possession for life of the estate of her husband before she can make a valid adoption under the Oudh Estates Act. This Act does not make the possession of a life estate by a Hindu widow or a Mahomedan widow the "*sine qua non*" or a pre-requisite condition before she can validly exercise the authority conferred upon her by her deceased husband.

It is clear that if the testator is authorised by law to make a testamentary disposition of his property he can exercise that right and legally make a will contrary to the devolution of the estate on intestacy laid down in Act I of 1869, provided his will does not offend against the rule of perpetuity incorporated in that Act. ——**Ss. 3 and 107 H**—*Creation under proprietary rights by under-proprietor apart from S. 107-H—Permissibility.*

The acquisition of under proprietary rights under S. 107-H is the result of a special provision in a statute and apart from that special provision, the law in Oudh contemplates only two proprietary rights in respect of landed property. Because the legislature has thought fit to confer the status of under proprietor on a certain class of persons holding subordinate to an under-proprietor, it does not follow that an under-proprietor can create the same right by means of a contract without wiping out his own under-proprietary rights. Hence where an under-proprietor carves out another interest out of his own but reserves to himself the rent and malikana dues, the transferee is not an under-proprietor. ——**S. 3 (10) and Ch. 7 A**—*Person holding at favourable rate of rent—Transfer—Validity.*

A person holding at a favourable rate of rent within the meaning of Ch. 7-A must technically be regarded as a tenant under the definition given in S. 3, Cl. 10 yet for all practical purposes he is bracketed with a person holding rent free, and they stand in a class by themselves, and are governed by the provisions of Ch. 7-A. If such a person must be described as a tenant, he is not a statutory tenant and can only be regarded as a tenant of a special nature. Whether they have power of transfer or not will depend upon the incident of the grant in each case ; but there is no general provision on the subject in the Rent Act which may be applicable to this class of persons. The mere absence of any provision authorizing them to make a transfer would not justify the inference of a rule forbidding the transfer of their rights. The transferee will, of course, possess no better rights than the transferor, and if the landlord has a

right to question the transfer he is at liberty to do so. But in the absence of any provision showing the rights to be untransferable, the transfers are not unlawful and therefore void *ab initio*. Such transfer could at best be voidable at the option of the landlord but could not be questioned by the transferor or his representative. ——S. 5—*Occupancy rights—Acquisition by tenants—Transfer—Validity—Comparison with acquisition of such rights under compromise decree.*

There is a clear distinction between occupancy rights arising under S. 5 of the Oudh Rent Act and occupancy rights arising under a decree of Court based on a compromise with the taluqdar which has been uniformly recognised in Oudh. In the former case there is a statutory prohibition against transfer based on considerations of policy. Any transfer in contravention of the statute would be absolutely void inasmuch as the consideration or object of such transfer being forbidden by law it would be unlawful within the meaning of S. 23 of the Contract Act. In the latter case the conditions which are frequently to be found in decrees passed by Settlement Courts have generally been construed as conditions imposed for the benefit of the superior proprietor. If a transfer is made contrary to those conditions the transfer is not void but only voidable at the instance of the superior proprietor. The words "admitted to the occupation of the holding" in S. 30 clearly imply a voluntary act on the part of the landlord where the landlord allowed the tenant to take possession of the holding and to retain possession of it under the impression that he was entitled in law to be maintained in possession for a certain period,

——**S. 37**—*Object—Addition to holding—Question of fact—New contract relating to separate holding.*

The main part of S. 37 deals with additions to areas of holdings and changes in rent. That provision was designed to protect tenants whose statutory holdings were changed by the landlord. The question whether any particular transaction is a transaction adding land to an old holding and increasing the rent or a separate transaction constituting a new holding is in every case a question of fact. As a general rule where there is an addition to a holding or a change in the rent there would be a fresh contract of tenancy but there would be no justification for taking the view that a landlord and tenant are not allowed to enter into a new contract about different land and that the effect of such a contract would not be the creation of a new holding. Evidence held to support a new contract. (*Oppenheim, S. M. and Walton, J. M.*) SITAL *v.* JALILUR RAHMAN. **16 R.D. 576=13 L.R. 379 (Rev.).**

Though a *qabuliyat* is a counter-part of a lease and is not strictly a written agreement under S. 38 of the Oudh Rent Act, there is no reason why a written agreement under the section should not take the form of a *patta* and a *qabuliat*. The arrear of rent mentioned in S. 61 (1) means the arrears of rent recoverable by the landlord under S. 132. The law clearly intended that a landlord should be enabled under S. 61 to recover all the arrears due to him at the time of the institution of the suit for ejectment.

Per *Drake Brockman, J.M.*—The decreed costs in any (previous) suit for recovery of arrears are not to be included in the amount which the tenant is required to pay in order to avert ejectment; but only the arrear of rent and interest if any. ——S. 62-A (1) (e)—*Applicability—Change of proprietary rights.*

While the law does not specifically provide for cases where proprietary rights change hands, it is one of the principles of the Oudh Tenancy law as amended in 1922 that landlords should be able to get rid of *pahikasht* tenants, if they want the land for a resident tenant of their own village. There is no reason to suppose that when circumstances changed, as *e.g.*, on a change of proprietary rights, the law intended to deprive an incoming landlord of his right to get rid of a *pahikasht* tenant. ——S. 62-A (1) (e)—"*Statutory period*"—*Meaning of—Transfer of ownership.*

While some difficulty arises over the precise meaning to be attached to the words "statutory period" in a case where there has been transfer of ownership, the most equitable interpretation of the intention of the law is that when the ownership is transferred, a man who is a statutory *Pahikasht* tenant becomes liable to ejectment at the suit of the incoming landlord, but is entitled to hold for ten years from the date on which he becomes subject to the provisions of S. 62-A (1) (*e*)—in other words from the date or from the beginning of the agricultural year in which the transfer of ownership took place. ——S. 68-A—*Prohibition as to sub-letting—Object—Cultivation of plots by ploughman in lieu of wages—Sub-tenancy not created.*

Sub-letting has been penalized partly in the interest of the landlord in order to prevent the growth of middlemen who would annex some of the landlord's legitimate profits and partly in order to keep holdings in the hand of the actual cultivators. Consequently the sub letting referred to in S. 68 A must be a real sub-letting implying a real contract of sub-tenancy. The same condition governs sub-Cl. (2). There must be a definite contract of sub-tenancy coupled with a remission of rent The cultivation of a few biswas by a ploughman or other person in the service of the tenant as part of his wages does not create a sub tenancy. ——S. 68-A (3)—*Applicability—Holding with minor co-tenant—Sub-letting—If permissible.*

Sub-letting is not permissible in a holding where the co-tenants includes a minor; because the privilege as regards sub-letting mentioned in S. 68-A (3) of the Oudh Rent Act is not applicable to a case of joint tenancy, unless all the joint tenants are one or more of the descriptions specified. In any year in which the taluqdar is himself in charge of the property or in which the plaintiffs refuse the theka the plaintiff will be entitled to receive daswandh from the assets of the village.

Held, that it was the intention of the decree that the tenants should be in occupation so long as they paid jama in accordance with the practice prevalent in the Shahi days and that it was not intended that the land could be resumed at the option of the taluqdar or that the taluqdar could charge an exorbitant rent. The document says that the land is to remain with her "*naslan bad naslan*" but that she is not to have the right of transfer and that the revenue is to be always borne by the rest of his estate. A grandson of the grantor sued the daughter's son for assessment of rent on this land under S. 107 G of the Resumption chapter.

Held, that the donor did not intend to create full proprietary rights in favour of his daughter as is clear from the fact that he distinctly laid down that she was to have no right of transfer, and that by the same stipulation, he deprived her even of under proprietary rights; that the grant is subject to the law of resumption which only gives the grantee unqualified protection during the lifetime of the grantor or until the settlement of the tract in which the grant is situated is revised, and that it is inevitable therefore that the land should be assessable to rent and that the grantee should be only a statutory tenant under S. 107-G. The landlord can no more step in at the juncture and declare a charge on the quality of the possession of the sub-tenant than he could have done during the life-time of the statutory tenant. The possession of the sub-tenant remained that of a statutory sub-tenant and nothing more and the statutory tenant or the statutory tenant's heir despite of any paper written by the landlord must be entitled to issue a notice in the Revenue Courts for the ejectment of such sub-tenant. If this were not so it would lay the tenant open to continuous harassment which is neither good policy nor good law. (*Keane, S. M. and Oppenheim, J. Tenants holding under a special agreement could only be ejected on such grounds as would justify ejectment under agreement under which they hold. They would not, however, be liable to ejectment for transferring the land covered under their lease by mortgage, if there is no provision express or implied in their agreement that the lease would be forfeited in case of transfer by mortgage. But a permanent alienation would justify re-entry of the landlord against the transferee and the same would apply if the rights of the lessees disappeared in any transaction arising out of the mortgage. In the absence of proof that the tenants of the co sharers were all divided between the co sharers, it is difficult to say that a tenant of a holding in the *patti* should not be considered in the eye of the law as being a tenant of the joint body of co-sharers. Where a tenant brings a suit under S. 108, Cl. into the question what movable property, if any, was in the possession of the judgment-debtors, the attachment was not proceeded with. Afterwards an execution application was made, asking that certain immovable property should be attached. Objection was taken by the judgment-debtor on the ground that the requirements of S. 151 of the Oudh Rent Act had not been properly complied with and that there was movable propery available for the satisfaction of the decree. It was found that a fresh execution application would be barred under S. 145 of the Oudh Rent Act.

Held, that under the circumstances equity demands that the attachment of the immovable property should be maintained and that the question whether there is any movable property available for the satisfaction of the decree should be gone into and if there is any such movable property, the decree-holder must be required to enforce his decree if possible against it and if there is no such movable property, the immovable property which has been attached can be sold. Held, that although the decree-holder cannot be deprived of his right to execute the decree by reason of his purchase of the eight annas share in the under proprietary tenure, it would be only just and equitable that he should be required to give credit for half of the amount of the decree for which he has become liable under S. 154 of the Oudh Rent Act, and the amount for which execution is sought should, therefore, be reduced by half. OUDH SETTLEMENT ACT (1866), S. 4—*Settlement—Nominal increase in assessment — Proportionate increase in rent payable by under proprietor.*

It is part of the duty of a Settlement Officer to reassess all permanently settled mahals, although the purpose of that re assessment is not any alteration in the amount of revenue actually payable, just as it is a part of his duty to reassess *mahals*, the revenue of which has been assigned or redeemed. A new revenue whether nominal or partly nominal is declared in either case and this declaration amounts to a "settlement" even though the actual effect on the proprietor is merely to vary the amount payable as cesses.

Held, that the rent of the under-proprietor is liable to enhancement in proportion to the increase in the nominal assessment of the *mahal*. (*Smith, J. M.*) SHEO CHARAN SINGH *v.* EMPEROR. **15 R.D. 233.**

———*Deed by—Knowledge and understanding—Competent advice—Meaning—Compromise of disputed claim.*

The Court when called on to deal with a deed executed by a pardanashin lady must satisfy itself upon the evidence first, that the deed was actually executed by her or by some person duly authorised by her with a full understanding of what she was about to do; secondly, that she had full knowledge of the nature and effect of the transaction; and thirdly, that she had independent

and disinterested advice in the matter. Independent and competent advice, however, does not mean independent and competent approval. It simply means that the advice should be entirely removed from the suspected atmosphere and should be clear in language and proceed from an independent person free from any taint of interest. This independent advice is not however essential. In a case where there is no independent advice, the Court will have to consider the probable effect of such advice if it had been given, on the mind of the lady. The rules laid down by Courts for determining whether a pardanashin lady understood the nature and effect of a document executed by her are rules of prudence rather than of law and their application depends on the facts of the case. In the case of a compromise of a disputed claim in a pending suit, considerations arise rather different from those applicable to the transfer of vested properties. ———*Mortgage by—Knowledge and understanding—Proof.*

In order that a deed executed by a pardanashin lady may be valid it is necessary that she should have intelligently executed it. A lady who was both pardanashin and illiterate was said to have executed a mortgage deed which was in a large measure designed for the payment of her husband's debts and in which the property mortgaged belonged exclusively to her having been given along with other property in lieu of her dower. It was in evidence that her husband was a man of violent temper and was addicted to drink and prostitutes. Further he had retained a sufficient portion of his property in his own hands for the payment of his debts. All that was proved was that there was a draft and that it had been read to the lady who instead of applying

(6) PARTITION ACT (1893).

———*Binding nature—Person not being party—Rights if affected.*

The rights of a tenant cannot be affected in any way by the orders passed in the course of a partition to which he was not a party. (*Keane, S.M. and Oppenheim, J. M.*) JANKI RAMJANA *v.* JARKHANDI SINGH. **15 R.D. 727=12 L.R. 405 (Rev.).**

———*Binding nature—Person not being party—Whether bound.*

A person who is not a party to a partition is not bound by the partition. (*Raza, J.*) BISHAMBHAR NATH *v.* NISAR ALI. **8 O W.N. 1281=15 R.D. 751.**

———*Burden of proof.*

Where plaintiff's case is based on the fact that there has been a partition, the onus of proving the time at which partition took place is on him. (*Niyogi and Grille, A.J.Cs.*) MT. MOHANKUAR *v.* BHAGATRAM. **29 N.L.R. 350=149 I C. 622=6 R.N. 235=A.I.R. 1933 Nag. 340.**

———*Confirmation of—Alteration of proceeding subsequent to—Jurisdiction.*

Neither the Additional Commissioner nor the Collector has jurisdiction to alter a partition proceeding after it has been confirmed. The correct procedure is to refer the case to the Board. (*Oppenheim, S.M.*) JAGDEO PRASAD *v.* JAWAHIR. **14 L.R. 221 (Rev.)=17 R.D. 331.**

———Confusion of boundaries—Obliteration by party in permissive possession—Equitable interference by Court—Decree for fresh partition. *See* BOUNDARIES. **A.I.R. 1931 Mad 19=60 M.L.J. 85.**

———*Co-owners—Improvements by one co-owner—Allotment of enhanced value.*

Where it is possible to divide a house by metes and bounds and it is contended by one of the parties that he has spent money on improvements or additions, it is not lawful to direct that the other parties should make com-

pensation in money to the party making the improvements in order to equalise the burden. It is true that an equity has been created in favour of the party who has made the improvements but in such a case the only way to recognise his equity is for the Commissioner if that be possible to allot to him that portion of the premises upon which the improvements and additions have been made. If that cannot fairly be done, then the party making the improvements must lose the value of his equity. In a case where it is impossible to divide the premises by metes and bounds, if it is known that the price which may be obtained has not been increased by the amount of the value of the improvements then the total received by the sale should be divided equally. If on the other hand the value has increased, the enhanced value should be deducted before the divisible value is ascertained. (*Lort Williams, J.*) AMULYA CHARAM *v.* PRAKASH CHANDRA. **60 Cal 591=6 I.R. Cal. 93 =145 I C 313=A.I R. 1933 Cal. 502.**

———*Co owners—Party wall.*

A claim by a co-owner to partition of a party wall cannot ordinarily be resisted even where the claim causes inconvenience and difficulty of partition. In the case of a party will it is impracticable to take any action under S. 2, Partition Act. (*Abdul Rashid, J.*) MANSA RAM *v.* NANAK CHAND. **155 I.C. 223=7 R.L. 657=A.I. R. 1934 Lah. 893.**

———*Co-owners—Reservation of easement.*

The proprietor of an estate constructed an irrigation tank in about 1813. The estate was partitioned into two estates in 1864 but the tank bund and a considerable part of the tank bed were kept common to the two estates. It appeared that from the date of its construction till about 1878, the tank was inundating the adjacent lands.

Held, that as a result of the partition an apparent and continuous easement to submerge the adjacent lands was reserved in favour of each of the estate holders. (*Kumaraswami Sastri and Reilly, JJ.*) GAJAPATHI KRISHNA CHANDRA DEO *v.* RAJA OF VIZIANAGARAM. **135 I.C. 349=I.R. 1932 Mad. 93 =1931 M W N. 23=33 L.W. 771=A.I.R. 1931 Mad. 561=60 M.L J 662.**

———*Co-sharers*—Haquiats mutfarikas—*Two classes—Division.*

Where there were two sets of *haquiats matfarikas* in a mahal, namely, those pertaining to the *mahal* itself and those irregularly created by individual co-sharers at a later date,

Held, those of the second class will be included in the lots of the co-sharers who created them but those of the first class were part and parcel of the *mahal* and must be distributed among the co sharers proportionately. (*Oakden, S.M.*) RAM BATTAN *v.* BADRI CHAUBEY. **15 R.D. 243.**

———*Co-sharer—Suit for partition—Shares of other co-sharers—Power of Court to award.*

The Court in a plaintiff's suit for partition has undoubtedly jurisdiction to award the other sharers their shares if they want to avail themselves of such a decision. (*Krisnan Pandalai, J.*) MUHAMMAD SAHOOB LEVVAI SAVABU *v.* MAYAMAD AMMAL. **6 I.R. (Mad.) 174=145 I.C. 968=1933 M W.N 1295=38 L.W. 568 =A.I.R. 1933 Mad. 789=65 M.L J. 582.**

———*Costs—No provision for—Proceedings terminated—Power to order costs rateably subsequently.*

Where there was no definite provision in the partition proceeding that costs were finally to be adjusted over the two parties in proportion to their shares but it appeared that the respondent was the owner of by far

the greater share of the village and resisted the application of a small co-sharer in the most determined fashion, there is no reason why the Court should not order him to pay his rateable share of the costs. (*Oppenheim, S.M. and Walton, J.M.*) MEHRI KUAR *v.* LAIQ SINGH. **14 L.R. 39 (Rev.)=17 R.D. 49.**

———Court-fee in suit for. *See* (1) COURT-FEE.
(2) COURT-FEES ACT, S. 7 (*IV*) (*b*), SCH. I, ART. I AND SCH. II, ART. 17-A AND B.

———Decree for. *See* DECREE.

———Deed of. *See* DEED—CONSTRUCTION.

———*Deed of—Distinction from release.*

A deed by which co-owners divide property in severalty is a deed of partition and merely because mutual release is an incident of the division, the partition deed does not become a release. Moreover a deed of release is a one sided document and binds the executant alone while a partition is an agreement between two or more persons who are all bound by it. (*Irving, F.C.*) RAM LAL *v.* EMPEROR. **11 Lah. L T. 157.**

———*Effect—Partition in fact—Same not in accordance with law—Binding nature.*

Where on the death of a Mahomedan, his sons partitioned the ancestral property to the exclusion of daughters and each of them effected mortgages of the property so partitioned, *held*, that the partition though not according to law was binding on the parties and their representatives. (*Mitter, J.*) SHEIKH SIRAJUDDIN *v.* JOHUR JAN BEWA. **I.R. 1931 Cal. 888= 134 I C. 888=53 C.L.J. 222.**

———*Effect—Rights of individual members* inter se—*Determination.*

A partition is final as regards proprietary rights and as regards the class of tenancy in so far as it affects the partition but is not final as regards the right of individual members of a recorded joint tenancy. For partition purposes, all that is relevant is the fact that there was an occupancy tenancy. In such a case which of the claimants is the occupancy tenants does not arise. (*Oakden, S.M.*) HARJAS *v* SARUP. **15 R.D. 253.**

———*Effect—Transferee from one co-sharer landlord—Land allotted to another at partition—Right of transferee*

Where a person is inducted on the land by a co-sharer landlord as part proprietor he cannot continue on the land after the partition when the land had been assigned to another landlord. His right if any will be according to S. 99 of the Estates Partition Act. And a landlord who gets a piece of land on partition does not take it subject to the encumbrances created on it by other co-sharers and not by him. (*Mahomed Noor, J.*) GANPAT SINGH *v.* AHIBARAN SINGH. **14 Pat. L.T 138=150 I.C. 185=6 R.P. 713=A.I.R. 1933 Pat. 220.**

———*Entries in partition papers—Occupancy land.*

The mere entry of a person's name as a co-occupancy tenant in the partition papers is not sufficient proof that he is really an occupancy tenant. The landlords cannot be tied down to the extent of admitting that every man's name which is entered in an occupancy holding is a correct entry. (*Keave, S. M. and Smith, J. M.*) MAHARAJ SINGH *v.* MEGH NARAIN SINGH. **15 R.D. 516=12 L R. 189 (Rev.).**

———*Mode—Casting of lots—Adoption of* qura andaz i *procedure—Legality.*

In case of partition by a Revenue Officer, the mode of partition must be a fair and just one. Where *qura andazi* was resorted to in the absence of some of the shareholders and it further appeared that the area

PARTITION.

under the *ahadi* was ordered to be decided by lots, a procedure not justified by the circumstances,

Held, that a fresh partition should be directed. The several fields should be dealt with separately unless the proprietors agreed to their being treated as one unit. *Held* also that *qura andazi* should be avoided. (*Townsend, J. C.*) DAMAN *v.* PHERU SHAH. **10 Lah. L. T. 1.**

——*Mode—Demarcation—Map not the only basis.*

Demarcation cannot be made solely on the basis of the partition map without regard to the areas allotted at the partition. It is possible that in drawing up the map, the lines demarcating the *paths* were not drawn with strict accuracy and were only intended to indicate the direction in which the areas specified in the partition papers were situated. (*Keane, S. M. and Oppenheim, J. M.*) PURSHOTTAM DAS *v.* NANDAN. **15 R.D. 283=12 L. R. 89 (Rev).**

——*Mode—Possession of parties.*

Partition should be effected with due regard to the possession of the parties. (*Addison and Hilton, JJ.*) JAI DAYAL *v.* NARAIN DAS. **I.R. 1932 Lah. 222 (2) =136 I.C. 270 (2)=32 P.L.R. 854=A.I.R. 1932 Lah. 127.**

——*Onus of proof—Date of partition—Survey entry—Rebuttal.*

Where at the time of the partition alleged by a party, the family is shown to be joint by the survey entry, the onus of proving the date of partition is on the party who alleges it. (*Macpherson and Agarwala, JJ.*) RAMGAHAN MISSIR *v.* MT. RAMDASI KUAR. **148 I. C. 413=6 R P. 469=A.I R. 1933 Pat. 627.**

——*Partial partition—Omission to include item—Subsequent suit for partition—Maintainability.*

A partition deed between a sister and brother of their mother's property mentioned that they had effected partition of the undermentioned properties and that neither should claim anything in future in respect of the said properties. One of the properties left by the mother was in possession of the brother and it was not included in the partition deed.

Held, that sister could claim her moiety in it and that she was not precluded from so doing by the partition deed. (*Lord Tomlin.*) MAUNG MAUNG GYI *v.* MA NYI MA GYI. **I.R. 1933 P.C. 98=142 I.C 550=37 L W 635=1933 M.W.N. 465=A.I.R. 1933 P.C. 106 (P.C.).**

——*Partial partition—Permissibility.*

——*Partial partition—Property held jointly by co-parceners—Suit for partial partition not maintainable.*

As a general rule a partition should embrace all the joint property. In some cases the rule may possibly be relaxed Where however the property sought to be partitioned is held jointly with descendants, a suit for partial partition is not competent. A.I.R. 1923 Cal 501, Cons. (*Broadway and Johnstone, JJ.*) LACHMAN DAS *v.* SHANKAR DAS. **I. R. 1931 Lah. 776=133 I.C. 440 =32 P L R 289.**

——*Partial partition—Rule against—Principle—Alienee from Hindu coparcener of share in a portion of joint family property—Suit for partition of portion only—Maintainability.*

PARTITION.

The ordinary rule is that a suit for partition must embrace all joint properties owned by the parties thereto. But there is also the complementary rule that a suit for partition cannot include properties in which each of the parties does not claim an interest. The general rule againt partial partition does not belong exclusively to Hindu Law. It is primarily based on considerations of equity and convenience and as such it belongs more to the province of adjective than substantive law can be relaxed in favour of an alienee from a co-sharer of a portion of the joint family property, when no prejudice or inconvenience to the other co-sharers (defendants) is proved to be caused by allowing partial partition. (*Nasim Ali, J.*) TARINI CHARAN CHAKERBATTY *v.* DEBENDRA LAL DEY. **62 Cal. 655=39 C. W. N. 1044=163 I.C. 583=9 R.C. 35.**

——*Partition decree — Delivery of possession of party's share not complete—Order for fresh delivery of possession—Jurisdiction.*

In execution of a final decree for partition *A's* share was delivered, but it was found that *A* could not get actual possession of his share as some huts belonging to the other co sharers were standing on it.

Held, that the Court's order for a fresh delivery of possession by removing the huts was within jurisdiction. (*Lort Williams and M. C. Ghose, JJ.*) ABDUL HAMID *v.* PROKASH CHANDRA NANDI. **152 I.C. 764=7 R.C. 313=38 C.W.N. 832=A.I.R. 1934 Cal. 793.**

——*Partition record—Finality—Rights not reserved under partition—Party whether can plead.*

The partition record defines the rights of the parties to the partition as against each other finally and exhaustively and no party to partition is entitled to deny the accuracy of the partition record when to do so would be injurious to any other party. It is not open to a party to assert ex-proprietary or cognate rights when such rights have not been given to them in the partition proceedings, 17 A.L.J. 1072, Ref- (*Kisch, J.*) NANAK PRASAD *v.* CHANDRIKA PRASAD. **135 I C. 698=I.R. 1932 Oudh 58=8 O.W.N. 1023=15 R.D. 637=A.I R. 1932 Oudh 8.**

——*Powers of Court—Subsequent events.*

Partition suits are an exception to the general rule that the rights of the parties in a suit must be ascertained as at the date of the action brought. In partition suits the Court, in determining the rights of the parties may, in order to settle these rights completely and finally, have regard to events occurring subsequent to the date of the institution of the suit. 9 S.L.R. 61. ———*Preliminary decree—Not obligatory.*

In a consent decree no preliminary decree is obligatory in a partition suit, and where the parties have by means of an execution petition treated it as a final decree, it is not open to either of them to object that it is only a preliminary decree. 11 Bom. 153 and 36 Cal. 193, Ref. ———*Preliminary decree—Subsequent dismissal of suit—Permissibility.*

After a preliminary decree in a partition suit has been passed, it is not competent to the Court to dismiss the suit subsequently. The preliminary decree can only be reversed on appeal and whatever default there may be in the subsequent stages of the suit, that preliminary decree itself cannot be vacated. ———*Preliminary decree—Subsequent objection before Commissioner as to nature of property.*

It is open to a party to a suit for partition to raise an objection before the Commissioner to the effect that certain property should be treated as property with disputed title, although such objection has not been raised in Court before the passing of the preliminary decree. ———*Pre-partition transaction—Mortgage by joint owner prior to partition—Liability of his share in the hands of his transferee.*

When a son mortgages joint property belonging to him and his father and then there is a partition, the property which falls to the share of the son is liable even in the hands of the transferees from the son. 2 P. ———*Pre-partition transaction—Mortgage by joint owner prior to partition—Rights of mortgagee.*

Where the property is joint at the time of the execution of a mortgage by a joint owner, he could only mortgage his undivided share in the property and such a right is always subject to the right of the other co-owners to effect a partition and when such partition is carried out, the mortgagee can only enforce his rights against such property as falls to the share of his mortgagor unless he can show that the partition was fraudulent. It is not essential that the mortgagee should have been made a party to the partition proceedings. ———*Procedure—Order during absence of one party—Validity.*

It is a gross irregularity on the part of a Revenue Officer to sanction a partition in the absence of one of the parties. (*Irving, F.C.*) LACHHMI NARAIN *v.* DHANNA RAM. **11 Lah.L.T. 45.**

———*Procedure—Partition binding only on parties.*

In a partition case the natural and usual procedure to be followed is the procedure based on existing entries. A decision in a partition case is also binding only on the parties to it. (*Oppenheim and Keane, J. M.*) KHAIRAT HUSAIN *v.* RAJAB ALI. **16 R.D. 52.**

———*Proceedings for—Arrangement incorporated in—Right of party to resile from.*

Where a somewhat peculiar agreement of partition is entered into and by agreement of the parties incorporated in the partition proceeding, the parties cannot be permitted to resile from it in subsequent proceedings. (*Drake Brockman, J. M.*) SAFITULNISA BIBI *v.* ALICE BIRD. **14 L.R. 480 (Rev.)=17 R.D. 618.**

———*Proceedings for—Confirmation—Binding nature of transaction.*

The terms of a partition proceeding when once confirmed are binding on the parties irrespective of any change subsequently brought about by the introduction of the Tenancy Act. Where the parties refrain from claiming new *sir* rights, they cannot subsequently claim the same. (*Oakden, S. M. and Smith, J. M.*) VAIDYA NATH KISHORE *v.* RAJENDRA KISHORE. **14 R.D. 697.**

———*Proceeding for—Correction of papers found necessary—Procedure.*

In a partition proceeding the Assistant Collector passed the following order:—"The correction of the papers concerned should at once be taken in hand and the appellant should be informed when those corrections have been completely finished so as to enable him to file another partition application if he wishes so to do."

Held, that the order was not a proper one. The proper course was to have kept the case pending until the papers had been corrected and not to drive the party to a fresh partition. (*Oakden, S.M. and Oppenheim, J. M.*) SADHOSARAN MANI *v* RAM RAJI. **15 R.D. 99 =12 L.R. 10 (Rev.).**

———*Proceeding for—Ex-proprietary tenancy admitted—Right of co-sharer to impugn same.*

Ordinary rights may be considered such as to pass unnoticed or as requiring no challenge during the course of partition proceedings. But the same cannot be said to be true of ex-proprietary rights. The entry as ex-proprietary tenant cannot be challenged by a co-sharer who was a party to the partition proceeding and admitted the ex-proprietary nature of the tenancy. (*Keane, S. M.*) PIAREY LAL *v.* SURJO. **15 R.D. 270=12 L.R. 136 (Rev.).**

———*Proceedings for—Irregularity*—De novo *proceeding.*

———Sir *land—Party in possession—Whether can claim superior right.*

In the absence of any specific provision in the partition proceeding laying down that certain *sir* land is to be considered the severalty of the proprietor in possession of it and is to be allotted to his patti there is no justification for holding that he has any better claim to it than any of the other proprietors to whom it belongs (*Oppenheim, J.M.*) NATHU SINGH *v.* UMRAO SINGH. **15 R.D. 510=12 L.R. 173 (Rev.).**

———Sir *land—Valuation—Statutory rates.*

In a partition case, the fairest method of valuing *sir*, which is transferred and becomes the subject of ex-proprietary rights, is at statutory rates. It would be unfair to the proprietor to value it at *shikmi* or competition rates. On the other hand it would be unfair to the other co-sharers to value it at ex proprietary rates for those rates represent its value on transfer only and not its value to the proprietor. (*Oakden, S.M. and Oppenheim, J.M.*) BANKEY SARAN *v.* JAWALA DATT. **15 R.D. 237=12 L.R. 125 (Rev.).**

———*Subordinate tenure-holders—Application* inter se *for partition—Maintainability.*

Partition at the instance of a subordinate interest-holder among persons holding their subordinate interests will not be binding upon the superior proprietor but that is no reason why it cannot be effected among the tenants. It will enure till the interest of the party seeking partition lasts. The right of partition as a right to possession, is a right of property, and does not depend upon the co-ordination of interests of parties concerned but on the fact of their being in joint possession. The fact that one of the tenants claiming partition has also an interest in the superior interest does not matter. (Case-law discussed). ———Suit for. *See* C. P. CODE, O. 10 AND O. 2, R. 2.

———*Suit for—All Properties to be included, unless abandoned.*

Ordinarily in a suit for possession by partition of a share in joint property, the plaintiff is bound to bring into the hotch pot the entire joint property, but when he abandons his claim in respect of a certain item which is admitted by him to be joint, it is not necessary that he should include it also. ———*Suit for—Commissioner—Delegation of Court's duty—Permissibility.*

In a partition suit the proper duty of a Commissioner is to form and allot *takhtas* according to the shares of the parties as already admitted or found and it is entirely outside his duty to decide the shares of the parties, this power being part of the judicial duty of the Court itself. Where the Court ordered that the Commissioner should proceed with the partition according to his view after hearing the parties and that the Court would look into the matter if objections were raised against the Commissioner's final report.

Held, that there was an entirely unjustifiable delegation of the Court's duties to the Commissioner. (*Dhavle and Saunders, JJ.*) RAM BAHADUR *v.* SITARAMJI MAHARAJ. **6 I.R. (Pat.) 254=146 I.C. 353=A.I.R. 1934 Pat. 32.**

PARTITION.

———*Suit for—Defendant asking for separation of his share—Liability to pay Court-fees.*

In a partition suit, each party stands in the position of a plaintiff with reference to the others, and the Court cannot refuse the prayer of the defendant for separation of his share. It is not necessary that he must either come into Court as a plaintiff or first pay proper Court-fees before a partition decree could be drawn up in his favour. Such a decree would fall within the definition of an instrument of partition within the meaning of S. 2 (15) of the Stamp Act, and under S. 29 (*g*) of that Act, it is the duty of the Court to decide the proportion of the stamp payable by each person who desires his share separated. It would, of course, be impossible for any of the parties to execute the decree until the stamp duty was first levied and paid. It is, however, not necessary for the defendant who claims execution under such a stamped decree also to pay court-fees. (*Addison and Mahomed, JJ.*) MAQBUL AHMAD *v.* MT. ———**Ss. 2 and 3**—*Scope.*

Section 3 comes into play only when a sale has been applied for under S. 2 by a shareholder or shareholders interested to the extent of at last one-half of the property. It is at that stage and before the sale is actually ordered that the right to apply for leave to buy at a valuation can be exercised under S. 3. But that can be done only by a shareholder other than the larger shareholder who applied for sale under S. 2. The effect, curiously enough, is to favour the smaller shareholder at the expense of the larger and that explains why Ss. 2 and 3 have been so strictly construed by the Courts.

If a sale is directed under S. 2 and S. 3 does not apply either because the application was not of the nature, or the applicant was not the one, specified in the section, then the sale is nevertheless one governed by the Partition Act and S. 6 relates to such a sale and shareholders and strangers alike may bid at the sale. ———**S. 4**—*Applicability.*

———**S 4**—*Applicability—Essentials—Meaning of word 'family'—Son in law whether member of family.*

The element which must to co-exist in order to attract the operation of S. 4 are (1) that the dwelling-house should belong to an undivided family, (2) that the share thereof should have been transferred to a person who is not a member of such family, and (3) that the transferee should sue for partition. The word 'family' as used in the Act should be construed liberally so as to include not merely a body of persons who trace their descent from a common ancestor but also a group of persons related in blood who live in one house or under one head of management Sometimes a son-in-law who actually resides in the family of his mother in-law for a number of years and has practically taken up his home with his father-in-law is regarded as a member of the father-in-law's family. Held, that the decree read with the relevant portion of judgment in that suit postponed execution of the sale deed to the payment of the said sum and made it conditional upon it; that the defendant not having done so, the plaintiff or his representatives continued to be the owners of the property and that the defendant or his representatives had no interest in the property entitling them to claim the benefit of S. 4 (*Walsh, J.*) SUBRAMANYA SASTRY *v.* SHEIK GHANNU. **A.I.R. 1935 Mad. 628.**

———**S. 4**—"*Transfer*"—*Surrender by tenant.*

But when the course of conduct of the parties shows that after his death the business has been continued as before under the old firn name in the same premises, and the accounts continued to be written in the same books, and the son of the deceased partner is also taken in as a new partner, that indicates that, though there was a technical dissolution by the death, there is a subsisting partnership going on, and no question of limitation arises as regards a suit for accounts. Where, in a suit for accounts of a dissolved partnership, the Court passes a preliminary decree directing accounts, and a Commissioner goes into the accounts and submits a report on which the Court passes a decree

declaring the amounts due to and by the several parties, that binds all the parties including parties who remain *ex parte* in the suit as well as before the Commissioner. A party who could, if he chose, have asked for a decree in his favour for the amount that may be found due to him, but does not do so, would be bound by the result of the accounts taken by the Commissioner and accepted by the Court, notwithstanding that he did not appear before the Commissioner or before Court. He could equally claim to take advantage of what happened in the suit, because he was a party to the action, though *ex parte*. ———*Debt by one partner to another—Money advanced to acquire share in partnership property—Lien on debtor partner's share.*

Each partner has a right to have the property of the partnership applied in payment of the debts and liabilities of the firm, before it can be seized by a creditor of one of the partners. If after satisfying the claims against the firm, there is any surplus, then the share of each partner in the surplus may be applied in payment of his separate debts. When the money due to one partner by the other is not a debt of the partnership, it cannot be recovered from the partnership property. The mere fact that the creditor partner advanced the money to the debtor partner to enable him to acquire his share in the partnership property does not alone give the former a lien on the latter's share in the partnership property. He is not on a higher footing than the other creditors. ———*Dissolution—Accounts—Charge for services rendered by partners.*

The general rule is that in the absence of a contract to the contrary, partners in taking the partnership accounts cannot be allowed to charge for services rendered by them, and the fact that services rendered by the partners have been exceedingly unequal is immaterial. In such cases the question of remuneration is considered as left to the honour of the partner. Where a surviving partner carries on the business for the benefit of the firm, after the death of his partner, he is entitled to remuneration for his trouble. But the circumstances would have to be very exceptional to justify a Court allowing a partner remuneration for his services in winding up the partnership after dissolution, *e.g.*, deliberate or wilful withholding of services by other partners, (Case law discussed.) When after the death of a partner, the surviving partner takes over the assets of the business at his own valuation and continues the business, there being no agreement of the parties in that respect, and the legal representrtive of the deceased partner complains that the valuation is too low, the Court can only direct a sale of the property unless the surviving partner is willing to take over the business at what the Court may consider a fair value. The Court cannot thrust upon him a purchase which he has never contracted to take, although it is open to the Court to scrutinise the valuation given by him. In case his valuation, which is an offer by him, is not accepted by the Court or the heir of the deceased, the Court can only direct a sale. In the eye of law a firm has no existence apart from the members constituting the firm. It is not a person either natural or artificial and it is not a person who can sue or be sued. The definition of "firm" under S. 239 of the Contract Act has been repealed and replaced by the Partnership Act, and the definition of the term "firm" has been made clearer. The name under which partners carry on a particular business is in fact the name of the partners taken as a whole. Firm is not a *juristic persona* to be taken cognisance of as such by the law, such as, an idol or a corporation is. When a suit is instituted by or against a firm, it is really a suit by or against a group of individuals, and the name of the firm is the collective name of the individuals. An agreement of sale made in 1919 was never put into effect and was later on set aside by consent of the parties and replaced by a deed of assignment in 1923 which was executed by the vendor in favour of the wife of the promisee under the agreement. But the vendee never got it registered. At a time when a suit for specific performance was barred by time, the vendor repudiated the assignment.

Held, the doctrine of part performance did not apply and the vendee could not therefore rely on it to resist the claim of the vendor under the law in force prior to the enactment of S. 53-A, T. P. Act, which partially imported into India the English equitable doctrine of part performance. Where, during the execution of a money decree an agreement was arrived at between the parties to the effect that a certain amount was to be paid then and there, the balance to be paid in cash at a later date and the remaining amount would be registered with certain trustees who had been appointed by the judgment debtors to pay off their creditors and on that amount the decree holder was to receive rateable distribution from the trustees and the spot cash was paid then and there, *held*, that it was not open to the decree-holder to repudiate the other terms. By accepting the cash and the benefit of the compromise under the compromise decree he is clearly barred by the rule of estoppel and the doctrine of part performance from repudiating the other terms which are part in no way illegal. ——*Applicability—Contract should be specifically enforceable—Minor's property—Contract for sale of.*

One of the necessary conditions for applying the doctrine of part performance is that the contract to which the doctrine of part performance refers must be such as in its own nature is enforceable. Agreement of sale of immovable property of a Hindu minor entered into on his behalf by his guardian is not binding on the minor and enforceable specifically against him, even though the debts binding on the minor are discharged by the consideration paid for the sale and consequently the doctrine of part-performance does not apply to such a contract. ——*Applicability—Suit in ejectment—Plea of oral contract of sale—Sustainability.*

An averment of the existence of a contract of sale is not a relevant defence to an action in ejectment. If the contract is still enforceable, the defendant may found upon it to have the action stayed, and by suing for specific performance obtain a title which will protect him from ejectment. But if it is no longer enforceable, its part performance will not avail him to any effect. Plaintiff purchased 17 plots of land which he leased to the defendants for a term. On the expiry of the lease, plaintiff demanded possession and got possession of 8 plots only. He sued for possession of the 9 plots, in answer to which the defendant pleaded a settlement between the plaintiff and himself under which it was orally agreed that half the lands should remain with the defendant as owner and the other half only should be delivered to the plaintiff.

Held, that the plea did not avail the defendant and could not be proved. (*Murphy and Sen, JJ.*) CHAND AHMEDALLI *v.* RAVJI TANAJI. **37 Bom L.R 246.**

——*Doctrine of—Applicability to N.W.F. Province.*

——*Lease—Lessee all along in possession—Fresh agreement of lease registered—Patta contemplated but never executed—Liability of lessee to ejectment—Equity.*

Equity holds people bound by a contract which, though deficient in some requirement as to form, is nevertheless an existing contract. Where there was a complete and concluded contract between the parties concerned, in the suit for ejectment, that contract was evidenced by a registered instrument, and had been followed up by performance of the material terms and conditions contained therein and the lessee, who had been all along in possession, continued to remain in possession after the expiration of the pre-existing lease, the mere fact that the contract contemplated the execution of a formal document, a patta which was never done within 3 years and so a suit for specific performance of the contract for lease by the execution of a patta would have been barred by limitation, does not entitle the lessor to eject the lessee. Equity will hold the lessor bound by the contract for lease.

Held, on the facts, in view of the conduct of the parties there having been no refusal at any time in the matter of execution of a patta, time was not of the essence of the contract so far as the executions of a patta was concerned, the defendants right to specific performance of the contract for lease was not barred by effluction of time on the date, on which the suit for ejectment was instituted by the plaintiff. ———*Lease—Verbal contract to give permanent lease—Buildings erected when contract specifically enforceable—Suit for ejectment—Right to specific performance barred—Effect.*

In 1913 a verbal agreement was made between appellant and respondent, for the grant to the respondent by the appellant of a permanent lease of a small parcel of land at a total rent of Rs 80 per month. In anticipation of the execution of the lease, the respondent was let into possession in June, 1913, and shortly thereafter, he erected certain structures on the land with the knowledge and approval of the appellant. At sometime in the course of the year 1914 the parties agreed that the lease should be a lease for five years. No lease was ever executed but in October, 1922, the appellant served upon the respondent a notice to quit, asserting that he was a monthly tenant, and requiring the premises to be vacated by the 1st November, 1922. This not being done, the suit was instituted in the month of April, 1923. The structures were erected not in any mistaken belief by the respondent of his rights, which he correctly believed to be his; not by reason of any encouragement or abstention on the part of the appellant, but by reason of the agreement which he was then entitled to enforce against the appellant.

Held, that the respondent having allowed his right to enforce his contract to become barred was not entitled to resist the appellant's claim to possession, by referring to a title the acquisition of which is forbidden by statute. If, on the other hand, the defendant's right to enforce specific performance of the agreement had been subsisting at the date of the suit for ejectment, the defendant could claim to have executed in his favour by the plaintiff an instrument in writing which he could duly have registered, the plaintiff's suit being stayed in the meantime. But having allowed that right to become barred, he cannot invoke the aid of the doctrine of part performance. PATENTS AND DESIGNS ACT (II OF 1911) S. 2 (8)—*"Invention"—Meaning — Subject-matter of patent—Combination of things.*

The question whether there is an invention is a question of fact. A new and useful application of an old principle may be a good subject-matter of patent. An improvement on something known may also afford subject-matter, so also a new combination of different matters already known. A patentable combination is one in which the component elements are so combined as to produce a new result or to arrive at an old result in a better or more expeditious or more economical manner. If the result of the combination is either a new article or a better or a cheaper article than before, the combination may afford subject-matter for a patent. The mere collocation of two or more things, without some exercise of inventive faculty, is not, however, a subject-matter for a patent. After judgment was pronounced by the Court in a suit for infringement of patent, an application was presented under S. 17 of the Patents and Designs Act, to the Controller of Patents for leave to amend the specification of the amendment. The application was duly advertised under S. 17 (3) of the Act. Subsequently an appeal was filed against the decree in the suit. Objection was raised to the maintainability of the application on the ground that S. 17 (9) of the Act deprived the Controller of all jurisdiction in the matter, as the action for infringement was still to be regarded as pending.

Held, that the suit for purposes of S. 17 (9) terminated the moment the Court pronounced its judicial decision and could not be regarded as pending when the application was presented to the Controllor of Patents; that "suit" did not inculde an appeal from the decree in a suit for infringement, under S. 17 (9), that an action for infringement meant action before judgment and that the filing of an appeal did not deprive the Controller of jurisdiction to deal with an application already presented to him under S. 17 (1). ——**S. 29**—*Infringement of patent—What constitutes—Suit for damages—Onus of proof.*

A patent may be infringed in several ways, one of which is by using the invention or any colourable imitation thereof in the manufacture of articles or by putting the invention in practice in any other way. A patent may sometimes be infringed by taking a part only of the invention, but that depends on whether the part for which protection is asked is a new and material part, especially in the case of a combination. The question of infringement is a mixed question of law and fact. The plaintiff in a patent action has got to prove that his process has been counterfeited or imitated by the defendant. It is necessary for him to give the particulars of the breaches constituting the alleged infringement of his patent rights. ——**S. 38**—*Patent—Essentials of validity—Public user and private user—Distinction.*

The two features necessary to the validity of a patent are novelty and utility, but the real test is the novelty of the invention. Novelty is essential, for otherwise there would be no benefit to the public and consequently no consideration moving from the patentee. A plea of want of novelty also includes the plea of want of subject-matter. Under S. 38 of the Patents and Designs Act there must be an absence of prior publication or of prior public user; and if the user is secret or experimental, the profits made by the inventor from his invention must not be excessive. There is a distinction under the section between public user and private user as also between public user of the invention by working it commercially and public user of the invention from the point of view of publication. The public user of the invention for purposes of trade may, in certain cases, defeat a patent for want of novelty quite apart from the question of publication. It is also clear that if the public has once become possessed of the knowledge of the invention before the date of the application, no patent subsequently granted is valid. PATENTS AND DESIGNS ACT (1911), S. 38.

——**S 38**—*Scope—Public and private user.*

S. 38 distinguishes clearly between public user and private user. Whether a process has been publicly used or not is a question of fact. (*Beaumont, C.J. and Rangnekar, J.*) LALLUBHAI CHAKUBHAI *v.* SHAMALDAS SANKALCHAND. **153 I C 481=7 R.B. 234 =36 Bom L R. 881=A.I.R. 1934 Bom. 407.**

——**S. 38 (1)**—"*Public user*"—*What amounts to.*

Under S. 38 if an article manufactured under a secret process is of such a character that no one by examining it can find out the secret of that manufacture, then the sale of that article in public cannot amount to public user of the process. Public use does not mean use by the public but use in a public manner and not secretly. Public user which would invalidate an invention or rather on account of which an invention shall not be treated as a new invention must be the use of the invention in public. (*Beaumont, C.J. and Rangnekar, J.*) LALLUBHAI CHAKUBHAI *v.* SHAMALDAS SANKALCHAND. **153 I C. 481=7 R.B. 234=36 Bom.L R. 881=A.I.R. 1934 Bom. 407.**

——**S. 38 (1) (a)**—*Public user or publication—What constitutes.*

Public user does not mean a user or exercise of the invention by the public, but a user or exercise in a public manner, and that is a question of fact. If the invention is being put into practice before and at the date of the grant, the grant will not be for a new invention or manufacture, whether the invention is being practised by the patentee himself or by others. A use of the invention for purposes of trade may constitute a prior user invalidating the patent, and a prior public sale of goods or articles treated according to the invention is a public user of the invention, the sale being strong evidence of the user being commercial and not experimental. But to constitute evidence of public user the sale must be open and in the ordinary way of business. The publication of an invention by sale of the articles treated by it for purposes of trade by the patentee or by others may constitute a prior user even if there is no publication. (*Wadia, J.*) LALLUBHAI CHAKUBHAI *v.* CHIMANLAL CHUNILAL & CO. **60 Bom. 261=161 I.C. 393 (2)=8 R.B 346=37 Bom.L R. 665=A I R. 1936 Bom. 99.**

——**S. 38 (1) (b)**—*Scope—Experimental user—User for profit—Distinction — Excessive profits—Test.*

A prior user might be of an experimental nature, *i.e*, what was genuinely necessary for the inventor to satisfy himself as to the practicability of his invention If it exceeds such limits and is carried on for profits, such user will defeat the subsequent patent. But a distinction has to be drawn between the use of an invention for profit and the carrying out of experiments which turn out successful and only incidentally bring in profit to the inventor. There is no test or authority laying down the limit beyond which the profits made by the inventor out of his invention are deemed excessive. It is the inventor's profit alone that has to be considered. (*Wadia, J.*) LALLUBHAI CHAKUBHAI *v.* CHIMANLAL CHUNILAL & CO. **60 Bom. 261=161 I.C. 393 (2)=8 R.B. 346 =37 Bom L R. 665=A.I.R. 1936 Bom 99.**

——**S. 38 (1) (b)**—*Secret use of invention—Right to patent.*

When there has been no more than a secret use of the invention by the inventor with a view to taking out a patent or the manufacture for the inventor and under injunctions as to secrecy by a manufacturer, the patent will be good. But this will not be the case where the secret process has been used for profit or where the invention was communicated to a third person in a manner which both in law and in equity allowed him to do what he liked with the invention. S. 38 allows a secret user for a reasonable profit. (*Beaumont, C.J. and Rangnekar, J.*) LALLUBHAI CHAKUBHAI *v.* SHAMALDAS SANKALCHAND. **153 I.C. 481=7 R B. 234=36 Bom. District Judges have power under R. 15 and S. 139 (*c*), C. P. If there is such an order the Sheristadar of a Munsif Court has authority to receive and attest affidavit referring to an appeal pending in the Court of the District Judge. If a Sheristadar of a Munsif Court receives the affidavit in exercise of the powers conferred on him *ex officio* by R. 13, then no doubt his jurisdiction is limited to matters arising within and subject to the jurisdiction of that Munsif. But the issue of process of the District Judge's Court through the Nazarat of the Munsif is a matter arising within and subject to the Munsif's jurisdiction and the Sheristadar can receive and attest an affidavit in that matter. The rules of the Patna High Court do not expressly provide that in the case of an application for review, the application should be accompanied by a copy of the judgment or order sought to be reviewed although the practice of the Court has been not to consider the application as competent without a copy of the judgment or order sought to be reviewed. Early steps should be taken for the necessary amendment of the rules so as to bring them into conformity with the existing Practice of the Court. Where an application for review is filed in time without a certified copy of the judgment accompanying the application, and such copy is filed beyond time (an uncertified copy originally filed with the application having been objected to as insufficient), and an application under S. 5 of the Limitation Act is also filed for extending the period of Limitation.

———**S. 34**—*Offence under S.* 300, *I. P. Code—Proof of intention to join in act of murder—Conviction for murder.*

In all cases, whether the crime is committed by a single person or by several persons acting together, the Court has to determine what was the intention of the accused person and must in all cases determine this by presumption from the acts done by him and must take into consideration all the circumstances of the case. The question of intention, in any case, is a question of fact and it must be decided on the proved facts of that case. No general rule can be laid down upon such a subject. And if in so determining the common intention of a number of persons, the facts are such as to lead to a conclusion that some of those persons had such an intention as would make the offence murder, but in the case of others the intention did not go so far, then these latter persons are liable to conviction for such offence as would be constituted by the acts of the combination if done with the intention held by themselves individually. If that is so, then those persons whose intention can be held to be such as would make the offence murder, are liable to conviction of that offence, while others are liable only for some lesser offence, which must be determined by a consideration of the intention attibutable to them. Thus where one accused who is present when the fatal blow was struck and shares with the other the intention to cause death or injury sufficient in the ordinary course of nature to cause death, he can be justly convicted of murder, even though there is no proof that he struck any blow to the person murdered and that the person was killed by the blows struck by the other alone. There was enmity between the two factions, who resided in one village. Some members of one faction went to the school in the village, armed with sticks with the intention of causing injuries to three men of the other faction who had already gone there. The partisans of these three, when they learnt of this, came armed with hatchets and spears. They were six or seven in number, whereas their opponents were five. Three persons who had already gone before joined their partisans and attacked the five members of the other faction, with the result that one of the latter group received a spear thrust, and died on the spot. Commuting the sentence of death passed on assailant to that of transportation for life as the party attacked were initially the aggressors.

Held, that the plea of private defence was not available to the person thrusting the spear in the body of the deceased and the partisans of the person dealing the spear thrust or any of them present at the assault could be convicted of murder by applying S. 34 even if it be held that he did not actually strike the deceased. "Criminal law" means the criminal law in its widest sense. Criminal law connotes only the quality of such acts or omissions as are prohibited under appropriate penal provisions by authority of the State. The criminal quality of an act cannot be discerned by intuition; nor can it be discovered by reference to any standard but one: Is the act prohibited with penal consequences? Morality and criminality are far from co extensive; nor is the sphere of criminality necessarily part of a more extensive field covered by morality, unless the moral code necessarily disapproves all acts prohibited by the State, in which case the argument moves in a circle. It is of little value to seek to confine crimes to a category of acts which by their very nature belong to the domain of "criminal jurisprudence," for the domain of criminal jurisprudence can only be ascertained by examining what acts at any particular period are declared by the State to be crimes and the only common nature they will be found to possess is that they are prohibited by the State and that those who commit them are punished. Where the question is whether a public servant was justified in doing a certain thing, his justification must have a better foundation than his mere private belief, for a man may be very foolish in believing himself justified, but the law could not adopt so vague and unsafe a criterion. It may enter the previous conviction in the charge so that the accused may understand that it will be taken into consideration in passing the sentence The Court, however, should not refer to S 75, unless it is competent to give enhanced sentence under the section (*Ramachandra Rao, J.*) DEVAPUTRA, *In re.* **12 Mys.L J. 415.**

———**S. 84**—*Plea of insanity—Onus of proof—Principles applicable—Plea not made out—Procedure under S. 401, Criminal Procedure Code*, 1898.

Under S. 84 exemption from criminal liability can be allowed only when the accused is incapable of realising the nature of the act or knowing that he is doing what is either wrong or contrary to law. It is not therefore, every person suffering from mental disease that can avoid responsibility for a crime by invoking the plea of insanity. A man may be suffering from some form of insanity in the sense in which the word is used by a medical man but may not be suffering from unsoundness of mind as defined in the section. There is a clear distinction between a 'medical insanity' and a 'legal insanity' and the Courts are concerned only with the legal and not the medical view of the question. Moreover to establish a defence on the ground of insanity it must be shown that the mental condition referred to in the section existed at the time when the act was committed. If a man is insane six or seven hours after committing the murder, it raises no presumption that he was of unsound mind at the time of the committing of the murder. The onus of establishing the plea of insanity is undoubtedly on the accused. Plea of insanity held on the facts not to be made out. Owing to exceptional circumstances, however, case forwarded to the Local Government for the Governor to take such action under S. 401, Cr. P. Code, as might be deemed right and proper. ———**S. 84**—*Plea of insanity—What must be proved—Onus.*

The legal conception of insanity differs considerably from the medical conception. In order to be a good defence, the burden of proof lies on the defence to show that the accused at the time of committing the offence was "by reason of unsoundness of mind incapable of knowing the nature of the act or that he was doing what was either wrong or contrary to law." All other forms of insanity and minor aberrations of mind which are recognised by the medical sciene as amounting to madness are excluded in the eye of the law.

PENAL CODE (1860), S. 84.

It is not every person mentally diseased who is exempted from criminal responsibility. The rule enacted by S. 84 prescribes that such exemption is allowed only where accused is "incapable of knowing the nature of the act or that he is doing what is either wrong or contrary to law." A man may be suffering from some sort of insanity in the sense in which the expression is used by medical man but may not be suffering from unsoundness of mind as contemplated by law. If he is capable of knowing the nature of the act or of realising that the act is wrong or contrary to law, he must be held to be guilty. His liability will not be diminished simply because he did the act under the influence of some delusion or in order to redress or avenge some real or supposed grievance. It is not every form of unsoundness of mind that would exempt a person from criminal responsibility, but only such "unsoundness of mind as would materially impair the cognitive faculties of the mind that can form a ground of exemption from criminal responsibility—the nature and extent of the soundness of mind required, being such as would make the offender incapable of knowing the nature of his act or that he is doing what is wrong, or contrary to law." The presumption of law is that every person who has arrived at the age of discretion is sane and is accountable for his actions unless the contrary is proved. The burden of proof is upon the person setting up the defence of unsoundness of mind, who must not merely prove mental derangement but that particular and appropriate kind of derangement recognised by law—that is to say—a disease of the mind which deprives him at the time of committing the act, of the faculty of distinguishing right from wrong, or of discerning the nature and quality of his act. The fact that the accused had an attack of insanity before the occurrence and another one in jail during the period between the inquiry in the Committing Magistrate's Court and the opening of the trial in the Sessions Court is not sufficient to prove that it was in a fit of insanity that he committed the assault. The accused was the pujari of a Mari Amman Temple. While invoking the deity for the purpose of curing an attack of small-pox, he professed to become inspired, snatched the five months old baby of P. W. 1 and killed it.

Held, though he might have been labouring under a delusion that the sacrifice was necessary to please the Goddess, it was not shown that he did not know what he was doing when he killed the child. On the other hand, he knew that he was killing the child to appease the Goddess, and so he could not be said to be insane within the meaning of S. 84. There was strong evidence that the accused was insane a few days after the murder. There was also evidence that even prior to murder, he was insane. The accused was then sent to Mental Hospital. The Superintendent of the Mental Hospital then wrote that "accused was feigning insanity." On this, the successor of the Sessions Judge relying on the letter of the Superintendent convicted the accused. The letter however was not proved. Nor was the Superintendent examined as a witness.

Subsequently the tenant and his sons cut and removed the paddy on one of the plots and stored the same in a Khamar adjoining their homestead. Thereupon the manager of the landlord had the crops on the other two plots reaped and removed to the landlord's cutchery, and proceeded to the house of the tenant to recover the paddy cut and stored by the latter previously. While so engaged, the manager who was unarmed and his cartmen were set upon by the tenant and his sons and others; the cartmen who were assaulted ran away, but the manager was thrown to the ground, tied hand and foot and kept underground for several hours. Held, that the accused were exercising their right in abating the nuisance caused by the dam across the river and when the complainant's party who had no right to place a dam across the river came and attacked them, they had a right to defend themselves, and that right included the right to inflict such injuries as grievous hurt including death. 20 I C. 623, Appl. ———**Ss. 97 and 102** — *Right of private defence—Extent.*

Under S. 94, a person has the right not only to defend his own body but to defend the body of any other person; and under S. 101, this right can be exercised as soon as a reasonable apprehension of danger to the body arises from an attempt or threat to commit any of the offences mentioned in Ss. 100 and 101. The appellant was only about a yard away from the co-accused when the deceased advanced towards the latter in a threatening manner raising an iron starting handle of the motor car above his head as if he was going to strike him with it. When the deceased was within an arm's length from the co-accused, the appellant stabbled the deceased with a knife as the co-accused had no weapon in his hand when the deceased for a second time made preparation to strike him with the iron handle.

Held, that the appellant's case fell well within the provision of S. 100, and that the appellant had not exceeded the limit provided by S. 99.

Held, further, that the law did not require a person labouring under a reasonable apprehension of death or grievous hurt to his companion to postpone his right of defending the body of his companion until it is seen that the latter unaided, failed to eradicate the source of danger. Even if the judgment-debtor managed surreptitiously to plant some paddy in some of the lands in dispute, that would not give him such a possession as would justify any Court to give him any right of private defence. PENAL CODE (1860), S. 102.

It is difficult to lay down any hard and fast rule to determine the amount of harm which is legally justifiable or permissible in the exercise of the right of private defence. Every case is to be considered on its own facts and before giving any accused person the benefit of the right of private defence, a Court of Law must be satisfied that his case is clearly covered by the general exception. If a person is armed with a hatchet and disables his adversary by the infliction of one blow on his head, it cannot be urged that he has any reasonable apprehension left that if he did not repeat his blow, grievous hurt will be the consequence. When a man is suddenly attacked by two or more persons it is not fair to weigh his actions in golden scales. Where a person finds himself in a very dangerous situation and it is a case of two to one against him, and in all probability three to one and he has every reason to apprehend that a grievous hurt would be inflicted, the right of private defence extends to the voluntary causing of death or of any other harm to the assailant, if the offence which occasions the exercise of the right is such an assault as may reasonably cause the apprehension that grievous hurt will otherwise be the consequence. ——**S. 102**—*Right of private defence—Extent of.*

It is difficult to judge the extent of the right of private defence by any hard and fast rule and the accused cannot be expected to regulate the extent of force to be used by him by any precise standard. In deciding whether the right of private defence has been exceeded, regard must be had to the comparative physical strength of the accused and the deceased respectively and also to the antecedents of the deceased and his conduct at the time of the occurrence. Where the deceased, who was a strong man of dangerous character and brutal nature and reputed to have killed a man previously had some quarrel with the accused and

There can be no question of a right of private defence when two parties are equally determined to fight on the pretence of securing their respective possession over a field. There can be no room for the plea of defence of person or property when either party invites the other to the contest. Force used by a person in lawful possession of property to ward off aggressors cannot be characterised as unlawful. Where during a quarrel between the accused and another woman, the accused called out to her son who hit the other with a lathi and caused her death and the trial Judge convicted the accused under S. 304 read with S. 114 or 111, I. P. Code.

Held, on appeal, that S. 114 has no application to the case, as it applies to those cases only in which the accused, if absent, would be liable to be punished as an abettor, and that in the present case the accused, if she had been absent, could not have been liable as an abettor as there was no conspiracy between her and her son and as there was no instigation on her part beforehand.

Held, also, that the case is not governed by S. 111 which is applicable only when the act done is a probable consequence of the abetment and all that the accused intended by calling out to her son was that the latter should give some chastisement to the deceased and that she could not even have intended to cause grievous hurt to her, much less her death, so that it cannot be said that what actually happened was the probable consequence of her abetment.
